Many of our patrons have for a long time inquired for a safe and satisfactory Oil Burner for heating plants. We have secured the agency for a burner which we can recommend. It is perfectly safe and requires only the minimum amount of fuel to warm the building, and requires no attention whatsoever, except to set the thermostat at the temperature required and wind an eight day clock. Call us up or come in and let us fully explain the working of this wonderful oil burner, the Oil-O-Meter, Phone 192.

# THIS IS OUR HOME

Our hopes and our ambitions are centered here. Naturally we should have the local pride that causes us to hope that our community will grow and thrive.

And yet—some of us spend our money elsewhere, thereby taking just that much power for good away from ourselves. Let's help the community and ourselves.
