

RAINY WEATHER CUTS BERRY AND FRUIT BUSINESS

Portland, June 9—Cool, rainy weather is seriously cutting into the local wholesale fruit and berry business.

That the weather is against any heavy consumption of melons and other early summer fruits is the general cry on the street.

The situation is peculiar in that citrus fruits, melons and early tree fruits are soaring at California shipping points and declining here.

Local fruit is also breaking in the deal with The Dalles cherries arriving in liberal quantities.

Strawberries too are plentiful. Arrivals on the early market, while not extremely heavy, were plenty sufficient to supply the trade.

Prices were earlier at \$1.65 to \$2 a crate. Raspberries were held at \$3.75 to \$4 but sold along the street later as low as \$3.50.

The berry deal is very near the peak. The fresh egg market continues steady and unchanged current receipt bids are fractionally lower at 28 to 30 cents.

Slight improvement is shown in country dressed poultry although the demand is still limited.

The live poultry market is still dragging, especially on light hens. Prices today are down to 13 and 20 cents with heavies up to 23 cents.

Strength in the local butter market is reflected in the premium offered for lower score cubes.

Higher on the exchange a half cent higher on prime firsts at 42 cents with firsts advancing to 41 cents.

Portland, June 9—Hogs steady; receipts none; heavy weight (250 to 350 pounds) medium, good and choice \$11.50 to \$12.75.

Portland, June 9—Wheat: hard white, bluestem, hard, western white \$1.60; soft white \$1.61.

Portland, June 9—Eggs steady; current receipts 29 1/2¢; pulled 27 1/2¢ to 28¢.

Portland, June 9—Potatoes and onions nominal.

PRUNE PRICES IN CALIFORNIA REVISED AGAIN

The California Prune Association has announced a revised price list, effective June 1, with prices guaranteed against the association's decline until September 30.

"Sunwest" "Equality" 25-lb. boxes 25-lb. boxes 20-20 Sold out 10 1/2 10 1/2 30-40 11 1/2 10 1/2 40-50 8 1/2 8 1/2 50-60 7 1/2 7 1/2 60-70 6 1/2 6 1/2 70-80 5 1/2 5 1/2 Sold out 30-40 Sold out 30-40 Sold out

"To our brokers: We are revising our prices on 1924 crop prunes on the market June 1, in making this revision of prices we have in mind that our policy in relation to the statistical position on prunes has been correct and that the 1924 crop is as supply and demand are concerned in good condition, but we also recognize the fact that the liquidation of certain speculative holdings has dominated the market recently.

"We appreciate the effect this has had on the market and the position of the buying public, and it is our desire to meet this new condition and create a new range of values from which our industry and trade can continue to benefit.

"Do not believe it is necessary to go into elaborate figures as to the statistical position, but will suggest that supplies in California are only about 10 per cent of the tonnage held last year at this date. It has never been possible at any time to gather exact information as to supplies which have been carried during the various years on the part of the trade of this country, but we believe it is safe statement to make that present supplies in the hands of the trade are very much lighter than they have been for many years past, as of a corresponding date.

"It is generally recognized, after careful investigation made by ourselves and after discussion with various independent operators, that the crop of 1925 will be some what less than the crop of 1924, and that the 1924 crop will be one of the lightest crops produced in the Northwest for many years.

"In view of the above facts we are offering limited tonnage of our 1924 supplies at prices as per attached list; these prices guaranteed against association decline until September 30, 1925.

"It is our idea that the prices we have made are the lowest consistent with the present tonnage, crop prospects and market conditions, at this time, and that any substantial movement will justify an advance, and it will be our intention to make a reasonable advance as soon as the situation warrants.

"We are our intention to reserve a sufficient quantity of our stock to properly protect our cartage bill, but inasmuch as our primary motive is to effect a clean-up of the crop goods before 1925 crop can be ready, we will not make any normal reservation based on our past sales."

COMPANY TO INCORPORATE DURING WEEK

The first stockholders' meeting for a period of 30 days, consequently it will be at least 30 days after the articles of incorporation are filed before the company can perfect organization.

With the company organized, directors will determine upon a site, make arrangements for purchase of the machinery and prepare for getting the mill in operation.

It is expected from nine to ten months will be required to get the mill into shape for operation.

Import Machinery. The machinery must be manufactured in Europe as no machinery of this type is manufactured in the United States and the tariff on the importation of this machinery will be in the neighborhood of \$50,000.

The Portland campaign, which is nearing a successful conclusion, has enlisted the financial support of some of the largest financiers in that city, indicating what they think of the project and its probable success.

Mr. and Mrs. Harry Wenderoth of North Bend, spent the week end with Mrs. John Gantenben. The Wenderoths formerly made their home in Salem and have many friends here.

The Delta Alpha Sunday school class of the First Methodist church will meet this evening at the home of Miss Mabel and Miss Nancy Savage on the Garden road.

Mr. and Mrs. George Griffith, Mr. and Mrs. Brazier Small and Robin Day spent Sunday in Portland in the interest of legion affairs.

Miss Eva Niles spent the week end on the campus of Pacific college at Newberg, where commencement exercises were held. Miss Niles was graduated from Pacific college last year.

Mrs. B. C. Miles is spending the week in Portland where she is attending the Friends' annual meeting.

Mrs. Mary Johnson left today for Portland to attend the sessions of the grand chapter of the Order of the Eastern Star which are being held there this week. Mrs. Ida Godfrey will go down tomorrow to remain until the end of the week.

The Woman's Alliance of the Unitarian church will give a silver tea in the garden of the W. E. Anderson home at 1491 Court street on Thursday afternoon from two to six o'clock.

A called meeting of the Lady Muscovites will be held tomorrow evening in the club rooms.

Mrs. A. R. Ewing will entertain the Brush College Helpers in her home on Thursday afternoon.

The First Presbyterian church will sponsor a social in the home

Washington, June 9—(By Associated Press)—First indication of the size of this year's spring wheat crop, and of those of barley and oats, was given today in the department of agriculture's monthly report which forecast production of spring wheat at 254,000,000 bushels, last year 253,000,000 bushels were produced.

Winter wheat production, forecast a month ago at 444,523,000 bushels was placed today at 467,000,000 bushels, compared with 500,000,000 last year, and a five year average of 552,000,000 bushels.

All wheat production this year was forecast at 661,000,000 bushels compared with 675,000,000 bushels last year, and 637,000,000 bushels the five year average.

WALNUT PRICES ABROAD SLUMP

Although prices of walnuts have weakened considerably in French markets since February, particularly prices of shelled nuts, the market is still strong from the standpoint of available supplies, according to a report by U. S. Consul Hugh H. Watson, at Lyon, France, on the Grenoble walnut industry in the Lyon consular district.

Stocks of Grenoble walnuts were nearly exhausted in the middle of April with only about 1000 shells on hand. Of Mayotte walnuts there were about 500 cases. Of Chabertes practically nothing remained in the hands of growers, but speculators had some 10,000 or 12,000 cases, of which the consular states, a large part will probably be put into cold storage.

Prices of Grenoble nuts and the shelled Mayottes and Chabertes rose steadily from the beginning of the season through February, as a result of the relatively small crop, but have since weakened perceptibly. The price of Mayottes, however, has been relatively lower than the high prices received for the unshelled nuts, a fact which has been important in reducing the quantity available.

The consul states that the consumption of walnuts in France this year has been small, because of the high prices realized when sold for export.

Friends of Miss Mabel Robertson, head of the history department at the senior high school, will be happy to hear that she is recovering from a serious operation performed recently. Miss Robertson is at the Salem hospital.

Mrs. Cornoyer F. English arrived Friday from her home at Winona, Minnesota, and is the guest of Mr. English's parents, Mr. and Mrs. F. A. English. After the close of summer school, late in July, Mr. Cornoyer English, who is head of the biology department at the College of St. Theresa in Winona, will come to Salem to join Mrs. English and to visit his father and mother. He will also visit on the Corvallis campus where he was graduated with the class of '19. Mrs. English will go to Corvallis late this week to be the guest of her mother, Mrs. James McManus.

Additional house guests of Mr. and Mrs. F. A. English over the week end were Mr. and Mrs. Bryon English of Portland. Later in the month they will entertain another son, Felix English, who is connected with the U. S. geological survey in Columbus, Ohio. Felix English was graduated from O. A. C. in '22.

Mrs. John McNary has as her house guest for several weeks her niece, Miss Gertrude Gray of Portland.

Outstanding among the coming events of the week is the garden party at Mrs. Frederick Hill Thompson, Mrs. Phil Newmyer and Mrs. Fred Powell will be hostesses in the Thompson gardens. More than two hundred cards have been issued for the affair. The hours are from three to six on Saturday.

Low Fares. In effect daily to September 13 to all the principal Eastern Cities. Final return limit October 31. Liberal stop-over privileges.

One-way via California. Either going or returning—may be arranged if desired without much additional expense.

HAIL DAMAGES WHEAT HEAVILY

Pendleton, June 9—Hail that fell heavily late yesterday afternoon, according to reports in the heart of the wheat belt did heavy damage, according to reports received here today. In places along the highway east of Pendleton, the hail varied from two to three feet deep. A half bushel of hail stones brought to Pendleton by a truck driver last night included stones nearly an inch long and about an inch wide. Most of the stones were about the size of marbles. No estimate of the damage done has been made but early reports indicate that the belt affected was from three to five miles wide and of undetermined length. In Pendleton there was no hail but heavy showers fell during the later afternoon.

HUBBARD CHERRY POOL IS REPORTED AS SOLD

According to reports on fruit row Young Wells recently bought the Hubbard black cherry pool for \$25,000. It is understood that Ed Hebb, local representative of Young & Wells, has been securing the country for black cherries at the 8 cent price.
