

ABOLISH TRADE BOARD ASSERTS SENATOR BORAH

Washington, May 21—(By Associated Press)—William E. Humphrey, newest member of the federal trade commission, in questioning the right of the senate to direct it to gather information for the senate, has drawn from Senator Borah the statement that the commission should be abolished. Indications are that efforts to that end will be made at the next congress.

The senator, commenting on an address by Mr. Humphrey before the convention of the United States chamber of commerce Wednesday said "It is perfectly apparent that the commission is not going to be of any service to the country."

"In the interest of economy and peace in the business world," Senator Borah said, "it would be better to abolish the commission. After a commission of this kind comes under the influence of politics and political pressure from the outside it can be of no possible service to the people."

He declared the commission is no longer a protection to the small business interests "and the purpose of its creation cannot under existing conditions be realized."

WILL TRY TO PROPAGATE WILD TURKEYS IN STATE

Portland, Or., May 22—Wild turkeys will be established as game in Oregon if efforts of the state game commission are successful, said Captain A. E. Burghdoff, state game warden, today. Attempts were made to propagate the birds a number of years ago, but were unsuccessful.

"But domestic turkeys thrive in Oregon," Burghdoff said. "For that reason, I don't see why the wild birds cannot be propagated." A shipment of three dozen eggs was received from Ohio today. They will be handled at the game farm at Eugene and Corvallis. This coming fall several pairs of birds will be imported from Ohio together with other shipments of eggs.
