

### DAIRY PRODUCTS IN GOOD DEMAND EGGS UP IN PRICE

Portland, June 11—Dairy products continue to maintain a strong tone in the local farm produce markets as most other commodities ease off. Butter is the leader with a brisk demand for all grades of cubes regardless of score. Light now butter production should be at the peak and prices weak but hopes of lower levels this year have practically been abandoned by local dealers.

On the exchange bid prices remain firm and unchanged. The scramble for current receipt eggs is forcing up country offers. Thirty cents appears to be the ruling price in the country with 30 to 30 1/2 cents paid along the coast "as is." On the exchange bids are a half cent higher at 31 1/2 cents. Graded quotations are unchanged.

Little change is shown in country dressed meats today although supplies are still plentiful and the market weak. Choice light calves continue to hold around 12 to 12 1/2 cents while fairly good calves go at 1 1/2 cents. Choice light hogs remain about steady at 14 1/2 to 17 cents.

Light hens are very weak with 18 cents the extreme top, this morning on leg horns. Heavy hens will bring from 23 to 24 cents. Springs are selling around 21 cents although a few heavy breeds such as Rocks and reds will bring up to 25 cents. Ducks are slow at 20 cents.

The local livestock market will be closed at noon Friday, June 12 on account of the funeral of Charles M. McAllister, local representative of the Portland Union Stockyards company.

### FIRST CARLOAD OF MELONS HERE

The first carload of watermelons of the season to arrive here has rolled into the Pacific Fruit & Produce company from the Imperial valley, the melons being of fine size and appearance. All of these are for distribution in Salem and immediately outlying towns. The first shipments of the season also have been received. They are exceptionally fine looking "cots." The company sent a man into California to endeavor to buy some apricots in carload lots for northwest consumption but without success. Carload buys not being available and all apricots coming in are in less than carload lots.

Lemon prices are also due to soar, it being predicted they will go to \$14 due to heavy shipments to the east which cleaned up the first picking pretty well.

No final report has as yet been received on the gooseberry ear ship ped out of here to California.

### LAST OF LOGANS REPORTED SOLD

The dried loganberry pack of the old Oregon Growers association still in the process of liquidation under W. I. Staley has all been sold, the balance left over from the big sale of last year, having found buyers, but the pack is not all disposed of, the sale being made on the basis of delivery between now and fall as they are wanted.

The carryover stock of prunes of the old association also has been all reported on except some lots consigned to Philadelphia and to Rio de Janeiro. These are unsold as far as is known here.

Staley also recently sold the Forest Grove plant of the association to the fruit growers at that place for \$11,000, this being somewhat less than was put into the plant in the beginning.

### PRUNE PROSPECTS IN CLARKE LOOK BETTER

Vancouver, Wash., June 11—Clarke county will have a 50 per cent prune crop this year, which is better than any other prune-growing district in the northwest. W. H. Wood, manager of the Washington Growers' Packing corporation, said today. The outlook has improved in the last few weeks. A light crop with good weather conditions will result in large sales, a good price and ready sale, he said.

### PAULUS DEVISES OWN CODE

Robert C. Paulus has completed a new cable code for use of himself and his brokers, the code being entirely of his own devising and so arranged that virtually any message covering his business can be covered in a 10 letter word in a single cable transmission. The code is specifically for use to cover dried fruits, canned fruits and vegetables, barreled fruits and salmon. It covers the names of every canner in the northwest and every dealer in the British Empire and on the continent. The code has been placed in the hands of Paulus' brokers in every country.

### 36 CARS CHERRIES SHIPPED

Walla Walla, Wash., June 11—Estimates made by fruit men are that 25 carloads of cherries have moved out of the valley, most of them from the Milton-Freewater section, and that 15 carloads remain to be picked, packed and shipped. Offerings today were less than usual because of some damage done by the heavy rains, some of the cherries cracking. Prices, which were as high as 18 cents, have dropped to 16 cents. Two hundred pickers and 300 packers are employed, the payroll running from \$12,000 to \$15,000 a week.

### METAPHORICAL GOATS MARK SCOPE'S TRIAL

(Continued from Page One)

as to whether you are to be a big goat or a little one. I really and truly think this is a fight for freedom of thought. This trial is not to judge whether I am a criminal."

As sidelights of his New York visit Scopes said:

"I found New Yorkers the most lovable people in this country, with the most greedy hotels and restaurants and the most selfish people—those reporters who wanted to monopolize all my time and not even let me see the follen."

If Scopes did not go to the follen, he did find amusement at another theater in a shift forecasting the coming evolution trial. There were three characters, William Jennings Bryan as prosecutor, Scopes and a monkey as a witness.

John Randolph Neal, chief counsel for Scopes, who visited New York with him, has announced a revision in associate counsel. As now planned, they will be Clarence Darrow, Bainbridge Colby, Dudley Field Malone, Arthur Garfield Hays, eastern manager of the La Follette campaign last fall and Charles W. Thomas, former senator from Colorado.

Malone was reinstated as an active trial associate after he gave notice that he would not do mere research work.
