

DEMPSEY EDICT HITS EVERYONE EXCEPT CHAMP

New York, March 25.—Jack Dempsey, champion heavyweight, retains his title in a telegraphic bout with the New York state athletic commission yesterday, but the right hand swing of the official tore the paint from Boyles Thirty Acres in Jersey City, dazed Tex Rickard for the moment and pushed the negro challenger, Harry Wills back into his chair. From all indications the blow missed the champion, but it shook about everything else in pugilism. By placing Dempsey on the ineligible list, the commission put every heavyweight, every manager of heavyweights and every promoter in the land on guard.

New York's rulers of the ring had sent Dempsey a challenge filed recently by Wills, but the champion pursued a waiting game. The officials led again with a 15-day ultimatum. Still the champion waited.

The moguls in the next move swung the heaviest blow they ever have delivered. From the Pacific coast came the news that the punch had landed on Dempsey somewhere in the motion picture lots and he could not be located.

Not satisfied with taking the 3000-mile swing at the title holder, the commission smote the prospect of taking a championship

Roots and Herbs Used in Medicine

The Lydia E. Pinkham Medicine Co., of Lynn, Mass., is recognized as the greatest user of roots and herbs in the world. Over half a million pounds are used annually in manufacturing Lydia E. Pinkham's Vegetable Compound. These herbs are gathered with the greatest care at the season of the year when the medicinal elements which they contain are at their best. This, in part, accounts for the wonderful efficiency of Lydia E. Pinkham's Vegetable Compound in restoring ailing women to health and strength.—Adv.

bout to New Jersey when it was made known that promoters associating themselves with Dempsey will suffer suspension also.

Rickard, thereupon, announced that he would do nothing to antagonize the commission and that the matter of a Wills-Dempsey contest, so far as he is concerned, must await the time when Dempsey comes to terms with the New York commission.

DENNISTOUN JURY IS DISCHARGED BY COURT

London, March 25.—The jury in the sensational Dennistoun case which yesterday awarded \$5000 pounds sterling to Mrs. Dorothy Muriel Dennistoun from her former husband, was discharged today after Colonel Dennistoun abandoned a counter claim regarding some furniture.

Counsel then began legal arguments on claims for judgments.

Forest Line Reopened
Mill City, Or., March 25.—Repairs are being made on the government telephone line which extends from Mill City to the ranger station at Detroit, and same is being put in first class shape. Quite a number of new poles had to be installed.

Active Glands Gave Napoleon Fighting Force

According to a noted scientist, who has analyzed the action of the glands, Napoleon, one of the greatest fighters of all history, owed his courage and fighting force to large and extremely active adrenal glands.

Not only have the glands an important influence on the mind and character of the individual, but they also largely control health, energy and vitality, and it is by maintaining the normal functioning of the glands that we may combat sickness and ill health, according to eminent scientists and physicians of this country and Europe.

Glandogen, the new scientific gland tonic, which is prepared in convenient tablet form, for men and women, provides a simple method of taking glandular treatment. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic. J. C. Perry drug store.—Adv.

SENATORS SEEK DATA ON TRUST LAW VIOLATORS

Washington, March 25.—Sixteen members of the senate have joined in a request that the federal trade commission supply them with any information it may have regarding the nature of commissions being formed abroad by American business, commercial and financial firms and corporations in alleged violation of the anti-trust laws.

In a letter to the commission, made public today, the senators cited allegations that "American business interests are establishing themselves in many countries in combination with similar business

interests in those countries." They asked for any information the commission has as to this and particularly as showing "whether in any case American goods are sold cheaper to foreign customers as a means of maintaining the prices of such goods manufactured in the United States, than to American consumers."

The request was addressed to the federal trade commission as the agency charged with administration of the Webb-Pomerene act, which the letter said "is designed as we understand it, to help American business corporations and to find a market for their products abroad."

The letter was made public in a statement by Senator Ladd of North Dakota, who announced that, in addition to himself, it was signed by Senators, Fletcher, Frazier, Howell, Harrell, Ken-

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent cold lead to serious lung trouble. You can stop them now with Creomulsion, a dissolved creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agent for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic cough and colds, bronchial asthma, catarrhs, bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist Creomulsion Co., Atlanta, Ga. (Adv.)
