

BOARD PREPARES TO EXAMINE NEW CHIROPODISTS

Of the approximately 70 chiropodists who are now practicing in Oregon, all who have been practicing in the state two years or more will be allowed to go ahead under the new law creating a board of chiropody examiners, but all others must pass the examinations or quit practicing.

This rule will be enforced by the board, according to Dr. S. E. Scott of Salem, whom Governor Pierce has appointed one of the members. Dr. Carl Loven of Portland is the other appointive member and Dr. Frederick D. Stricker of Portland state health officer, is ex-officio a member and is secretary of the chiropody board. Dr. Scott will be treasurer, according to organization effected in Portland, Wednesday.

Protection of the public and raising the standard of chiropody is the object of the board. It is said that of the 70 practitioners in the state only three or four are graduates of colleges of chiropody. Those taking the examinations prescribed by the board must pass in the following subjects: Anatomy, chemistry, dermatology, diagnosis, materia medica, pathology, therapeutics and clinical and orthopedic chiropody. All candidates must make a general average of 75 per cent and not less than 60 per cent in any one subject.

An attempt will be made by the board to cooperate with other states. It is said this will probably not be possible relative to California where the profession is controlled by a certain school in that state.

The new regulation of the profession will not inhibit regular physicians and surgeons from practicing chiropody, nor will it suppress the sale or arch supports by retail concerns. Chiropodists are allowed to treat all diseases of the foot, but cannot amputate. They may administer only.

STATE IS GIVEN \$30,380 TO HELP GUARD FORESTS

Under the terms of the Clark-McNary law the state of Oregon will receive \$30,380, according to information received from Portland by State Forester F. A. Elliott.

"This law was passed at the last session of congress and authorized an annual appropriation of not to exceed \$2,000,000 to be allotted the various states to assist them in forest protection," said Mr. Elliott. "A total of \$650,000 was appropriated for the coming fiscal year. In order to qualify for any of the funds, a state must have a fire prevention and suppression system that will adequately protect both timbered and cut-over lands. The law is intended to cover only state and private lands and does not apply to the national forests. The Oregon system is considered the ideal plan in fire protection and this state, in all probability, been allotted the maximum that will be received by any state.

These federal funds will be used in the payment of salaries of field inspectors who are now working under the direction and supervision of the state forester's office, and also in the employment of additional patrolmen in the various districts throughout the state."

In the Spotlight of the News

Above: MRS. WOODROW WILSON & PREMIER PAINLEVE Below: ROBERT E. CROWE & CAPT. R. AMUNDSEN

Mrs. Woodrow Wilson planned to tour the battlefields of Europe this summer, following the same itinerary she took with her late husband in peace conference days. Premier Painleve, of France, declares the next ten years may lead Europe to the verge of the most horrible of all wars. State's Attorney Robert E. Crowe, in Chicago, charged efforts had been made to "fix" the jury in the case of William D. Shepherd, on trial in connection with the mysterious death of his millionaire ward, Captain Roald Amundsen piloted one of two planes in a non-stop flight from Spitzbergen to the North Pole.

FIGHTERS WAIT GONG AT ARMORY THIS EVENING

Everything is in readiness for the gong when the fighters step into the ring at the armory this evening. Both principals finished their training last evening with light workouts and they are both in the best of shape. The battle promises to be better and faster than the last one as the fighters are both vowing revenge. Woods has been working hard for the fight and will be in better condition to give the Indian a hard run than he was on the last card. Woods gave George Ingersoll of Astoria a good run in a meeting at Astoria last Monday night and if he is able to get anywhere close to Ingersoll he is a lot faster than he was last time. Ingersoll is a whirlwind of a fighter who is fast and shifty. Lewis has been going through hard workouts in order to be in shape to finish the Spokane lad in short order.

Woods says that there will be no bluffing when he steps into the ring and Frankie Lewis will know that he has been in a fight before the fight ends. Lewis also made a like statement so it appears the fight will be for blood. Plant has signed up by fast preliminaries to go with the main event and the card will be the best ever. Plant has also arranged a six-round go for the semi-windup between Speed Murphy of Portland and Bill Hunt, Salem fireman.

Hunt has been making friends in the last three fights and if he shows the same class he will get the best of the Portland fighter who is working hard to be in shape for Hunt. Murphy lost to Hunt on the last meeting but has trained down considerable and will make it rather rough for the Salem lad.

Russay Green of Salem is signed to meet "Kid" Murphy of Portland in one of the preliminaries. Green showed up good on the last card and should do even better tonight as he has been working out each evening with Lewis and has shown much improvement. The show will start promptly at 8:30.

"Whether the fans want more fights is entirely up to them," said Harry Plant, matchmaker last evening. The fans showed their approval of the fights and wanted more some time ago but the attendance last time does not warrant the continuance of the smokers. Those connected with the fights lost money on the last card and they feel that they must stop the fight unless they have a larger crowd. "The bigger crowd, the better fights," says Plant. If the attendance at the fight tonight is large enough the fights will continue.

6 MILE WALK DAILY FOR MRS. COOLIDGE

Washington—Society leaders of the capital, accustomed to moulding their tastes to those of the first lady of the land, are stumped by the form of diversion selected by Mrs. Coolidge. Four to six miles of walking daily is the program of Mrs. Coolidge and this schedule stands, so far as the demands on the time of a president's wife permit, rain or shine, winter or summer.

PAPERMAKERS DOWN EAGLES IN 6 TO 2 CONTEST

The Oregon Pulp and Paper company baseball nine defeated the Eagles by a 6 to 2 score on the Oxford park diamond in the Sunday league series. The Eagles started a rally in the last inning that threatened to cause disaster but were unable to come through at the opportune time. With two out, the Eagles filled the bases and with Anderson, generally a heavy hitter at bat it looked as though something was about to happen. It did, Anderson struck out. The winners made four runs in the second inning on several hits. Simpkins pitched good ball for the winners and received good support. The lineup follows: Eagles—Horton 3b; Robins p; Regle ss; Zachary c; Anderson 1b; Shelly 1f; Restrow c; Willetts 2b; McGuire rf. Papermakers—Savage cf; Lauterbeck 3b; Bressler 1b; Sebackman 1f; Versteeg c; Blakenship 2b; H. Gross rf; Simpkins p.

Game Slated Tonight The Grotto and the ONG will cross bats on the Oxford grounds tonight in the Twilight league series. The game is expected to be fast as both teams are about evenly matched with a slight edge if any to the soldiers as they have been playing better ball. The Grotto team lost to the American Legion nine, the soldiers also losing to the same team but the Grotto nine lost by a one-sided score.

Junior Game Postponed Bob Bishop announced yesterday afternoon that the game scheduled for this afternoon between the Oregon Journal nine and the Field Nine in the Junior Twilight league would be postponed until tomorrow. The game tomorrow is going to be a whirlwind fight. If the Field Nine are able to annex the victory they will be declared champions, however, if the Oregon Journalists win the teams will still be tied and another game necessary. This is the third game of the championship series, the second game resulting in a 13-13 tie after the two extra innings.

Prominent Englishman Assails Dole System London—Young men should be taken out of the city settlements, transferred to the country and taught how to work as they were taught during the war how to fight, George Lansbury, newspaper editor and socialist member of parliament, told the house of commons during a debate on what he described as "the wretched, miserable dole system" of the state, and its effects on young men between the ages of 18 and 25.

INGENUOUS DEVICES TO GUARD RADIUM

Prague—Great ingenuity has been displayed by the Prague Radiological Institute in protecting the radium in its possession, and the methods are regarded as so complete that the kindly old professor responsible for the safety of the treasure has no fear of burglars.

The priceless substance, first of all, is stored in tiny, stoppered phials, and these are in a larger glass container completely sealed by fusing the orifice. Next comes a thick-sided lead box, which is care fully locked up in a modern, indestructible safe. All around the safe, a few inches apart, hang loose chains, making it impossible for any one ever to approach the safe without moving them. The slightest movement of a chain rings an alarm bell in the watchman's quarters.

GRANGER ROUGH CUT PIPE TOBACCO Packed in tea-foil, instead of tins—hence 10¢ Wellman left a legacy to pipe smokers Back about 1870, James N. Wellman developed a secret tobacco process which won widespread favor. But nobody else ever knew "Wellman's Method" until we acquired it and went back to it in making Granger Rough Cut. It's an "old-fashioned" method, yes, but slow as it is, and costly, too—we have found no other process that brings tobacco to the same full, rich "rounded-out" mellowness. LIOGOTT & MYERS TOBACCO CO.
