FRENCH IN NEED OF BIG FOREIGN LOAN IS CLAIM

Paris, March 11.—A foreign loan of four or five billions of francs to enable the treasury to pay its obligations promptly is France's fundamental need in the present and approaching financial crisis, says Louis Loucheur in an interview published by Le Journal. The paper had appealed to him as an outstanding expert in financial matters, to suggest a way out for the country, facing the maturity of twenty-three billion francs worth of securities this year.

"If the treasury had sufficient margin to enable it to meet promptly all demands for payment, everything would go smoothly," M. Loucheur said. "Bond holders who demanded reimbursement would be the first to bring back their money; to the treasury if they saw that the treasury was paying. It is in fact a question of confidence."

Unfortunately the government had raised the interest rates on its recent loans so that the problem of refunding had become difficult and burdensome, but, he added, "I know that a foreign loan is possible and I believe it is necessary."

This loan also, he added, would provide means for a campaign to improve the franc, which the \$100,000,000 Morgan loan was reserved for defense if the franc were attacked.

SUIT FOR COW AND \$10 DAMAGES IS REVERSED

Silverton, Or., March 12.—(Special)—George Schweigert brought suit against J. H. Engeman at Silverton, Tuesday, for a cow and \$10. Mr. Schweigert alleged that Mr. Engeman held a cow belonging to him. Mr. Engeman brought a counter claim for \$25 against Mr. Schweigert.

It was alleged that the cow, which belonged to Mr. Schweigert, had broken through the fence into Mr. Engeman's strawberry field. Mr. Engeman claimed he locked up the cow and held it for damages and food. Mr. Engeman refused to give up the cow and Mr. Schweigert brought suit against Mr. Engeman. It developed in the case that the cow had been running at large prior to the time when Mr. Engeman locked her up.

The defendant, Mr. Engeman, was awarded the decision.

DALLAS GOES TIMELESS BIG TOWER CLOCK STOPS

Dallas, Or., March 12.—Dallas, which has been timeless the past few days, is back on the job again now with the court house clock marking the time of day and tolling the hours.

The faithful old clock, which went on a rampage last week, was given an overhauling by William C. Retzer. It had been working away for 25 years, to the month, and with only an occasional adjustment. Mr. Retzer found it necessary to clean and polish the entire works. Many cotter pins and screws had worked loose and some had even fallen from the works.

The clock is a Seth-Thomas and was installed on March 22, 1900. Dallas could hardly miss the court house more than it did the clock while it was out of order.

WESTERN OILS' BASE EXPLAINED

Chemist Straightens Out Misconception

The western product of the Pacific coast which has a superior base, containing all the carbon in the oil in the form of paraffin, and is not a mixture of paraffin and asphaltum as is the case with the eastern product. This is why the western product is so superior to the eastern product. It is the only product that is so pure and so clean. It is the only product that is so light and so easy to handle. It is the only product that is so economical and so profitable. It is the only product that is so reliable and so safe. It is the only product that is so clean and so pure. It is the only product that is so light and so easy to handle. It is the only product that is so economical and so profitable. It is the only product that is so reliable and so safe. It is the only product that is so clean and so pure.

Whether eastern or western, authorities will tell you that all motor oils deposit carbon. But there are two kinds of carbon. One is hard and gritty, an abrasive which scores and scratches metals. You must remove it every few thousand miles at considerable cost. Not so with Aristo Motor Oil—a product from the finest western crude. The residue from Aristo is soft and fluffy. Most of it blows out with the exhaust. It cannot scratch or score. Motors run 10,000—20,000

—50,000 miles without the need of cleaning—so scores of Aristo users testify. Thus to avoid hard, gritty carbon forever, simply use Aristo motor oil.

Aristo—a perfect lubricant—is the product of one of the largest and best equipped refineries in the world. That is quality insurance. Use Aristo regularly if you want protection and less carbon trouble at a minimum of cost. You can pay twice as much for "Eastern," and not get as good an oil.
