Deaden Bath-room Noise this Way

Use Celotex in the construction of the walls, as a plaster basis. This material is a very effective sound deadener. Too it has good insulating qualities, when used in the outer walls of a frame house, making it warmer in winter and cooler in summer.

Let us show you further how Celotex can save you money in Home building.

A penny is a tiny tax to pay for the "film of protection"

—and the freight on Veedol is less than a penny a quart

EVERY drop of Veedol you buy comes from a container which is filled and sealed at the great Tide Water Oil Refinery at Bayonne, N. J.

These sealed containers are not opened until they reach your filling station. That is your guarantee of the uniform high quality of Veedol. It is the reason that Veedol always gives the "film of protection" which safeguards your motor from deadly heat and friction.

Yet these precautions in shipping Veedol are not made at your expense.

Due to our facilities for shipping to the coast by water, less than one cent of the cost of a quart of Veedol represents shipping charges. A penny is a tiny tax to pay for the added quality, the increased gas and oil mileage, the far greater motor protection that Veedol gives.

The orange and black Veedol signs are everywhere. Have your crankcase drained and refilled with Veedol today. Ask for it by name. Let the "film of protection" safeguard your motor.
