## National President Honored

Miss Adelia Prichard, national president of the business and professional women's clubs of America, was the honor guest at the annual banquet of the Salem club given in the Marion hotel last night. More than eighty members and special guests of the club met in the banquet room of the hotel at seven o'clock.

The national organization, its form and its ideals, its scope and broadness, were clearly presented in an inspiring talk given by Miss Prichard during the evening. Miss Prichard stressed the importance of "carrying on" so that the way may be made easier for the girls of tomorrow just as the pioneer business women softened the path for the women of today. The necessity for each woman to make a success of her job no matter how humble it may be, the benefits of cooperation, and the way in which the national organization hopes to reach its ends were clearly and rapidly outlined by Miss Prichard. At the time of the national convention in Portland, Maine, in July, it is hoped that all of the leading nations of the world will send representatives, said the national president last night.

Dr. Mary B. Purvine, president of the Salem club, acted as toast mistress last night. Toasts were given by Miss A. E. Lyons on the building site; Mrs. LaMoine Clarke spoke on "Foundation," and Miss Laura Hale on the "finished product."

Musical numbers were given by Mrs. Susan Varty and Miss Grace Elizabeth Smith, both club members. Mrs. D. R. Ross served as accompanist. "Radio broadcasting," eleventh hour telegrams, and other features furnished humor during the banquet.

Because of her duties in Portland Mrs. Edith Tozier Weathered was unable to be present to give the talk on women's activities in business which had been announced.

The Salem club has a total membership of nearly a hundred. The officers are president, Dr. Mary B. Purvine; Miss June Philpott, vice president; Mrs. LaRue E. Rose, recording secretary; Miss Eva Richards, corresponding secretary; Mrs. Ruby Lanham, treasurer.

All musicians and music patrons in the state are interested in the plans for the biennial convention of the National Federation of Music clubs which will be held in Portland June 6-12. Several days ago Mrs. Cecil Frankel of Los Angeles, first vice president of the National Federation of Music clubs, and acting extension chairman of the convention, arrived in Portland to complete plans for the June convention.

In an interview Mrs. Frankel said: "My visit to Portland is a brief one, entirely concerned with the business of the coming biennial to be held here in June. I have helped to put through every biennial in the United States from 1915 to the present and never before have I noted such enthusiasm. Every day I get letters begging for details, anxious queries about reservations and many interested comments upon the program to be given during the convention.

"We are to have an unusually interesting schedule of musical events, of which the most important will be the all day concert on the opening day to determine the federation scholarships for piano, violin and voice students. The juniors, for the first time, will have a convention of their own, held during the afternoon of the first day, June 6.

"On Sunday we will feature church music, having a special non-ecclerastical vesper service, bringing together the best choirs of the city, including all denominations. Monday will be a business session, with a concert that night, at which the winners of the finals in the scholarship contest will provide the program.

"Tuesday will be given to the extension work, and the American opera, 'The Echo,' written by Frank Patterson, will be sung Tuesday night by an all American cast. Wednesday will be devoted to finance. Of course every day will program some interesting musical events, and there will be the social get together of luncheons and dinner parties, besides the singing of visiting choruses and artists. The delegates from 2000 music clubs will speak and there will be discussion on all musical subjects. The Woman's Musical club of Los Angeles will sing and we are also bringing a woman chorus all the way from Cleveland, together with fine speakers from all parts of the United States.

"Altogether, the Portland biennial will be an event of great importance in the musical history of the United States, and we are gratified at the interest which is manifest on every side."

Mrs. E. L. Kappahn is hostess today at a one o'clock luncheon and an afternoon of bridge to members of the Thursday bridge luncheon club. Spring flowers, daffodils and spires, were attractively used on the luncheon table and about the living room. Covers were laid for Mrs. P. E. Fullerton and Mrs. F. G. Delano, special guests, and the following club members: Mrs. L. T. Aldrich, Mrs. Cal Patton, Mrs. R. M. Hunter, Mrs. C. M. Inman, Mrs. Clyde Johnson, Mrs. I. W. Needham, Mrs. O. L. Fisher, Mrs. A. E. Huckslein, Mrs. John R. Sites and the hostess, Mrs. Kappahn.

The woman's missionary society of the First Christian church will meet Friday afternoon at 2:30 in the church parlor. The feature of the day will be a talk by Mrs. Westley Wire, a missionary who has been in China many years. Chinese refreshments in Chinese style will be served by Mrs. J. T. Hunt and her assistants. The guests will be met at the door by a committee dressed in Chinese costumes.

# Thomas A. Edison Triumphs Again!

## Big Audience at Grand Theater Hears Betsy Lane Shepherd in Edison Tone-Test

In a test of direct comparison, made last evening at the Grand Theatre, Salem, before a large audience, Thomas A. Edison's new phonograph scored a complete and convincing triumph.

Betsy Lane Shepherd, the eminent soprano, sang in direct comparison with the Edison Records of her voice on the New Edison. To every ear there was no difference between her living voice and her Re-Created voice.

This is the most drastic phonograph test known. No other phonograph has even sustained it. No other phonograph has even attempted it.

The New Edison's marvelous performance of yesterday vindicates everything that has been said or claimed for its perfect realism.

Betsy Lane Shepherd stood on the stage next to a shapely Chippendale cabinet. She began to sing. Her golden notes soared over the Grand, bringing all under its magic spell.

Halfway through her song, she suddenly

stopped singing. The New Edison, at her side, took up her song,—and continued it alone.

Singer and phonograph thus alternated, throughout the song.

The only way the audience could be sure which was singing, was by watching Betsy Lane Shepherd's lips—so exactly like the living voice was the Re-Created voice.

Jacques Glockner made the same test of comparison with the Edison Records of his 'cello selections. Always the same result—there was no difference between the Re-Created performance and the living performance.

Proof was piled upon proof! Evidence was massed on evidence! The end of the concert found the audience absolutely and completely convinced, through its own personal experience, that there is no difference between an artist's living performance and its Re-Creation by the New Edison—that listening to the New Edison is, in literal truth, the same as listening to the living artists.

# The NEW EDISON PHONOGRAPH

Only one question can still bother your mind. This question we now answer.

The instrument used in yesterday's tests was NOT a special model. It was an Official Laboratory Model, taken from regular stock. Every New Edison in our stock is guaranteed to sustain the same test of direct comparison with living artists.

You can have a New Edison in YOUR home. You can own an instrument which will do everything done yesterday in the test. Come in. Hear the wonderful New Edison for yourself. Learn about our Budget Plan, which puts a New Edison into your home for no more than you would "pay down" for a talking machine.

# Albers flapjack flour

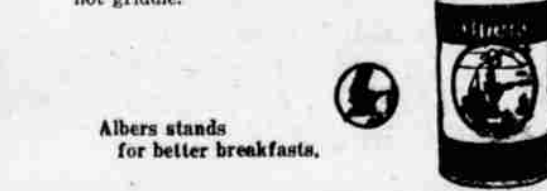

Here is the pancake flour the West takes to its heart—and its stomach. And you don't have to be a "sharp" at cross word puzzles to figure out the reason: flavor!

No other pancake flour can hope to rise to the flavor-heights of Flapjack; because no other pancake flour is blended in quite the same way. For instance:

No cornmeal or other heavy ingredient goes into Albers Flapjack Flour. The leavening is highest-quality. Even the salt used is as fine-in-texture as the flour itself. Everything that goes into Flapjack Flour goes in for just one reason:

To make sure you'll get light-and-airy, tender-and-tasty hot cakes every time. Simply add a little water or milk and bake on a hot griddle.

Albers stands for better breakfasts.
