## JOURNAL BACKED BY KIWANIS CLUB

A motion was made at a meeting of the Salem Kiwanis club this noon to endorse The Capital Journal in its stand taken regarding the removal of the office of the state banking office to Portland.

"If we start in with the state banking department they'll soon want the state fair," said Scott Page. "Before we know it they'll want the whole capitol down at Portland."

"This is a process that's been going on for at least five or ten years, and ought to be stopped," said Tero Hicks.

**Poling Speaker at Noon Service**

"A Garden and a Cross" was the theme of the talk made this noon by C. S. Poling at the Oregon theater before a crowd gathered for the second of the daily services being held this week. Rev. Poling referred to the passage from scripture, "He was a man of sorrows and acquainted with grief."

The speaker referred to the Savior as a man's Christ. "Christianity challenges the bravest and the best in manhood," he stated.

He outlined four major conflicts in the life of Christ, the conflict of the wilderness, the conflict of Gethsemane, of Calvary and of the tomb. The speech dealt principally with the second and third, Rev. Poling stating that the conflict of Gethsemane was one of surrender to the great task of Calvary. He maintained that because of his belief in miracles he looked forward to Easter with confidence.

Music was furnished by the Evangelical choir and by R. McDonald, the regular Oregon theater organist.

The services Wednesday will be conducted by Rev. E. H. Shank, whose theme will be "The Home." Music will be furnished by Mrs. H. Harms, soloist, and Mr. McDonald. Mr. McDonald's organ concert from 11:15 to 11:45 will be a daily feature of the services.

## Neat Trim Figures For Ruptured Women

Those Having Naval Rupture or Rupture Following Operations Should Try My Plan FREE

Comfort, Security, Freedom and Shape-ness While Awaiting Cure

Special Corset Attachment for Large Fleeshy Women Gives Excellent Figure—Holds Rupture

Mrs. F. E. Williams, representing Wm. S. Rice, Inc., Adams, N. Y., (the largest rupture institution in the world) is demonstrating a remarkable corset attachment for ruptured women. This holds any rupture, large or small, with absolute security and distributes the pressure so there is none of the discomfort that comes from narrow bands or belts cutting into and chafing the flesh. At the same time, the figure is so improved and made so neat and trim that none would ever suspect a rupture. For those women, especially, who are unable to wear ordinary corsets on account of large naval ruptures or ruptures following abdominal operations this special surgical corset and rupture support combined is a boon indeed.

**Corset Back Attachment Prevents All Cutting and Irritation**

Mrs. F. E. Williams will be at the Marion Hotel Salem, Oregon, from Wednesday noon, April 8 until Thursday evening, April 9, and will welcome ruptured women to her private apartments between 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 evening during her stay. She makes no charge whatever for explaining and demonstrating these, and other Rice Rupture Supports or for her advice and counsel. There is no obligation to purchase anything unless you yourself wish to do so after demonstration right on your own person.

**Thousands of Cures Reported**

Many thousands of complete cures of ruptures of all degrees, lengths of standing and in old and young alike have been reported from the use of the famous Rice (Home Treatment) Rupture Method, of which these Supports form a part. This lady expert will give full details and positive proofs of this world-famous Method to all who are interested, together with a free testing trial of Lymphoid Stimulating Application for use on the rupture area.

Why should you go through life with the handicap of a rupture, with the torture of a cruel truss and with the embarrassment of an unshapely and unattractive figure when there is at hand a Method that has opened the doors of hope to so many thousands? The Rice Rupture Method is thoroughly scientific and is purposed to strengthen the weakened tissues which have caused the rupture through their relaxation. With these tissues restored to normal, the breach is automatically closed and the rupture cured. That is what thousands upon thousands of former Rice Method users reported occurred in their cases.

With the rupture held comfortably securely and with the new shapelessness of figure made possible by this combination Support, one can be happy and content, while working for final cure by the famous Rice Method.

Remember, Mrs. Williams will be here only two days, so you must act promptly. Don't let the chance escape you. Your whole future may be at stake. Just ask for Mrs. F. E. Williams at the Marion Hotel, Salem, Oregon.

Those who cannot possibly call should write for particulars to Wm. S. Rice, Inc., Adams, N. Y.—Adv.
