She is a niece of I. E. Vining, president of the Oregon state chamber of commerce. They have three small boys.

Youth Hears Plans Made For Funeral

Madisonville, Ky., March 10.—Roscoe Qualies, 9, lying helpless in his bed, unable to move, heard his parents give him up for dead and plan the funeral arrangements. Today he is recovering after hours of thoughts of being buried alive.

Roscoe fell while skating on a pond on his father's farm. Paralysis set in and the physicians found the youth had suffered concussion of the brain. He lost his speech and was kept alive several days by liquid food. This failed to bring improvement and the boy apparently died shortly after the doctors left. Parents and relatives then planned the funeral. Roscoe says he heard it all.

Its popularity everywhere in this country has been due to the fact that it combines the amusing and the mysterious in a most entertaining way. The fun is "the thing and it is this element that the author, John Willard, had uppermost in his mind when he wrote his splendid play. Silverton, Mar. 10.—(Special)—The Patty Motor Car company was entered sometime during the week-end and a number of things valued \$250 were taken. A broken window shows evidence of that means of gaining entrance. It is thought that the thief then unlocked the large doors from the inside and drove his car in to load up as it would be impossible for him to carry away the things taken. Among the missing articles are a number of Ford batteries, spot lights, motor meters and tires. It was noticeable that only articles of standard make were stolen.

According to reports six or seven other garages in nearby towns have been entered and standard accessories taken. The Silverton high school annual which was a cup last year will be issued again this year according to latest reports. For a time it was feared that the high school would have to discontinue its year book because of lack of financial support. However, the students have put on so strenuous a campaign that it now seems possible to secure sufficient funds. Silvertonian parades have been held at Silverton. The students have made a thorough canvass of the town with their "Buy one, sell one" slogan. Many students have sold several Silvertonians. The managers report that advertising is coming in good now and that there is little doubt that the book will be issued.

Unless the work of Trinity Ladies' Aid society and the Dorcas society count for naught, things will be more quiet at Trinity church hereafter. Nerve Shocks Cause Gas

Any form of excitement that shocks the delicate nerves of the stomach will disturb the function of that organ and produce gas. Anger, fright, grief and worry, all have an evil effect upon the digestive system, hence, for want of a better term, doctors call this condition "nervous dyspepsia." Baalmann's Gas-Tablets are made especially for the relief of gas and stomach distress. They act in a safe, natural way upon the weak stomach nerves and glands, gradually helping to restore their normal strength and activity. When this is done you will no longer suffer from gas pains around the heart, palpitation, smothering spells, rumbling noises, bloating, burning, sour taste or drowsiness after eating.

You can get Baalmann's Gas-Tablets in the genuine yellow pack age from any druggist. Price \$1. The very first dose usually gives great relief. J. Baalmann, Chemist, San Francisco. Your satisfaction guaranteed. On sale in Salem by Daniel J. Fry, druggist.—Adv.

For Deep, Heavy Colds

Here is the best way to get rid of a bad cold. First apply hot wet towels over throat and chest to open the pores of the skin.

Then massage briskly with Vicks for five minutes, spread on thickly and cover with two thicknesses of hot flannel cloths. Leave the bedclothing loose about the neck so that the vapors arising may be freely inhaled. These vapors, inhaled with each breath, carry the medication directly to the affected parts.

At the same time Vicks is absorbed through and stimulates the skin, helping the vapors inhaled to relieve tightness and soreness.
