## DALLAS TO LEVY HIGHER TAX ON OUTSIDE TRUCKS

Dallas, May 4.—Three new ordinances which have been giving the Dallas city council considerable worry since they have been under consideration were passed Monday night. These were an ordinance controlling dogs, an anti-truck ordinance and automobile ordinance designed to make the routing uniform and workable.

The anti-truck ordinance was passed by a 5 to 4 vote of the council and it is practically certain it will be vetoed by Mayor Staffin. It would place a \$30 a month tax on trucks under two tons and a \$40 a month tax on trucks over two tons, which operate to and from the city. Dallas owned trucks, common carriers and farmer's trucks are excluded. The ordinance was aimed at outside concerns which serve Dallas merchants with their own trucks.

The ordinance was supported by Councilmen Black, Elyson, Rich, Sundberg and Sibley. It was opposed by Councilmen Allgood, Pinesh, Keller and Van Orsdel. Mayor Staffin took the ordinance to study over, but declared his intention of vetoing it, believing it to be unworkable and apt to involve the city in law suits.

The dog ordinance was greatly changed from the original draft. As passed it prohibits owners of dogs from allowing them to run at large. Such dogs will be picked up by the marshal on sight, held 10 days and killed. If the owner wishes to redeem them he may do so for \$10 for the first time and \$25 each subsequent time. A bonus of \$2 is allowed the marshal for each dog taken up. A dog will be deemed to be running at large if found off the owner's premises and not accompanied by the owner. No license fee will be charged under the ordinance as passed.

The ordinance carries an emergency clause and was signed by Mayor Staffin following its passage, making it effective at once. Councilman Rich cast the only vote against the measure. The matter of a pound large enough to hold the dogs is now worrying the city officials.

The automobile ordinance brought up the question of parking. The back in system was adopted after a vote of the council. It had been proposed to adopt the matter of a pound large enough to hold the dogs is now worrying the city officials.

## ENGLISH SALE OF WOOL WATCHED

Portland, May 6.—Considerable attention in the woolen goods market is focused on the opening of the Colonial wool sales in London today. Sentiment is of a nature anticipating an average decline of 10 per cent in values, which, it is thought, would further tend to increase the uncertainty in woolen goods prices.

The eastern wool market is stagnant. Business is limited. Some small odd lots, principally for the woolen trade, are being moved at a lower figure. Considerable inquiry is being received from mills, but in most cases the offers are too low for consideration.

Locally the wool market is quiet and inactive. Shearing soon on but few clips are being sold. Growers are unwilling to accept current levels and on the other hand, buyers are indisposed to take on stocks until the market displays a more settled tone.

Many Hives are Childless Because of Ill Health. Read How Lydia E. Pinkham's Vegetable Compound Helped Mrs. Benedict

Wash. and it was not long till I was relieved. Now I do all my own work and help others. I sure praise Lydia E. Pinkham's medicine to any one I meet that is suffering from similar troubles. I think if mothers with girls would give it to them when they come to womanhood it would make them stronger. People who have known me all my life are astonished to see me now as I was always sickly when in my teens until I started taking the Vegetable Compound. —Mrs. MARY B. BENEDICT, 313 Fayson Street, Kewanee, Ill.

Had a Beautiful Baby Girl Now  
Briscot, Vermont. — "In the first place I wanted a baby, but none seemed to come to me. I just love children and my husband is away all day, so I was not happy at all. A doctor told me I could not have a baby until I went to a hospital. But my sisters said, 'Take Lydia E. Pinkham's Vegetable Compound and you will be O.K.' I was nervous, had organic weakness, with backache, headache, and a weak stomach. I had been in bed nearly a week when I began taking the Vegetable Compound. It was all that ever helped me and I just wish you could see my beautiful baby girl. I am fine now, headache, and my back and side hurt me so that I could stay up only a short time. My limbs would get so tired and ache till I could cry. I started to take the Vegetable Compound again and used the Sensitive

## Circus Kiddies Get Schooling In Little Wagon Schoolhouse

The "rolling school house" has an able principal and a strong faculty of experienced college graduates who provide the children with thorough courses in language, science, history, mathematics and practical subjects.

When the circus returns to its winter quarters at Culver City the children are transferred to a little "red school house"—only it's painted green and white—on the big eighty-acre park just outside of Los Angeles. Here the children of the staff are given splendid instruction by graduates of several famous educational institutions of France, England and America.

Singing, drawing, modern writing and physical training are stressed in all grades. Manual training, domestic science and commercial courses are provided for students of higher grade. These volunteer instructors are employees of the show, traveling with it, and so the school bell rings on the road.

You'll see how happy these youngsters are when the big show opens here with the sensational feature, "Pocahontas at the Court of Queen Anne," the gorgeous extravaganza that opens the big program. The cast includes a former motion picture actress and three tribes of Indians.

Then there is the greatest movie star of them all—Joe Martin, himself.

That's where the children of Al G. Barnes big four-ring circus coming to Salem, Thursday, May 7, are taught "readin' writin' 'rithmetic" the same as other youngsters.

The little sons and daughters of the big show receive all the care and schooling and the influence that mark the youngsters of the great "outside" and are as well bred. Their education is directed with painstaking care, while the health of the youngsters is carefully looked after by a school physician and trained nurse.
