

MAY DAY PLANS AT WILLAMETTE ARE ANNOUNCED

Plans are rapidly making for the May day festivities to be held at Willamette University on May 5 and 6. Hundreds of visiting friends, parents and high school students are expected on the campus. Outstanding among week-end events will be the coronation of the May queen, Miss Lucia Card, with the dances which follow after the event, and the junior play, "Mr. Jim Farnes By," to be given by members of the Junior class on the evening of May 5. In some of the May dances men will participate for the first time since 1919.

A canoe fet, which had been planned tentatively, has been discarded. The complete program for the week-end has been announced as follows:

He has already left Cambridge, Massachusetts.

EYEGLASSES AND TEETH CHART ARE MURDER CLEWS

Gary, Ind., April 30.—A pair of eyeglasses for a middle aged man, and a woman's grey suede left shoe and a chart of her teeth were the keys held today by authorities investigating the death of an unidentified girl whose dismembered, burned and bulged riddled body was found Sunday near Chesterton.

A possibility that solution of the mystery hinged entirely on the eyeglasses, like that of the slaying of Bobby Franks by Nathan Leopold and Richard Loeb was considered by officials in a lengthy conference last night. The shoe with one strap burned off was found by a police dog about 300 feet from the spot where the body was found.

The dog followed a trail to a small swamp like a short distance away where, authorities believe the missing legs and right arm of the girl might be found when the lake is pumped dry.

Tracing of any dental work done on her teeth was started when the chart of the girl's mouth was made.

A partial identification of the body as that of the wife of a Gary railroad employe was upset when it was learned that a letter was received from her from Farina, Ill., Monday.

Her husband who had been held for questioning was released.

Articles of incorporation were filed Tuesday with the state corporation department by the Marine Rotary Valve Motors company of Portland, having a capital of \$50,000. The incorporators are George R. Barker, S. E. Nygren and L. M. Barker.
