BEE SWARM ON DALLAS STREET

Dallas, Or., May 1.—Those who crave the old-fashioned type of excitement—the kind that the boys experienced in the days when it took hip boots to wade Main street before the middle of May—had a realistic touch of the old times Monday when a swarm of bees headed north on Main street seeking a place to rest.

Someone wise in the way of bees gave them the high sign to settle and settle they did—“Guy Broe” roustabout filver parked in front of the store. Spectators began to gather and view the sight from a safe distance. Soon a stack of bees as big as a storepipe joint was hanging from the filver and thousands more buzzed about.

Fortunately the bees were peaceable and made no molest generally. Some someone was secured to scoop the swarm into a nice new hive and this was placed not far from the sidewalk to collect in the scattered members of the swarm. During the afternoon dozens of persons passed within three feet of the hive without a thought, doubtless believing the swarm of insects buzzing about were flies.

A remarkable feature of the swarm was that four queens, instead of one, were in it.

Why Rich Red Blood Makes Winners

How You Can Increase Your Strength and Endurance—Often in 2 Weeks' Time

It is a well-known fact that the greatest athletes and the successful men in every walk of life have plenty of rich red blood containing the proper amount of strength-giving iron. Thousands of weak, tired, ailing, run-down men and women have, by simply taking organic iron—Nuxated Iron—increased their strength, energy and endurance and felt like entirely different persons in just two weeks' time.

For organic iron—Nuxated Iron—is like iron in your own blood, so it acts like iron in your own blood, so it acts to quickly build up and invigorate run-down bodies and revitalize exhausted nerves. It is entirely different from ordinary mineral tinctures and pills—does not injure the teeth nor disturb the stomach. And it is so highly concentrated that one dose is equal to drinking one-half quart of spinach or a quart of green vegetables. Take Nuxated Iron for just two weeks and you'll be astonished how much stronger and better you feel. Money back if not delighted. At all good druggists.
