

PROBE OF RECENT WHEAT FLUCTUATIONS ORDERED

BUTTER MARKET SHOWS SIGNS OF EARLY ADVANCE

Portland, Mar. 18.—The local butter market is all set for an advance. While no definite action had been taken by creamerymen early today the market is in a very strong position and a rise of at least one cent in prints is fully justified.

Creameries are short of butter, especially ordinary grades and the market is being secured for sufficient stocks to meet the requirements.

Cube prices are a cent higher on all grades. On the dairy exchange extra quality prints at 46 cents, standards at 45 cents and prime prints at 44 cents.

Although the reason for increase in production is at hand, local buttermakers report that cream receipts are disappointing. It is also reported that premiums are being paid for fats in many sections. The Portland delivery price remains unchanged at 47 cents.

The egg market is about steady with receipts and demand well balanced. Board quotations were unchanged today.

The local market is almost bare of live poultry and buyers are scouring the street for supplies. Prices are very firm.

Good hay is in demand, especially alfalfa, and the local track tracks are almost bare of No. 1 stock. There is plenty of second grade hay offered although the demand is lacking for this quality. Local buyers are offering following prices for hay delivered Portland:

Eastern Oregon Timothy \$21 to \$24; valley Timothy \$21; alfalfa \$19 to \$19.50; clover \$18; cheat \$15; oat hay \$13.50; oat and vetch \$19 to \$19.50; straw \$3.50 per ton.

Country dressed meats are firm and unchanged. Arrivals were moderate and well absorbed.

Another decline in lard oil has been announced by local points and varnish houses, amounting to 4 cents per gallon. Raw oil now \$1.31 and boiled \$1.34 per gallon in barrels.

The onion market is firm and fractionally higher. Buyers pay from \$2.25 to \$3.40 in the country for fancy stock. Local whole sale prices are \$2.75 to \$4 on best best Sherwood stock.

PRICE JUMPS UP 10 CENTS TODAY AND DROPS BACK

Washington, Mar. 18.—Secretary Jardine today directed the grain futures administration to make an immediate investigation of the recent violent fluctuations in the market price of wheat.

Chicago, Mar. 18.—Wheat went skyrocketing today shooting straight upward 10 cents a bushel at the very outset. May wheat touched \$1.53 as compared with \$1.52 1/2 on yesterday's finish. A sharp rise in values at Liverpool preceded the advance here.

Trading was a tremendous affair with fluctuations violent. Within a few minutes the market was back nearly four cents from the initial top figures with prices swinging at times one cent between trades.

Almost a complete famine of offerings characterized the start, but buying orders were at flood tide and frantic bidding ensued until 10 cents a bushel was added to prices before half of the brokers in the pit could take their bearings. Then selling turned loose.

Before the backward impetus was checked May wheat dropped to \$1.55 1/2 but was still five cents or more above the closing figures of the previous day. A rally of almost three cents followed. Local pool market which had opened today at one to two pence decline, had mounted to nine pence net.

Her buying here by foreigners was an outstanding feature of today's dealing in future deliveries of wheat.

The extraordinary right-about-face in the wheat market today was based to a considerable extent on the fact that virtually the entire stock of wheat in Chicago available for sale on May contracts here has of late been reduced to about 300,000 bushels of hard winter grade in public elevators.

Winnipeg, Man., Mar. 18.—Wheat on the Winnipeg market recovered 1/2 cent of yesterday's severe decline in today's early trading.

India Runner ducks alive 14@16c

FAIMAN ALSO INDICTED BY GRAND JURY

(Continued from page one)

story coincided with the time Faiman said he attended the school. The accused man has made the same denial of White's story that he has made of Faiman's and of John P. Marchand, former teacher of the school, who said Shepherd had written regarding course.

"You're a liar," Shepherd shouted at White. Further corroboration of Faiman's statement that \$100,000 had been fixed by Shepherd and himself as his portion of the McClintock fortune if their plans were successful, was added prosecutor thought, in a letter showing that Faiman planned \$150,000 worth of improvements for his school immediately after the rich orphan's death.

Attorney for Isabel Pope, McClintock's fiancée, who waited to marry him when he died, and who was left an \$8000 annuity in his will, said they would contend that Miss Pope is entitled to the same share of the estate as if she had actually married him under a construction of the law by which she might be regarded as his equitable widow. They were ready to ask for a continuance when the petition of Shepherd to probate the will came up in probate court today.

their contention should be upheld, Miss Pope will receive the annuity for which the will provided.

Exhumation of the bodies of Mrs. Emma Wilson McClintock, mother of the orphan and of Dr. Oscar Olson, brother of Judge Olson, who died suddenly after eating fruit brought by Shepherd when the physician was mildly indisposed, was planned by state's authorities.

In a statement last night Judge Olson said he believed that his brother had been poisoned. He declared there had been a conspiracy of 16 years to obtain McClintock's estate, beginning before the death of Mrs. McClintock. He said his investigations would continue and findings of them would be turned over to the state's attorney.

22 Counts Included

The indictment of Shepherd and Faiman contained 22 counts, each count placing the date of the poisoning as November 15, 1924, and the death as December 4, 1924. The following is a summary of the counts:

- 1—Defendants did give and administer typhoid bacilli.
- 2—Defendants did give and administer a certain deadly poison, description unknown.
- 3—Defendants did inoculate the body with a certain noxious, deadly and mortal fever known as typhoid fever.
- 4—Did inoculate the body with a fever description unknown.
- 5—Did communicate to the body a fever known as typhoid fever.
- 6—Did communicate to the body a fever, description unknown.
- 7—Did mix and mingle with food and drink certain typhoid bacilli, a deadly poison.
- 8—Same, description as typhoid bacilli, deadly germs.
- 9—Did give and administer accon

te and typhoid bacteria, which inoculated the body with a mortal fever.

- 10—Did give and administer prussic acid and typhoid bacteria, which produced a mortal fever.
- 11—Did give and administer morphine and typhoid bacteria which produced a mortal fever.
- 12—Did give and administer acconite and typhoid bacteria, which produced a mortal fever.
- 13—Did give and administer acconite, a deadly poison.
- 14—Did give and administer prussic acid, a deadly poison.
- 15—Did give and administer morphine, a deadly poison.
- 16—Did give and administer acconite, a deadly poison.
- 17—Short form of count charging poisoning to kill and murder.
- 18—Murder by means unknown.
- 19, 20 and 21—Were respectively the same as counts 9, 10, 11 and 12 except that the word typhoid was substituted for mortal.

How Robert M. Koenig Found Remedy for Pimply Skin

For years my skin would break out every once in a while—and ointment did very little to help me. I read a doctor's article stating that pimply skin usually comes from the stomach—and bowels not getting rid of the poisons.

I tried Carter's Little Liver Pills for a few days—and since that time my skin is smooth and clear. Now I tell my friends the right way of getting rid of a broken out skin—and also of steering clear of upset stomach and sick headache. Carter's are all you claim for them.

Portland, Mar. 18.—Cascara bark quiet; new peel 7@8c per lb.; Oregon grape root 4c.

NEW SCIENTIFIC DISCOVERY IN GLANDOGEN

Many leading authorities and scientists have proved by actual tests that the benefits of gland transplantation may be obtained by giving the patient gland substance to be taken internally, rather than by operation.

Dr. Arnold Leonard says in his book, "Old Age Deferred," in speaking of the glands: "We must insist upon the re-inforcement of their functions, if changed by age or disease, by means of extracts obtained from the similar organs of healthy young animals."

Glandogen, the new scientific gland tonic, which is prepared in convenient tablet form, for men and for women, provides a simple method of taking glandular treatment. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic. J. C. Perry drug store—Adv.

PORTLAND LIVESTOCK

Portland, Mar. 18.—Cattle steady receipts none; steers good \$3.25@4.75; medium \$7.75@8.25; common \$6.75@7.75; canner and culler steers \$5.50@6.75; heifers, good \$3.00 lbs. up \$6.75@7.25; common and medium, all weights, \$5.00@6.75; cows, good \$6.25@7.00; common and medium \$5.00@6.25; canners and cullers \$2.00@5.00; bulls, good (heft yearlings excluded), \$4.50@5.25; common to medium (canners and bologna) \$3.00@4.50; calves, medium to choice (150 lbs. down) \$8.50@12.00; cull and common (150 lbs. down) \$5.00@6.50; medium to choice (150 to 250 lbs.) \$7.50@11.00; medium to choice (250 lbs. up) \$6.00@7.50; cull and commons (150 lbs. up) \$4.50@6.50.

Portland, Mar. 18.—Wheat bids

ENGINEER MAKES REMARKABLE 4-DAY TEST

Alvita Brings Results

W. F. Olewinski, railway engineer of Buffalo, New York, who was unable to work on account of bladder inflammation, went back to work in four days after taking Alvita tablets.

"I have been troubled for several years with bladder inflammation and when I sent for Alvita was unable to work and did not know if I ever would run an engine again. I could not stay in bed nights, as I was worse lying down than at any other time. I have been up 25 to 30 times in six to eight hours. Forty eight hours after I began taking Alvita tablets I was almost normal and in four days went to work and at present feel perfectly well. I don't know what to say; in fact cannot tell how I appreciate the benefits I have derived from the use of Alvita. I have given away some to other men that are afflicted."

Alvita is the recent scientific discovery which brings lime, iron and phosphates to you in a vegetable form. It is prepared from the deep rooted alfalfa plant in highly concentrated tablets. Alvita has proved especially beneficial in building up weakened, run down conditions and in overcoming kidney, bladder and prostate trouble. No matter what you have tried, try this remedy of Nature now. A dollar buys a box at any drug store. Perry Drug store will supply you. Mail orders filled.—Adv.

THE WALL STREET JOURNAL'S Subscription List Has Increased 50% In Three Years!

The reasons for it are—

INDEPENDENT AND FEARLESS NEWS GATHERING AND PRESENTATIONS. EDITORIALS written from the standpoint of common sense and based on the laws of the land. Our subscribers pronounce them the best published in America and some say that every business man should take The Wall Street Journal if for no other reason than to read them.

(A manufacturer in Missouri writes: "No better editorials have ever been written. They are an education. Their straightness from the shoulder pronouncement are to me a relief from the milk-sop, waxy-waxy junk ordinarily fed to the public by other papers.")

ECONOMIC ARTICLES, personally written by C. W. Barron, international authority on economics and finance. His writings give a viewpoint obtainable only from years of intimate relationships in the fields of economics and finance. His writings point out solutions for perplexing problems of the day.

(A West Virginia banker writes: "I find the articles written by C. W. Barron of great value. His broad experience and his knowledge of financial conditions make him one of the most able financial writers in America.")

EXCLUSIVE NEWS ARTICLES written by experts in their respective lines. These articles cover industries and transportation systems and the units comprising them.

(An investment banker of Kansas says: "I consider your specialized news particularly beneficial as it gives insights on matters which are treated as of no importance by the general newspapers of the country.")

EUROPEAN NEWS and comment gathered and analyzed by our own staff members who are located in all parts of the world.

(A California fruit packer says: "Your various articles on foreign business and the imports and exports of the various European countries are particularly helpful.")

NEWSPAPER SPECIALS—These are boiled down paragraphs giving the meat of important special news appearing in American and European business and general newspapers. They are just long enough to keep the busy executive well informed without sacrifice of valuable time.

(President of a cotton mill writes: "I am always interested in 'Newspaper Specials' from which I derive a great deal of information that is worth while.")

MONEY AND EXCHANGE—A page devoted to money and credit, both underlying factors to the success of business enterprise.

(Treasurer of a Louisiana lumber company says: "If we had not read your 'Money & Exchange' column in 1920 we would be out of business today.")

THE BOND MARKET—A complete history of each day's events and quotations.

(Executive of a coal company writes: "I always read your bond page to get suggestions.")

THE STOCK MARKET is closely watched and reported. The underlying reasons for price fluctuations are explained by staff writers who specialize in stock market activities.

(A Colorado investor says: "The Wall Street Journal has been the medium through which I have gained financial independence at the age of forty.")

THE STAPLE COMMODITIES MARKETS—GRAINS AND PROVISIONS, COTTON, SUGAR, COFFEE, etc.—are given special attention inasmuch as they are closely related in finance, and have more or less close relation to the price fluctuations of securities.

(A packing house in Indiana says: "We derive knowledge of conditions in almost every industry. Your articles on exports and the provision market are excellent.")

FINANCIAL STATEMENTS of corporations are analyzed and interpreted. Comparisons with three previous years are also given.

(A wholesale dry goods house in New York writes: "We appreciate more than anything else the analyses of corporation financial statements.")

You cannot get such complete, exclusive financial and business service from any other publication. Subscribe now!

Behind your switch

Touch a switch and lights flash on. Snap in a plug and little glowing wires start cooking your breakfast. Press a button and a motor leaps to the task of cleaning your rugs.

Magic? No—only electricity but electricity developed and made obedient by the minds of men. Behind your switch—from your home to powerhouses in distant mountains—reaches the far-flung and efficient organization of your power company.

Your power company provides an abundant and never-failing supply of electricity but how well this electricity serves you depends largely upon the quality and completeness of your electrical installation. Since this in turn depends upon the electrical contractor who wires your home, he should be chosen carefully. That's why we advise, "Before you build or buy, insist on 'Check' Seal electrical wiring."
