Autochrome Plates to Be Exhibited

An opportunity to see autochromes, or lantern slide plates by which direct color photographs are accomplished, will be offered the Salem public tomorrow evening in the program which the Salem Arts League will give at the public library. Robert Paul is practically the only amateur photographer in the northwest actually engaged in autochrome making at present. He will show his collection of plates before the league meeting, and will explain the intricacies of the taking and developing.

Autochrome enthusiasts are very rare, says Mr. Paul, and he finds it extremely difficult to secure supplies. He says that although a number of people have experimented with the process and have had results ranging from poor to very good, because of the difficulties and expense connected with this hobby they have not continued it.

It does not require a special camera to take these pictures—merely a specially colored glass, known as a color screen, to put over the lens to hold back the blue and violet rays which are stronger than the other colors and affect the films much more readily. Of course the impressions are made on special plates made in a manufacturing plant. Autochromes are exposed very much longer than ordinary pictures and the development of the plates is an extremely delicate and painstaking affair. Mr. Paul says that he takes most of his pictures before eight in the morning, usually in the morning, in addition to exhibiting his plates. Mr. Paul will explain the process of their making in his appearance before the league meeting tomorrow evening. The meeting will be open to the public.

Beware infection

A break in the skin is dangerous. EVEN the little injuries can lead to great trouble. If you cut or break the skin, microbes often get in and if they do, they usually cause dangerous inflammation.

Take care of the cuts, burns, scrapes, blisters, etc. Cleanse them well—then apply Resinol Ointment. It will stop the smarting at once and start the healing right. Its soothing medication helps nature to fight germ invasion, and close the wound in a healthy way.

...still C-T-C sales mount upward

FROM Los Angeles, Salt Lake, Spokane, Seattle, Tacoma, Portland, San Francisco . . . everywhere in the West . . . come reports of increasing C-T-C sales!

In 1924, the number of retail dealers selling C-T-C's, made a tremendous increase—120 per cent gain over 1923.

And still C-T-C sales mount upward! It looks as though unquestionably 1925 sales will be at least double those of 1924!

The reason? Engineers behind C-T-C are keeping their promise!

They came West from Akron, where they held high executive positions, to build even a better tire in the West. Motorist say they have done it.

We shall be glad to give you expert information about your tires, and—if you need them—put on C-T-C's—either balloons, semi-balloons, heavy-duty cords or oversize cords!

CONSTIPATION means MELANCHOLY and DISEASE

Melancholy for the Mother, disease for the Child! The responsibility of the mother does not end with properly clothing and feeding the baby. Her own health is directly reflected in the little one, and the poisons bottled up in her body by constipation transfer themselves to the innocent child and too often result in serious sickness. Mother's bowels should act at least twice a day, and baby's bowels more frequently. Physicians agree on this subject.

Dr. Caldwell's SYRUP PEP SIN

The Family Laxative
—relieves constipation. It is a pure, harmless, gentle combination of Egyptian senna, pepsin and aromatics in liquid form that opens up the bowels, and promotes and encourages Nature to perform her proper functions. No doctor could give you a better laxative than this one of Dr. Caldwell's which has been used for over thirty years.

As Pleasant, Easy and Effective For Mother as For Baby
It is mild and wholly free from opium or narcotics. Because it is so pleasant to take, babies and children like it, and it should be in the medicine chest of every family for instant use. More than 10,000,000 bottles used annually prove its effectiveness.

It is sold everywhere medicine is sold—and guaranteed. Try it at our risk. Your druggist will return your money if it fails to do as promised.
