ROUGH RED RASH ON BABY'S CHEEK
Was Scaly and Itched. Healed by Cuticura.

"When my baby was about two months old she developed a small, red spot on her cheek. This gradually spread and was in the nature of a rough, scaly, red rash. It apparently itched for the baby scratched, and I was obliged to use elbow cuffs.

"I tried other remedies with only temporary relief. I began using Cuticura Soap and Ointment and they helped her. I continued the treatment and in two weeks she was completely healed." (Signed) Mrs. D. Young, 2524-24th Ave., Oakland, Calif., Aug. 30, 1924.
