

12 MORE DEATHS REPORTED

SUICIDE TRIED BY WOMAN

CUTS THROAT WHEN ARREST ATTEMPTED

Mrs. G. Gamble Grabs and Weilds Razor When Officers Seek to Examine Her For Sanity.

In a fit of insane frenzy, Mrs. G. Gamble, 44, attempted to commit suicide this morning at 758 North Commercial street in the presence of Deputy Sheriff Bert Smith and Roy Bremner, who had appeared to apprehend her on a warrant for examination as to her sanity. She cut her throat and slashed both wrists with a razor before the officers could seize her and overpower her. The injuries will not prove fatal, according to present belief.

Mrs. Gamble is deaf and her talk is mostly gibberish, according to the officers. Because of her deafness Deputy Sheriff Smith handed her a note advising her to put on her coat and hat. Quick as a flash the woman turned, seized a razor lying on a nearby table, and endeavored to kill herself.

The woman, who owns a little home near the state fairgrounds, left her home there about two weeks ago, declaring that a grocer in the vicinity was endeavoring to take her life.

Last night she telephoned to the police station that a couple in an apartment adjoining the one she had taken temporarily after leaving her home, were endeavoring to kill their baby. An investigation disclosed the fact that the couple has no baby and that the report was based on an insane delusion.

After her suicidal attempt today the woman was rushed to the state hospital for treatment. The sanity examination will be conducted there. The woman is said to have a daughter at Cottage Grove, Oregon.

WHERE 60 CHILDREN PERISHED IN TORNADO WRECKED SCHOOL

First wired photo of the fearful toll taken by the tornado that swept five states and dashed a thousand human beings to death. The picture above shows a room of the Longfellow school in Murphysboro in which 60 children were burned to death.—Photo copyright International Newsreels.

NOME AGAIN THREATENED

Coal Famine and Renewal of Diphtheria Epidemic Feared; Fuel Situation Real Serious.

Nome, Alaska, March 21.—(By Associated Press.)—Nome was threatened with two crises today, a coal famine and a threatened renewal of a diphtheria epidemic which took a toll of six lives from the time of the outbreak in the middle of January to the lifting of the quarantine a month ago.

The city council purchased fifty tons of coal, the rest of the stored fuel in town, from the United States signal corps radio station yesterday and apportioned it in one to six sacks. This must last until June when the next coal ship arrives. Sudden prosperity of the natives, who purchased coal from the proceeds of their rich fox ranches, and failure of the coal ship Apollo, due to storms, to arrive last fall caused the shortage.

A white child, the daughter of Herman Reausky, formerly of Seattle, who has the diphtheria patient reported yesterday. Nearly all the Nome diphtheria patients have recovered.

QUEBEC SHAKEN BY EARTHQUAKE

Quebec, March 21.—An intense earthquake shock was felt here this morning. Houses were shaken but no serious damage or fatalities were reported.

Claims Shepherd Had Control Over McClintock Will

Chicago, March 21.—(By Associated Press.)—Testimony that William D. Shepherd, under indictment charged with the murder by typhoid inoculation of his foster son, William N. McClintock, orphan millionaire, had said he would have McClintock's will drawn to suit himself was given today by C. C. Fairman, indicted with Shepherd, at a bail hearing today.

Fairman asserted that he said to Shepherd that such a marriage would "leave him out," but that Shepherd said he would have McClintock draw a will. The witness said Shepherd told him he was working on it. He said this "big deal" was admitted by Shepherd to relate to the McClintock estate.

Fairman, president of the National University of Sciences, admitted that he knew of no witnesses who had heard conversations he alleged he and Shepherd had had about typhoid germs and about the McClintock will.

Fairman previously stated that he had given Shepherd three tubes of bacilli. These tubes he had obtained in the Chicago

He said Shepherd had in one conversation referred to young McClintock and Miss Isabel Pope, his fiancée, intending to marry soon. That was in the fall of 1923, according to Fairman, who said Shepherd referred to McClintock's approaching his majority—he was 21 years old a year ago.

STOCK SALES ARE ENJOINED

Drive To Sell Bank Shares of Ford of Canada Is Halted; First Brought To Light Here.

New York, March 21.—A temporary injunction restraining the sale of bank shares of the Ford Motor company of Canada, Ltd., has been issued against the Continental company and Marshall & company of this city, State Attorney General Olinger announced today. In asking the injunction from the state supreme court the attorney general's office asserted that between 5000 and 10,000 persons had bought the shares under the impression that they were buying Ford Motor company stock.

Ford stock, according to the attorney general, was purchased in the open market and banking shares were issued against it to be sold to the public at a rate which brought the price of the stock above market value. The Ford company of Canada has denied any interest in the bankers shares of its stock.

More than fifty letters to Henry Ford asking about stock were introduced as evidence. A permanent injunction will be sought.

The operations of stock salesmen in selling bank shares secured by Ford Motor of Canada stock first came to the attention of federal and state officials, it is believed, when stock salesmen of the company came to Salem. Local automobile men took up the matter with the Ford company in Detroit, and were informed that the stock offered for sale was not stock of the Ford Motor company.

COURT ISSUES NEW MARKET ROADS EDICT

Sections Seeking New Highways Must Supply Free Rights-of-Way; Competition Is Keen.

Any section seeking a market road from the county court must present the right of way free to the court, with all curves, angles and changes provided for if they want to have such a road established. This is the ultimatum of the court this year, according to County Commissioner Smith, who declares that competition for establishment of market roads is so keen, it is not necessary for the court to expend its market road money in buying rights of way, straightening out curves and for damages, when the money can all be used on the roads proper.

"If a road right of way cannot be presented to us clean and free from entanglements there is no necessity for establishing the road there at this time. There are too many demands for these roads and too many roads that are needed which are offered free of such entanglements."

Commissioners Smith and Porter and Deputy Roadmaster Johnson yesterday inspected a number of routes that have put in their bids for market road preference this year.

Notable among those visited are two competing for the honor of being selected as the cutoff between Turner and the Pacific highway. The court has stated definitely that such a cutoff will be installed and paved this year, but has given no indication as to which route it will select.

The two routes before the court are known as the Battle Creek route and a road a little further south. The members of the court went over both of the routes in their car yesterday without chains and without getting stuck in the mud. In a place or two one or more of the party had to get out and shove a bit, but otherwise there were no casualties reported.

Despite the fact that a thorough examination was made of both these routes members of the party would give no inkling on their return as to which one would be the probable selection.

The party also traveled over the route from Buena Vista to Jefferson, a bidder for a market road, and the route from Jefferson to Turner, which will be changed to a highway. The court's decision this year to provide for the elimination of grade crossings with the substitution of an overhead.

Students Rush Cuban Capital; Eight Injured

Havana, Cuba, March 21.—Eight students and three policemen were injured today when several hundred students gathered in front of the presidential palace as a protest against fines given three students as a result of arrests in connection with a proclamation against the Hay-Quezada treaty celebration last Wednesday.

\$200 NEEDED IN TRIP FUND

Cash on Hand at Noon Runs to Total of \$1523 Dance Proceeds to be Used for Incidentals.

MONEY SUBSCRIBED	
Capital Journal	\$ 25.00

STORM TOTAL NOW STANDS AT 822 LIVES

Burial of Dead Proceeds Rapidly With Brief Ceremony; Call Issued For Physicians.

(By Associated Press)
The known and estimated dead from Wednesday's tornado and storm which dipped into sections of five states, stood at 822 shortly before noon today. This total included five additional deaths reported from Griffin, Ind., one more from Princeton, Ind., and seven more from Murphysboro.

The number of injured still hovered around 2000. Burial of the dead was proceeding rapidly in all sections, with brief ceremonies. Some communities plan memorial services later. Ministers are remaining constantly on duty. There are still some unidentified dead, with more bodies probably yet to be found.

More Doctors Needed
Organized rescue and relief work was methodically in operation throughout the devastated regions. An immediate need of surgeons for the southern Illinois field prompted the state health director to appeal to county medical societies for help. He also requested supplies of anti-toxin for gangrene which has appeared among the wounded. The department's field director reported 738 surgical cases in this zone.

Heavy contributions of money and supplies continued to pour in from sources all over the United States. Property loss in all devastated areas is estimated at \$100,000,000.

ADMINISTRATOR TO TAKE PLACE OF SWARTZ SOUGHT

Petition was filed in probate today asking for the appointment of a new administrator of the estate of H. H. Kennell, to replace Fred Swartz, his brother-in-law, who was killed by dynamite on his ranch last week. By another coincidence, in a chain of coincidences which has marked the killings of the brother-in-laws, the application came on the day on which the final account of Swartz was to have been up for final hearing before the court.

On the death of Kennell, who was found with a bullet hole in his head February 25, 1924, Swartz was named as administrator. The final account shows about \$1688.63 in cash on hand belonging to the estate, all of the assets of the estate having been converted by Swartz into cash.

KANSAS OFFICER HERE TO RETURN HIND FOR TRIAL

Sheriff F. A. Cook of Scott county, Kansas, arrived here today to take back to his state Moses Hind and his father, who is held in the Marion county jail and who is wanted in Scott City, Kansas, on a charge of bigamy. An extradition hearing will be held in the office of Governor Pierce at 2 o'clock this afternoon.

According to the requisition brought here by Sheriff Cook, Hind has a wife living with her father at Stella, Mo., who he married December 25, 1912. By his first wife he has four children, the youngest of whom is not yet a month old.

Recently, after working in the harvest fields of Kansas and making various other movements, he went to Healy, Kansas, where he joined Goldina Wallace, 29 years old, whom Sheriff Cook describes as "one of the finest girls in our country." Hind had met her during the harvest season. They went to Scott City where they were married by a probate judge November 20 last. Soon afterward they left for Oregon and were traced to Salem.

22 IMPRISONED MINERS MAY BE ALIVE, IS BELIEF

Fairmont, W. Va., March 21.—Rescue work at the wrecked shaft of mine No. 41 of the Bethlehem Mines corporation at Barracksville was speeded up this morning in the hope that 22 of the 33 workmen imprisoned by an explosion last Tuesday might still be alive. Eleven bodies had been found by 5 o'clock.

William Berry, a rescue foreman for the mines organization upon emerging from the shaft said that he had penetrated one of its arms for a distance of 400 feet and had found that the force of the blast had not reached that far. It is believed that 22 of the imprisoned miners are in that arm and since all are seasoned miners, Berry believed, he said, that they might have escaped the blast and barricaded themselves against gas and other dangers which followed.

However, William Wringman, a veteran inspector for the Virginia department of mines, entered the shaft after Berry's announcement and penetrated it, he said, for 2000 feet. He expressed doubt upon emerging that any of the imprisoned men still live.

EXTORTION LAID TO PROMOTERS OF KING'S STOCK

According to advices from Oakland, California, citations have been issued by the prosecuting attorney there to H. L. Purdy, formerly district manager of the National Securities company of San Jose, A. P. March, Mountain View, Cal., and Sherwood Grover of Oakland to appear March 25 and show cause why extortion warrants should not be issued against them. It is stated that the action is taken in connection with re-organization of the Kings Food Products company by Ladd & Tilton bank of Portland.

At about the same time Mrs. Madge McClintock filed suit in circuit court in Portland to recover \$5100 from Ladd & Tilton bank because of the bank's participation in the affairs of the Kings company. Similar suits representing 46 stockholders already were on file in the circuit court of that county.

One suit is on file here, brought by the Rev. and Mrs. H. D. Chambers to recover money from the company for stock purchased in fraudulent practices being alleged.

VANCOUVER HOTELS AGAIN SELLING BEER

Vancouver, B. C., Mar. 21.—Eighteen Vancouver hotels today began the sale of beer by the glass. Not all the hotels were ready to begin sale of the beverage at 10 o'clock, the scheduled opening time, due to delay in obtaining licenses and in the delivery of the beer but the majority were open by noon. A number of other hotels were expected to receive licenses today.

STATE BANKING DEPARTMENT TO BE IN PORTLAND

The state banking department which for many years has occupied offices on the third floor of the state capitol will next Tuesday be transferred to Portland where offices have been arranged in the Henry building. Frank C. Bramwell, state superintendent of banks is head of the department. Employees of the department, aside from examiners in the field, number about half a dozen.

The suite of offices now occupied by the banking department will be utilized by some other state department. The transfer of the department to Portland is necessitated mainly by the congestion in the state house, which will be made worse by legislation enacted at the 1925 session. A bill was contemplated to provide for a new office building on the state grounds but because of the state's financial condition was not pushed by those favoring it.

Offer to Underwrite Inter-State Debate Next Year Reported

Announcement has been made by Principal J. C. Nelson of the high school that the contemplated inter-city debate between high schools teams of Salem, Mass., and Salem, Or., has been abandoned for this year, negotiations to be resumed next year on the basis of a debate in Salem, Mass., in 1926, the third centennial year for that city and a return debate in Salem, Oregon, the following year.

With the announcement, Professor Nelson stated that a Salem, Or., citizen, upon condition that his name be not revealed, has agreed to underwrite the plan to the extent of \$1000, providing the debates are put off until next year and the year succeeding.
