## BROOKS POULTRY RAISER REPORTS BUSINESS GOOD

Brooks, Or., March 25.—Robert Beer, who ships the output of his chicken ranch from Brooks, reports that the hens are doing exceptionally well. He averages about four cases per week, at the same time setting about the same number in the incubators of which he has ten, with a total capacity of 2000 eggs. The total number of hens he now has laying is 374. His last gathering for the day was 257 eggs.

Although the hens run out most of the time, the problem of giving them the proper ration at this time of year is often a hard one, especially in the way of green food.

Mr. Beer is a member of the Pacific Co-operative Poultry Producers' association, which has proven a very efficient marketing association. To belong it is required that the member must have 300 hens before he can hold a share.

At present and in the muddy weather the eggs must be cleaned before shipping, but the association is to install a mechanical egg cleaner some time in April which will materially decrease the labor of preparing the eggs for shipment.

Mr. Beer hopes to increase his plant to one thousand hens within the next two years. He claims to have had but little sickness among his fowls and no trouble from pests.

## DAWSON, HUNT WIN; FIGHTS ALL SHORT AND FAST

Charles Dawson of Eugene took another fight last night at the armory when he hit Johnny Groggins of San Francisco with a "rabbit punch" early in the fourth round and Groggins went down for the count. This was the 65th battle for Groggins, most of them coming by knockouts for the San Francisco fighter. He has lost two other fights by the knockout rule.

Several times in the first two rounds, Groggins hit Dawson low but no damage was done and Dawson continued the fight. Until the knockout it was anyone's fight as both of the fighters were about even. In the clinches Groggins brought his hand around to get Dawson to come out so he might hit him with a right but Dawson was too clever to be taken that way.

Only one of the fights went the full route, all of the rest ending in knockouts in the early rounds. The only fight to go the limit was the one between the Watson twins of Eugene, weight 71 pounds. The twins' fight went to a draw, with the boys' father refereeing the fight.

Bill Hunt, Salem fireman, stepped out last night in good condition and took a win over Chan Butler of Portland. Butler announced his weight at 180 and Hunt at 190. Bill landed the first two blows and then Butler hit him with all that he had but the husky fireman didn't budge. Butler went down for the count of nine in the first round although he was not hurt. Hunt took the second round by a shade as he did most of the fighting. Early in the third round Hunt hit Butler a blow that would have rocked Tim Vesuvius, but Butler was able to weather it. The next one sent Butler down to the canvas for the full count of ten. This was the first time Hunt has appeared in good condition and has left the ring without taking several punishment on the nose. It was the best fight ever put up by Hunt.

In the special event, Babe McCormick of Oregon City fought a fighter with no mean ability in Billy Robbins of Portland. McCormick took the count in the second round. Robbins, although out-weighted by three pounds was the aggressor until the fight ended. McCormick tipped the scales at 110 and Robbins at 107. Kid McCormick, the Babe's brother, issued a challenge to Robbins. The

REHABILITATION WORK MOVES ON

Chicago, March 25.—Reconstruction and replacement were the objects of activity today in the storm swept areas of five states where a week ago ruins and death were left in the wake of the previous day's tornado.

The American Red Cross went on ahead with its plans to replace and refurnish homes, clothing and all necessities of victims to re-establish them as nearly on a pre-disaster basis as possible. Local community and committees began the work of co-operating with the Red Cross in adjusting claims.

A few more days will end the emergency relief period fixed by Red Cross officials as the time for temporary efforts and work will start at once on surveys to ascertain permanent needs of storm sufferers. Later provisions will be made for vocational training and trust fund assistance in cases where the chief means of support

DEFICIT SHOWN IN POLK FUNDS

Dallas, Mar. 25.—Polk county started the year 1924 with a deficit of \$56,579.45, according to an audit of the county's affairs for the year 1923 submitted to the county court by Max Crandall, public accountant. The audit covers the period from January 1, 1922 to January 1, 1924.

The audit of the 1924 books is expected to be completed in a very short time but until it is prepared the exact status of the various funds of the county will not be known.

The audit shows that the market road fund was overdrawn \$28,742.00 and the common schools \$12,649.95. Other funds were overdrawn for smaller amounts and a few funds had a small surplus. The net deficit, however, was \$46,579.45.

## CONSTIPATION means SICKNESS

More human suffering, physical and mental, has resulted from constipation than from any other source. The entire future life of a child can be ruined by lack of attention to the proper daily movement of the bowels. If the bowels do not act at least twice daily it means constipation—that means the bowels are clogged up with the accumulated residue of five to fifteen meals or more with consequent pollution, poison and disease.
