# CHERRY GROWERS PLAN FOR FIGHT ON ROT MENACE

C. A. Clark, president of the new Willamette Valley Cherry Growers association has issued a call to all cherry growers for a meeting in the chamber of commerce rooms on Tuesday evening, June 2, for the purpose of taking up the brown rot situation.

Mr. Clark is calling the meeting on the advice of prominent growers who declare that the situation is so serious there should be concerted effort and organized movement to meet it here this year.

Yesterday's rain and hail, prominent growers say, did no further damage to the cherries than add to the general brown rot conditions have been prevailing, the cherries not being far enough advanced to be damaged by the hail to any extent.

Local growers are also at a loss to understand a dispatch from Los Angeles that cherry fruit fly had been found in a shipment ofOregon cherries there and as a result a general quarantine had been indefinitely extended against a number of counties in Oregon, including Marion county. Such a quarantine was put on last year with the general understanding that any cherries passed by the inspector here would be acceptable in the California markets. Just what the latest news about the quarantine means growers are unable to understand as they say it is too early for the fruit fly todevelop and the situation has more or less mystery about it. The dispatch did not state whether the quarantine would be binding even in the face of an inspector's favorable certification.

However, it is doubtful if many cherries will go south this year because of the extremely short crop and the apparent demand in the east which is promised at big prices because of the general short cherry crop in all constand northwestern producing sections.

# RYAN COMPANY MOVES INTO NEW HEADQUARTERS

Ryan Fruit company is moving today from its location across from the Willamette Grocery plant to its new concrete structure at Cottage and High streets which has just been completed and the company is taking the building on a 5-0 year lease.

The building is especiallyconstructed for the needs of the fruit company. It is a concrete structure, with double air spacesand refrigeration paper both in side walls and ceiling throughout and the plant is a cold storage as well as arefrigeration plant.

The machinery provides completeautomatic refrigeration, the refrigeration plant working while the employes sleep and the equipment the most modern obtainable.

The plant includes two especially constructed and equipped cold storage rooms and a largeholding room which will be kept at low temperature at all times.

The plant covers a space 70 by 85and includes a complete basement underneath as well as the upper floor.

The basement is to be used for truck and potatostorage and houses the refrigeration plant and ammonia machine.

The Ryan Fruit company has been rapidly growing and expanding. Last year his concern handled a considerable quantity of green fruit for shipment. Whether it will attempt to handle any this year is not yet known at the local plant, the decision depending on market and price conditions.

# STRAWBERRY DEAL UNDER WAY IN FULL SWING

The strawberry deal in this section is now on in full swing and the finest bunch of strawberries in the history of the district is going through the canneries and hareling houses, as well as being received for shipment to outside canneries.

Baker, Kelly & McLaughlin are figuring on putting up a hundred barrel pack here today in their local plant. Yesterday at Woodburn 40 barrels were run through in the afternoon and they expect 80 barrels today. About 50 will be put up at Albany. For the present Albany is handling the Lebanon tonnage for the concern but the Lebanon plant will open up Monday.

R. I. McLaughlin of the firm declares unequivocally that the berries now being received are the finest looking strawberries that have been taken in during the eight years of barreling they have done in Salem.

The new washing machine which is in operation is working with great success. The machine is the design of McLaughlin himself and he has had four ofthem constructed, one for each of the valley plants. Reserves have objected to washing of the berries heretofore because of the amount of water all past processes have carried into the barrels. But with the new machines the berries go through a rolling process and are carried on long drying belts and as a result a vast amount of dirt and filth is removed from the berries and they go into the barrels carrying aminimum amount of water.

At Hunt Brothers the new grading machine in connection with the Allen sanitary canning system in operation there is working with wonderful precision and the berries there are put through the washers and taken into the cans in a perfectly clean condition as well as being graded down to a mathematical certainty, a result never before achieved.

Large quantities of strawberries are moving out of Salem to other Oregon canneries.

Libby, McNeil & Libby have received them in big lots at the Salem Fruit union through Earl Pearcy for truckage to The Dalles, the berries now coming in in full swing. It is expected the Wilsons will start in the first of the week under good head.

Claude McKinney is receiving berries at the Mason-Ehrman plant for the Roy Mailing company at Hilsboro. The trucks take the berries from here and also pick up the berries at Hubbard for the Roy Mailing company which bought the berries of the Hubbard pool.

It has developed that the rains have done no damage whatever to the strawberries and if weather continues good the strawberry production will beat all records from present indications. The rains will add materially to the late crop of berries, it is stated, and prove a boon rather than a hindrance to the growers.

## Girl Shot Parents and Woman

Above:—MRS. WILLIAM WUNSCH and two of her children.
Below:—WILLIAM WUNSCH and LUCILLE WUNSCH.

Lucille Wunsch, fifteen, (left, below), driven to frenzy by the taunts of her schoolgirl chums in Riverdale, Ill., Chicago suburb, concerning her father, William Munsch (right, below), took her mother to a rendezvous and when her father came suddenly drew a revolver and shot him, then shot a woman he was escorting home, Miss Agnes Sinneck, and, when her mother, above, with two children) remonstrated, turned and shot her also. The girl's mother and father were expected to live, but the other woman died. Lucille was arrested.

# DENNY & COMPANY TO SHIP GREEN PRUNES AGAIN, SAYS PEARCY

Denny & Company will be here again on a green prune deal this year, according to word just received from headquarters of the company by Earl Pearcy, representing them here this spring.

Regardless of the indications of a short prune crop this new will come as good news to numerous prune growers, where crops are so short that there have been indications they would not attempt to put them through the driers and another prune deal for green shipments will mean an unexpected pickup.

The announcement also is of added significance as it is an indication that Denny & company plan to do just what they said they would do last year, and that is to make the green prune shipping here a permanent proposition.

Last year every big shipper in the northwest got a financial drubbing on the green prune deal but Denny & company and they showed good returns to their growers on the prunes sent out.

But the general losses sustained made many growers feel that this possibly would be the last green prune deal here in five or ten years, but evidently the Denny people feel differently about it.

Prunes going on on consignment from here through Denny & Company last season brought handsome returns to the growers.

Pearcy also made it plain today that the Denny people are going through with their cherry shipping deal this spring if no more than three cars are sent out.

"All arrangements have been made for the deal, a big tonnage signed up and the deal will go through, regardless of apparent crop shortage. The growers can depend on this" stated Pearcy.

# OWENS TO CHALLENGE TUNNEY OR GIBBONS

Los Angeles, Cal., May 30.—Ernie Owens, 31-year-old Los Angeles boxer, will challenge the winner of the Gene Tunney-Tommy Gibbons bout June 6 at New York, it was announced here today by Jack Kearns who yesterday became his own manager. Owens has a contract which made Kearns his manager, joins the stable composed of two world's champions—Jack Dempsey, heavyweight, and Mickey Walker, welterweight.

## LEGALS

**Notice of Hearing of Final Account**

**In the Matter of the Estate of Regina Nusbaum, Deceased**

Notice is hereby given that the undersigned, as Administrator of the estate of Regina Nusbaum, deceased, has filed his final account in the County Court for the state of Oregon for Marion county, and that Monday, the 8th day of June, 1925, at the hour of 10 o'clock in the forenoon of said day and the court room of said court has been fixed by said court as the time and place for the hearing of objections thereto and the settlement thereof, at which time any person interested in such estate may appear and file objections thereto in writing and contest the same.

Date of first publication 2 day of May, 1925.

Date of last publication 30 day of May, 1925.

W. J. NUSBAUM, Administrator.

**Teachers' Examinations**

Notice is hereby given that the county superintendent of Marion county, Oregon, will hold the regular examination of applicants for state certificates in First Christian church (basement) corner of Center and High streets, Salem, Or., as follows: Commencing Wednesday, June 10, 1925, at 9:00 o'clock a. m., and continuing until Saturday, June 13, 1925, at 4:00 o'clock p. m.

**Wednesday Forenoon**

U. S. History, Writing (penmanship,) Music, Drawing

**Wednesday Afternoon**

Physiology, Reading, Manuel Training, Composition, Domestic Science, Methods in Reading, Course of Study for Drawing, Methods in Arithmetic

**Friday Afternoon**

School Law, Geology, Algebra, Civil Government

**Saturday Forenoon**

Geometry, Botany

**Saturday Afternoon**

General History, Bookkeeping

MARY L. FULKERSON,
Marion County School Superintendent.

# REFERENDUM ROBS STATE OF HUGE SUM

(Continued from page one)

proportion as they pay into the highway fund.

Under the law it is incumbent upon the secretary of state to issue warrants up to the full amount of appropriations by the legislature. But the state treasurer can pay these warrants only as long as there is money to pay them, then he has to endorse the warrants not paid for want of funds, and to raise funds he has to issue bonds. Inasmuch as there is constitutional provision that the state cannot go into debt to exceed $50,000 this means that the constitution must be violated to raise money to pay the ordinary expenses of the state. It is admitted that there is something of a conflict between the law and the constitution in this respect.

Because of the 6 per cent constitutional limitation, which inhibits the levy of taxes in any one year more than 6 per cent in excessof the levy of the previous year the situation is one that cannot be easily remedied. The state tax commission cannot levy next December more than 6 per cent above the 1.5 mills of the levy of last December. Neither can the next legislature levy in excess of that amount. If the referendums are all successful at the pols in 1926 it will be up to the legislature to enact other revenue measures. But that does not relievethe situation faced by the present biennium.
