

CORN SOARS EIGHT CENTS; WHEAT ADVANCES ALSO

FROST REPORTS SEND CORN NEAR DOLLAR MARK

Chicago, May 25—More than eight cents a bushel jump in the price of corn took place today, the result of a frost report that many traders suggested calamity crop conditions, was chiefly responsible. Corn for December delivery soared to 92 1/2 cents, against 91 1/4 to 91 1/2 cents at the close on Saturday.

Influenced largely by the skyward flight of the corn market a rise of more than 5 cents a bushel in wheat quickly ensued. September wheat went up to \$1.34 1/4 compared with a finish of \$1.29 1/4 to \$1.29 3/4 on Saturday.

STRAWBERRIES FLOOD MARKET BUT PRICE FIRM

Portland, May 25—The usual heavy Monday receipts came into the early berry market this morning but prices were high with some of the fancy stock selling up to \$3.50 a crate. The bulk of the fruit went at \$3 to \$3.25 a crate with some small berries selling at \$2.50 and \$2.75.

With the strawberry harvest now in full swing it looks like good prices will rule throughout the season. Canneries and juice companies start operations this week and growers are more or less independent of buyers on the early market.

Some canning will also start the latter part of this week although the amount of fruit put up this year will be curbed to some extent by the high prices.

The crop is large in spite of the winter kill, due to the increased acreage, and the quality of the fruit is excellent this year.

Foreign gardeners who are organized into strong associations will carry on a shipping business looking out their own interests and away instead of depending on produce houses as in the past. This will take care of the surplus berries on this market and go a long way towards maintaining firm prices.

Country-bred meats and live poultry on the local market were steady and unchanged at the opening of the week. Supply and demand appear to be about balanced.

Butter and eggs are steady and unchanged, with no change in prospect for the immediate future. Butterfat is unchanged.
