**HIS Spring, It Will
Pay You To Pay
A Fair Price For A
Fine Hat—A Mallory**

THE clue to every man's personality is his face. The most important article he wears is its cover. The hat which graces the face confers character. The wrong hat may be, as you well know, a veritable caricature. Our fine hats are designed for men who want something *inherently and incontestably fine* with a flexibility that permits manipulation and expression, according to the whim of the wearer. Into our fine hats go the pick of felts; extra-gifted handiwork; the most recent dictates of English and American fashion in shapes, shades, bands, bindings, linings; the responsibility of an organization which is committed to *fine quality* at a *fair price* as a matter of habit and hobby and honorable history.
