

HILLSBORO NOT TO GET ACTION UPON PROTEST

A late announcement made last night by "Prince" Edwards, manager of the Salem Senators, indicated that the protest by the Hillsboro team, who lost to the locals last Sunday by a score of 4 to 1, would not be granted. Edwards talked with the president of the Interstate league at Portland yesterday and the president claimed that there would be nothing to the protest. The game will be considered as played with the Senators leading the league with four wins and no defeats.

The Hillsboro nine did much crabbng at the decisions of Empire Hauser, who is a regular Interstate league umpire hired by the president and not by the locals. Had the Hillsboro team won they would have been leading the league with four wins and one defeat with a percentage of .305 while the Senators would have won only three games with one defeat or a percentage of .250.

The visitors became hot under the collar at the decision of Hauser when he refused to let E. Barkholder travel to base after being hit by a pitched ball. Hauser claimed that he did not attempt to get out of the way of the ball.

Next Sunday the Senators will play away from home when they meet the fast Camas club at Camas. The locals have one win over them by a 4 to 2 score but will have to play good ball to get another one as the Camas club is one of the strongest in the league outside of the Senators. The paper-makers at Oregon City promise to give considerable trouble, however.

ATTORNEYS ARE RAPPED BY KAY

Because of the size of the fees they are asking for their work in connection with state loans to farmers for the reseedng of wheat land, attorneys of several counties drew the fire of state board members today, particularly of State Treasurer Kay.

In counties where loans have been made under the act of the 1925 legislature the state board appointed for each county an attorney to guide the farmers in making their applications to the state. A number of these, it developed today, claim fees of \$750 which Mr. Kay thought excessive. But when the mails revealed one or two asking for \$1000 the state treasurer expressed himself in strong terms. Just what will be done about it hasn't been decided.

WEEK SET ASIDE FOR LEGION DRIVE

Governor Pierce yesterday issued a statement setting aside May 25 to 30, inclusive, as American Legion endowment week. The statement follows:

"Only seven years ago our boys were 'over there.' How we scanned the papers for news—how we waited for letters from loved ones. And then they came home. Oh, what rejoicing—what family reunions! How we wished to honor them!

"Seven years have gone. Many of the veterans have passed from us forever. Some lingered through months of suffering. Many are still lying helpless, haunted by the fear that loved ones, wife and babies, will be left destitute.

"Today thousands of orphans of the World war are in need of homes. Their fathers kept the faith, defended the flag and made the supreme sacrifice. They must be cared for. They must be protected. They must be given homes and an education.

"The American Legion is assuming this duty. This great organization is undertaking the task of providing a home for every dependent child of a veteran, the protection of every disabled veteran's widow or wife. It is the duty of every good citizen to aid in this great undertaking. Let us all do our part.

"I therefore recommend and urge that the people of this state observe the week of May 25 to May 30, inclusive, as American Legion endowment week."

STATE TO AID IN TEST CASE OVER 8 HOUR STATUTE

Highway work all over the state will be affected by the court decision in the case of Stanley Gregor against Lane county, which is now pending in the circuit court at Eugene, and in which the county will be assisted in its defense by J. M. Devere, attorney for the state highway commission. The question is whether the county can be forced to pay overtime wages to laborers who requested the privilege of working over eight hours.

The suit is brought by Allan Joy, a Portland attorney, in the name of Gregor, who has taken the assignments of all the other laborers involved. The case dates back as far as 1918 and the overtime wages alleged to be due total about \$5000. The county employed a large number of men on road work and they were required to furnish their own board. Since they were in the country a long distance from their homes they had to pay board, and expressed a preference to work 16 instead of eight hours, so that they might pay board by the additional two hours labor.

There is a law that says eight hours shall constitute a day's work more than that to be required only in cases of emergency, when double pay shall be allowed for the overtime. The suit is brought under that law, but the county claims the law should not apply for the

PIERCE PROTESTS BIG DAM PROJECT

Reason that the men wanted to work 10 hours.

About a year ago some of the same men complained to State Labor Commissioner Gram, demanding overtime pay, and at the request of Governor Pierce Attorney Devere placed the matter before the Lane county grand jury, which did not indict the county officials, and now the laborers have instituted civil action.

Hundreds of protests received by Governor Pierce against the proposed construction of the Priest rapids dam in the Columbia river have caused the governor to send a letter to the secretary of the interior declaring that unless assurance is given that the fishing industry will not be injured by the project the state of Oregon will try to prevent the improvement.

8 KILLED BY LIGHTNING

Brussels, May 20.—(A. P.)—Eight persons were killed by lightning last night and damage estimated to amount to millions of francs was caused by storms in this section.

The principal damage was done to farm crops although houses in towns and cities were battered by a heavy hail that broke thousands of windows.

All traffic and communications were impeded and some places temporarily stopped.
