Honest service and honest burial equipment

It is just as important that the funeral director know the quality of the burial equipment he supplies as it is for him to maintain a high standard of service.

Every item of material should be exactly as represented. If not, then the funeral director is violating a trust. If he promises he is supplying a vault that will protect, then it should protect, positively and permanently.

An idea of the burial equipment we furnish is shown by the Clark Grave Vault, nationally recognized as the standard of burial protection.

ZANNI'S PLANE IS DAMAGED

Osaka, Japan, May 14.—(A. P.)—Opinions differ here as to the seriousness of the damage done to the plane of Major Pedro Zanni, Argentine aviator, when the machine overran a collection of gifts today while the airman was attempting to take off from Kasumigaura, the military air base.

At 5 o'clock today the plane had not been taken from the water. Major Zanni said he hoped that only the propeller and pontoons had been broken as those could soon be replaced. It may be some hours before the aviator, who planned a re-start of his world flight from Kasumigaura, may determine upon his future action.

Defies Age by Using Ordinary Buttermilk to Beautify Complexion

This Pretty Girl Tells Druggists Not to Take Anyone's Money Unless This Delightful New Vanishing Cream Shows a Decided Improvement

Buttermilk Cream creates beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the roughest, most lifeless complexion to radiant beauty and makes red, rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shyness or greenness of the skin.

No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, scales, crows feet or lines around the mouth, oily finger nails, or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Buttermilk Cream.—Adv

Mayonnaise—
even a man can make it the first time!

Few things are easier to make than good mayonnaise. Wesson Oil and a fresh egg—beaten together and seasoned to taste—and you have a mayonnaise you'll be proud of!

Quickest results are obtained if the oil and egg are not too cold. The ordinary temperature of your kitchen is just right.

Break the egg in a bowl—
Add about a tablespoonful of Wesson Oil.
Beat vigorously with an egg beater or a fork—until the oil and egg are thoroughly mixed. How long will that take? Perhaps while you count fifty—not as fast as you can count but as fast as you can beat.

Add another tablespoonful of oil and beat again—vigorously. Two tablespoonfuls and beat again. Two or three more and beat again.

Your mayonnaise will begin to thicken a little.

Then add Wesson Oil four or five tablespoonfuls at a time, beating well after each addition—until your mayonnaise is as thick and stiff as you want it. The more oil you beat into it the thicker your mayonnaise will be—about two cupfuls is the usual amount. [Never add more than a quarter cupful of oil at any one time.]

After your mayonnaise is made, add seasoning. Mix a half-teaspoonful of salt, a teaspoonful each of sugar and mustard, a generous pinch each of paprika and red pepper—add a tablespoonful of lemon juice or vinegar and stir until the salt and sugar are dissolved—then pour into the mayonnaise and beat well.

With Wesson Oil Mayonnaise as a base, you can make many other delicious salad dressings in a very few minutes.

A convenient method used by many women who like to vary their salads each day is to make a pint of Wesson Oil Mayonnaise, cover it tightly in a fruit jar and put it in the refrigerator where it will keep and at the end of the week be as fresh and good as the day it was made. Then from day to day as a different kind of dressing is desired a portion of the plain Mayonnaise is mixed with the desired ingredients to make the fancier dressing. One day you can make Russian Dressing, the next Thousand Island, and so on throughout the week. There are many variations of Wesson Oil Mayonnaise. If you would like to have the recipes for some of these, write to the Wesson Oil People, 112 Market Street, San Francisco, Cal., asking for the booklet on salad dressings.
