

FRENCH PREMIER VISITS MOROCCO GREET SULTAN

Fez, French Morocco, June 12.—(By the Associated Press).—The French premier and war minister M. Poincaré, has arrived here continuing his personal investigation of the situation precipitated by the Rifian invasion of the French protectorate.

His party stopped on the journey from Rabat to visit a hospital where the French wounded are being cared for.

The premier recounted his reception yesterday by Sultan Mulai Yusuf, saying the Moroccan ruler was evidently highly satisfied with his assurance that maintenance of the sultan's sovereignty was the basis on which France was acting.

His discussions with Marshal Lyautey, M. Poincaré said, centered around both the diplomatic and military measures necessary to establish a stable peace in Morocco "with the greatest possible rapidity and the least possible expense."

"I count upon the suppression of all contraband within a short time," he declared, "especially as the forthcoming conversations with Spain will provide efficient measures for watching the Spanish coast."

The situation along the front is described in an official communiqué as remaining calm, but "maintaining a serious character" owing to the attitude of the Rifians who daily are multiplying their local attacks and intensifying their propaganda.

FRENCH REPLY TO BE SENT BERLIN NEXT WEEK

Paris, June 12.—(A. P.)—The French reply embodying the reaction of the allied powers to Germany's proposal of a security pact will be sent to Berlin early next week, provided Italy, as expected, approves the terms promptly.

COUNTY FORCED TO BUY HOSE BY NEW LAW

With representatives of hose manufacturing companies crowding in the county court has awakened to the fact that something was slipping over during the last session in the forest fire laws that will cost the county some money.

It has developed that a law was passed requiring on every steam engine operating within a certain distance of any forest land that it be equipped with a pump or gravity water system and at least 200 feet of hose.

The county operates eight or nine steam road rollers which are employed at various times within the prescribed distances from forest lands and as a result it is possible that each one of these may have to be equipped in the manner provided in the new law, which would require a considerable expense.

At any rate the hose salesman have started on the trail and the court expects that the pump sales men will be next.

The law also compels all steam engines operating within a certain distance of forest lands to keep all ground within a radius of 50 feet of such engines thoroughly soaked with water at all times, a difficult thing for a road roller to do.

er, and had a silver spade to break ground. Masonic lodges of the state were represented at the ceremony.

Roots and Herbs Used in Medicine

The Lydia E. Pinkham Medicine Co., of Lynn, Mass., is recognized as the greatest user of roots and herbs in the world. Over half a million pounds are used annually in manufacturing Lydia E. Pinkham's Vegetable Compound. These herbs are gathered with the greatest care at the season of the year when the medicinal elements which they contain are at their best. This, in part, accounts for the wonderful efficiency of Lydia E. Pinkham's Vegetable Compound in restoring ailing women to health and strength.—Adv.

Program at flag pole will include singing of "America," presentation of the flag by Mary E. Reel, division instructor of the auxiliary to the Sons of Veterans, the organization which donated the flag, receiving of the flag by Bishop Sumner, raising of the flag by Troop 2, Boy Scouts, reading, "Up to the Breeze With Old Glory," by Mrs. Norma Terwilliger; recitation of pledge to the flag by all, and singing of "The Star Spangled Banner."

Loses Hundreds of Dollars

"I am sorry I did not hear of Mayr's Wonderful Remedy a few years ago, as it would have saved me several hundred dollars. Five years I suffered from indigestion and severe bloating. I grew worse all the time. My doctors said an operation would be all that could save me. I took a course of Mayr's Wonderful Remedy instead and for the past year have been entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, D. J. Fry and druggists everywhere.—Adv.
