## WOMAN'S CLUB HOLDS ITS FINAL SEASON'S MEET

Silverton, Or., May 14.—(Special.)—The Silverton Women's club held its last meeting for this season Monday afternoon at the home of the out-going president, Mrs. Ernest Palmer. The day was the annual guest day and each club member was permitted to bring a guest to the meeting. About forty members and guests were present.

The club has made it a practice to take up a subject for study each year. During the past season "Japan" has been studied. A subject for the coming year, which opens this fall, was discussed. Many were suggested, but "Legislation" seemed to be first choice, with "Oregon" second and "China" third. The matter of deciding upon the subject was left in the hands of a committee of which Mrs. R. E. Kleinsorge is chairman. A review of Japan was taken up in which several of the visitors took part. Following this a musical program was given consisting of a duologue by Mrs. R. Russell and Mrs. J. Welch with Mrs. Gordon McCall at the piano, a piano solo by Mrs. McCall and vocal solos by Mrs. G. Henson and Mrs. G. Raven.

At the business meeting committee reports were read and the business was closed up for the year. The library board and the hospital committee reported that the club had contributed liberally to these two institutions during the past year. The Silverton hos-

## Women Stoned in Klan Fight

Many were hurt, among them several women who sought to protect their children, when a riot broke out between the Ku Klux Klan and a crowd which stoned their meeting at Berlin, Mass. The Klansmen repelled attack with clubs. This picture, showing robed members of the organization halting an automobile, was taken just before hostilities commenced.

pital and the library are the chief interests of the club. The library board reports that by fall it hopes to have the library housed in the new city hall instead of its present location in the school. The club has planned a number of affairs for the summer by which the club members hope to add to the library fund. Among these are a bridge, a dance and a cooked food sale. The club also expects to do more for the library this coming year than it has in the past.

## DALLAS MAYOR VETOES TRUCK TAX ORDINANCE

Dallas, Or., May 14.—Mayor Staffin announced the veto of the truck tax ordinance recently enacted by the city council at an adjourned meeting of the council held Monday night. He stated that he considered the measure as exorbitant and one that would probably have involved the city in difficult legal action.

The measure was passed May 4 by a 5 to 4 vote of the council and as a two-thirds vote would be necessary to pass it over the mayor's veto, further action is considered unlikely. The adjourned meeting was called to receive bids on the improvement of Stump and Birch streets with curbs and macadam streets. William D. Hoffman and Louis H. Gohrke were the only contractors submitting bids. Hoffman was awarded the contract at \$3225 as against \$2465.90 by Mr. Gohrke. Mr. Hoffman now has a concrete sidewalk contract in the city and is grading and curbing a block on Washington street.

## 3104 ACRES LINN TIMBER IS SOLD

Albany, Or., May 14.—One of Linn county's largest timber deals in history was completed today with the filing of deeds to 3104.96 acres of timber land at the office of the county recorder by Mealey brothers of Foster and Louis W. Hill, head of the Northern Pacific railway system. The consideration was \$110,000.

The deed transfers ownership of the property from O. J. and William R. Mealey to Louis W. Hill, who already owned a tract of more than 40,000 acres of timber land in Linn county. The Mealey property involved in this deal is surrounded by the Hill lands and now becomes a part of the big Northern Pacific block.

The deal was negotiated through J. W. Mayo of Stayton, cashier of the First National and the state and savings banks there. It had been in progress for some time, but adjustment of title incidents had delayed final filing until today.

The land covered by the deed is in townships 13 and 14, situated in the Big Bottom district on the Quartzville fork of the Santiam river between six and ten miles above Foster. It had been owned by the Mealey brothers for many years, some of it having been purchased by them 20 years ago. The Mealey brothers operated a saw-mill, which was supplied from the tract above Foster until the mill was burned two years ago. The brothers owned in all approximately 4000 acres of timber land in this section. They are retaining the balance.

## Men! Don't Come Home Fagged Out by Hard Work

DOCTORS say that in an enormous number of cases when men come home physically and mentally "all in," nervous and cranky, the real cause is not hard work, but thin, pale, watery blood, deficient in strength-giving iron. Once this iron is restored to the blood it is often astonishing how quickly these men gain new strength, nerve force and endurance. But be sure the iron you take is organic iron—Nuxated Iron—and not the old-fashioned liquid medicines and pills made by the action of powerful acids on iron. Nuxated Iron is a natural organic iron, like the iron in your own blood, and like that in spinach and lentils. Does not irritate teeth or disturb the stomach. So remarkable are the effects of Nuxated Iron that thousands of weak, nervous, fagged-out men and women have often increased their strength, energy, and endurance in only two or three weeks. Try Nuxated Iron just two weeks. Money back if not delighted. But make certain you get genuine Nuxated Iron tablets with the letters N1 on every tablet. At all good druggists.
