OPERATORS OF STILL JOLTED; TO TAKE APPEAL

After discharging a motion for suppression of all testimony in the case and for return of the property confiscated, based on the supreme court opinion in the McDaniel case, Justice of the Peace Small yesterday passed sentence on four men who were arrested in connection with the seizure of the huge still near Mt. Angel early in the week. Joe Walker, on whose farm the still was located, was fined \$3000 and sentenced to one year in the county jail. Lester Dickson, John Andrews and Henry Johnson, were fined \$500 each and sentenced to six months in the county jail on the charge of manufacturing liquor, and were bound over to the grand jury on a charge of possession of a still. The charges on which Walker was sentenced were possession of a still.

Attorneys for the defendants are fighting the case so stubbornly that it is believed they will appeal to the circuit court and possibly also to the supreme court. The motion to suppress evidence in the case and return the property, which was the big still and large quantities of liquor and mash, also asked for the release of the defendants. The motion averred that no search warrant was issued, that no warrant for the arrest of the defendants was issued and that no crime was committed in the presence of the officers.

Justice of the Peace Small stated that he had issued the search warrant after being requested to do so by Deputy Sheriff Roy Bremner and that the reason it was requested was that a truckload of containers followed from Portland had led to the Walker premises. Bremner said on the witness stand that Walker told him he knew of the presence of the still and led him to the granary where it was located. A. C. Smith, state officer, and H. L. Barker, federal agent, said that when they reached the still it was yet warm and that liquor was flowing from the coils.

BOND ISSUE FOR WATER SYSTEM WINS APPROVAL

At a meeting held in the basement of the West Salem church last night, general sentiment was expressed in favor of voting \$5000 in bonds for additions to the water system of West Salem. It was claimed that those who had been opposed to the bond issue failed to put in an appearance and state their case.

Besides John Gosser, mayor of West Salem who called the meeting, J. E. Arnold, William Andrews and Mr. Needham made speeches, stating that the community is growing, making increased water supply necessary, and that no other method is available to secure the necessary water. Gosser stated that taxes would not be increased, since \$2000 in bonds have been retired last year by the city, and money in now on hand to retire \$3000 more next July. "Even if we vote the new bonds we'll still be a thousand dollars to the good," said Gosser.

DELICATESSEN WIFE CAUSE OF MANY DIVORCES

Baltimore, Md., May 2.—A "delicatessen wife," in the opinion of Mrs. John D. Sherman, president of the General Federation of Women's clubs, is cause for divorce. Speaking before the Maryland Federation of Women's clubs, Mrs. Sherman said she had no patience with women who enjoy themselves away from home and rush back at the last minute before the husband arrives to buy dinner at a delicatessen store.

"No wonder divorces have increased from one in every thirty marriages 25 years ago to one in every five marriages now," Mrs. Sherman said. Mrs. Sherman said the blame for the conduct of modern youth should rest on the parents and mentioned more honesty and fundamental religion as necessities in the home, she emphasized "the demoralizing effect on children of daily witnessing the violation of law, especially the Volstead act by their parents."
