

RYAN FRUIT COMPANY TO BUILD NEW PLANT HERE

TO ERECT NEW BUILDING UPON TRADE STREET

With announcement that the Ryan Fruit company will build a new warehouse and cold storage plant at Trade and Cottage streets to be completed by April 1, another step has been taken in the rapid development of Trade street. It has been freely predicted by commission men that five years would see Trade street built up solidly from Cottage to Commercial on each side with commission storage and fruit handling plants and developments there indicate that the prognosticators may not be far off.

The Ryan Fruit company already has let the contract to David Fugh for constructing of the new buildings and work will go ahead at once.

The new Ryan plant will be at the northwest corner of Cottage and Trade. Directly across the street will be the new plant of the Willamette Valley grocery company to go up this year. A block north of the Ryan plant is the Capital Ice & Storage company is getting along toward completion. The Pacific Fruit & Produce company has occupied its present new quarters in the middle of the block for a number of months, and these coupled with cannery and warehouse plants of Tragle and the Northwest Fruit products company, comparatively recent acquisitions, give some indication of the spur taken along Trade street toward becoming the real center of the Oregon fruit industry.

BEARCATS WIN LISTLESS GAME FROM LOGGERS

In a game marked by only an occasional flash of high calibre basketball, the Willamette university quintet defeated the College of Puget Sound by a score of 24 to 20 on the local floor last night.

Throughout the game the Loggers took frequent long wild shots at the basket, missing and losing the ball every time. They led in scoring however, during a large part of the tilt. The first half ending with the Bearcats leading 11 to 10.

In the second frame the Bearcats several times uncocked a brilliant offensive, at one time leading 21 to 14. Erickson twice flashed through the northern defense for counters. He made three baskets during the game. Faenaecht showed an occasional streak of brilliant form. Emmel chalked up 7 points, leading his team in scoring, and being with Enochs, C. P. E. center.

Rathbun, Willamette coach, made one substitution, taking Hartley out for less than two minutes, and placing Herman in the game during that time. The Loggers ran in several men during the second frame.

Coleman of O. A. C. officiated.

Mill City Wins
Mill City, Feb. 20—In a very rugged and interesting game the basketball team of the Mill City high school defeated the Albany college freshmen here Wednesday night, 22 to 6. In a preliminary game, the high school second team defeated the grade school 6 to 0. The high school team goes to Salem Friday night to play the Parkish junior high school a return game, and on the 27th will go to Crabtree to play the Crabtree high school.

Salem Markets

Compiled from reports of Salem dealers for the guidance of Capital Journal readers. (Revised daily.)

WHEAT AND CORN SLIGHTLY LOWER

Chicago, Feb. 20—Initial quotation ranged from 1/4 to 1 1/2 higher, May \$1.86 1/2 to \$1.87 and July \$1.56 1/2 to \$1.56 3/4, with May after-ward being \$1.87 1/2.

After opening unchanged to 1/4 higher, May \$1.81 to \$1.81 1/2, corn sagged a little but then scored moderate general gains.

Starting at 1/4 to 3/4 advance, May 5 1/2 to 5 1/4, oats underwent a moderate setback all around. Provisions advanced.

The wheat close was heavy, 1/4 to 1 1/2 net lower, May \$1.85 1/2 to \$1.85 3/4 and September \$1.53 1/2 to \$1.54.

Corn closed weak 1 1/4 to 1 1/2 net lower, May \$1.25 1/2 to \$1.25 3/4.

CHEESE PRICES DROP 2 CENTS; BUTTER HIGHER

Portland, Feb. 20—Cheese prices are two cents down in the local market today with the Tillamook association leading the decline. Tillamook triplets are now quoted the trade at 29 cents with local at 30 cents.

Other Oregon makes were slow in following the decline but offerings of triplets are being made at 22 and 24 cents with Oregon loaf at 25 to 26 cents wholesale.

A seasonal fall is shown in the cheese market with trading quiet although dealers report the movement normal for this time of year.

As a seasonal advance in extra grades to 4 1/2 cents is the only change in the local butter market for the day. Other grades are steady with the general situation showing a healthy tone.

Eggs are steady and unchanged. Receipts are moderate with demand good.

Other Oregon makes were slow in following the decline but offerings of triplets are being made at 22 and 24 cents with Oregon loaf at 25 to 26 cents wholesale.

LIVESTOCK

Portland, Feb. 20—Cattle market active; receipts none; steers good \$7.50@8.00; medium \$6.50@7.50; common \$5.50@6.50; canner and cutter steers \$4.50@5.50. PACK ESTIMATES FOR PRUNES HELD OUT OF REASON

Members of the Northwest Packers association in session here this week with a secret census determined that the normal crop of prunes for 1924 amounted to 59,000,000 pounds, but as near as can be determined every local packer is satisfied that the total arrived at is beyond all reason and general consensus of opinion is that the pack will not exceed 45,000,000 pounds, and many packers declaring that a figure of 42,000,000 is giving an exceedingly healthy estimate on the situation.

There is little doubt that there were duplications in the figures which swelled the grand total all out of proportion. While no one knows what each individual representative of the various packers put in as figures for their respective houses, there is a general feeling, for instance, that there was a gross duplication in figures put in by Roseburg's representatives. It is figured that such an error has brought in the neighborhood of 5,000,000 pounds from other packers, and maybe more, and this being the case a heavy duplication is apparent in that single instance.

Unquestionably there is an inflation in the estimate. Packers generally at the beginning of the season put an estimate of from 20,000,000 to 25,000,000 pounds on the crop. There is no question that this was a sincere estimate. These were no necessity for bulging the market with crop figures this year and there was no attempt to do so.

The lack of necessity for such kind of bulging is self-evident, even if the crop was 59,000,000 pounds, as there is little question that there are not many more than 4,000,000 pounds left, regardless of another estimate by the packers of from 5,000,000 to 9,000,000 pounds. Going up one side and down the other various packers have figured out about 4,000,000 pounds left, or even with 8,000,000 or 9,000,000 left there has been a big gouge into the crop and the balance will go early in the spring, even if the market is dull now. Every indication points that way.

The new estimate of 45,000,000 pounds, places a new light on the North Pacific Prune Exchange situation. Under the 59,000,000 pound estimate, with the North Pacific Exchange holding about 6,000,000 pounds, it was figured that the exchange had about a third control, and that a successful year could bring it up to 50 per cent in the spring. With a minimum figure of 45,000,000 pounds, it means that the prune standards 4 1/2c; prime firsts 4 1/2c; firsts 2 1/2c; undergrade nominal; prunes 4c; cartons 4c.

CARLOAD SHIPMENTS OF BROCCOLI BEGIN MARCH 1

Roseburg, Feb. 20—There will be no carload shipments of Douglas county broccoli until after March 1, as the crop will not mature before that time, which is not an unusual early time usual. A few scattered heads are being harvested at this time, and are being placed on the local markets, but there will be only a few crates shipped this month.

John Gross, Gus Adelberger and W. J. Conrad, all of Marshfield, are in conference today with local broccoli growers and seed growers regarding the possibilities of growing broccoli in the Coos bay region.

exchange sign up was less than 25 per cent of the crop, and if the 7,000,000 pound estimate was correct it reduced it to around 15 per cent, or a little better.

This indicates a situation far from co-operative control and it remains to be seen what the farmers will do in March when a privilege of withdrawal is extended under the new exchange contracts.

At any rate, it is the consensus of opinion that the figures compiled by the association this week are far out of reason and the very packers who assisted in the compilation are adamant that they are all out of reason.

WANT LOGAN TEST HELD HERE

At a meeting at Liberty school last night efforts were started to secure first tests of a new machine here to determine if it can do all that is claimed for it in making loganberry juice a drink that is demanded by millions. The machine in question is known as Hamberg's Dispensary, which it is stated will take the loganberries and perform wonders with them in the line of turning out a palatable drink.

Plans have been made for the first demonstration in the Libman, Wolfe's store in Portland. It originally was planned to make the first coast test in San Francisco but a telegram received by J. E. Crothers of Liberty states it will be held in Portland instead. Now loganberry people are anxious to have the test here, in the real loganberry center of the world, rather than in Portland, and follow up in as figures for their respective houses, there is a general feeling, for instance, that there was a gross duplication in figures put in by Roseburg's representatives. It is figured that such an error has brought in the neighborhood of 5,000,000 pounds from other packers, and maybe more, and this being the case a heavy duplication is apparent in that single instance.

WOOL DEMAND STILL IRREGULAR

Boston, Feb. 20—The Commercial Bulletin tomorrow will say: The demand for wool is still irregular and for the most part limited, although the manufacturers are looking the market over carefully in order to keep posted, if nothing more. Some business is being done, nevertheless, and usually at slightly lower prices, more especially on the finer qualities. French combing fine and fine medium wools in the original bags being quotable at about \$1.45, clean basis.

The decline in Australia appears to have been halted for the time being at least. France is buying again and Japan is continuing to operate rather freely, while America is also buying rather more wool.

The trade is still watching developments in the goods market. Buyers are still buying cautiously. There is a little new reported from the west.

The mohair situation is hardly changed. Some miscellaneous hair is reported sold at about recent rates.

The Bulletin will publish the following wool quotations:

Scoured basis:

Oregon, eastern No. 1, staple 12.00; fine and fine medium combing 11.50; eastern clothing 11.40; valley No. 1, \$1.49@1.42.

Mohair, best combing \$5.00@5.00; best carding 75@80c.
