REPORTS MADE AT CONFERENCE OF METHODISTS

Woodburn, Or., June 12.—The Methodist conference is now in session at Woodburn, Or.

The second sitting opened Thursday at 9 a. m. W. N. Coffey, lead the devotional service. The usual number of ministers and delegates answered to the roll call.

In the order of business a report was made of the purchase of 6 1/2 acres of ground for a conference camp ground about four miles from the court house in Portland at a price of \$5200. The ground is being put into fine condition and a ten-day camp meeting will be held the first of August.

The sixteenth question of the discipline was taken up, calling for the ministers' reports of their respective circuits. A number of very encouraging reports were given. At 10 a. m. the conference proceeded to elect district elders. Rev. M. C. Clark, who has served for the past two years, and O. F. De Foe, who has been pastor of Portland Central church for the past year, were elected. The balance of the time until 11:30 a. m. was taken up by ministers in giving reports.

The bishop then addressed the conference on the subject, "Discouragement," said: "Refuse to be discouraged, put a padlock on your mouth and keep still. A man who gets discouraged does not always state the truth. In the case of Elijah, when he was discouraged, said: 'All of God's prophets are slain,' but they were not. God had reserved 7000. He also said that he wanted to die, but he did not, for he was then running away from Jezebel to save his life. Great things have been achieved by people being faithful and full of courage, with small beginnings almost entirely refused to be discouraged."

W. A. Sellwood, who represents the Near East Relief, was introduced to the conference and gave a stirring address on the conditions prevailing, showing that relief is being given and better conditions exist, but still there is a great field for more activities of paying and praying by the people of America. "Inasmuch as ye have

OIL LEASE BOOM SWEEPS DALLAS

Dallas, Or., June 12.—Dallas appears to be on the eve of an oil boom.

What foundation there may be for it under the ground is not altogether tangible at present, but something has brought lease hunters into the district thicker than the world expect in a proven field.

Leases have been taken by at least half a dozen different parties, ranging from oil operators of known and unknown quantities to local men and so much quiet talk has percolated about that people generally are beginning to show excitement.

The David E. Olson interests are reported to have signed practically all the property in a bureau are swinging from the site of an old oil drilling operation near Monmouth northwest along Mt. Pisgah past Dallas and swinging back in a southeasterly direction beyond Dallas. The same interests are reported to have signed a considerable acreage in the vicinity of Perrydale. Men who were interested in the old drilling near Monmouth still swear that oil was struck there and the well ruined.

In the vicinity of Holmes Gap, where the Riggs natural gas well has long existed, a number of leases have been taken. It is reported that the Gerber Oil company has secured most of the property near the Riggs gas well and that the Honoluli Oil company has taken leases further north in the Holmes Gap country.

Two other leasing concerns, whose identity has not been made clear, are known to be at work in the county, and at least one concern backed by local capital is busy.

In addition to this there have been a number of prospectors who have refused to give any hint as to their connections but have sought all the available information they could obtain on the history of oil prospecting in this section.

The peculiar part of the entire matter is that no one has broached a stock-selling deal. The entire time and attention to date seems to have been to secure leases. These, for the most part run for three years.

Mr. Olson has been in Dallas a

SILVERTON MEN LEAVE FOR CAMP

Silverton, June 12.—(Special)—Never before has so large a number of guards left Silverton for summer encampment as Thursday afternoon when over sixty members of Company I boarded a train for Camp Jackson in southern Oregon. The train made up of three coaches and a baggage car left Silverton from up town and many citizens were out to see it leave. From Silverton they went to Woodburn to meet other units of the 3rd battalion of the 152nd infantry.

All inactive members of the company will be replaced from time to time as waiting list warrants. The Silverton armory talk has done much to stimulate interest in upbuilding of the command. The Silverton company hopes to be in its home by the first of the year.

The rifle team selected for the summer encampment consists of O. Willus Olsen, Sergeant R. B. Davenport, Howard Edson.

Wealth's Code of Love

A daughter of wealth, she was brought up to marry well. And from her parents' viewpoint, the fact that she had fallen honestly in love with a struggling young newspaper man was no excuse for throwing away her social position and future happiness by marrying him. So she did what many society girls are supposed to do—she literally sold herself to a millionaire whom she despised. Had she only been able to look ahead at the ghastly tragedy fate held in store for her! What happened to this girl is common enough occurrence in high society. If you think wealth and social position bring happiness read "A Society Woman's Story" in True Story for July. One of 18 big features. Get your copy today.
