VALLEY PIONEER AND NATIVE OF OREGON PASSES

On Tuesday, June 9, Mark Holmes passed away at the home of his sister, Mrs. H. Downing, near Shaw, 12 miles east of Salem in the Waldo Hills, after an illness of nearly three years during which period he was provided with every care and comfort that loved ones could bestow. Thursday the funeral was held in Salem attended by relatives and friends, after listening to a fitting sermon by Rev. Mr. Kautner, followed the body to its final resting place in beautiful City View cemetery where it was laid away beneath a bank of lovely flowers.

Mark was a native of Oregon and proud of the fact. He was born at a point known as Holmes Gap in Polk county in 1858. He was the eldest son of Alex and Almira Frizzell Holmes, honest and fearless stock men who came in the pioneer days when Oregon was new and the Willamette valley a wilderness. The Holmes family came from Illinois in 1848 and the Frizzells from Missouri four years later. Both families have always been respected and honored as friends, neighbors and citizens. They were associated in the opening up of the new country along with the Nesmiths, Haydens, Butlers and others who have made Polk county famous.

But Mark never boasted of his ancestry. He preferred to be himself and live his life in his own way. He claimed no credit for any worthy acts of his ancestors nor would he blame them for his own shortcomings. There was only one way for Mark and that was his own way. Not that he was selfish, but, being Mark Holmes, distinctly, he only went with the crowd when the crowd was going in his direction. Otherwise he followed his own course, wholly content if he were able to occasionally lend a helping hand to a friend or a stranger in distress.

HIGH SCHOOL ANNUAL AT SILVERTON IS OUT

Silverton, Or., June 15.—(Special.)—The 1925 Silvertonian, the annual year book published by the student body of the Silverton high school is now out and being distributed among its subscribers. The book is the finest yet to be put out here. Ronald Hubbs was editor and Dwight Kircher, manager. The lateness of its appearance is due to the fact that for a time it seemed impossible to put out an annual at all this season. The student body, however, put forth every effort and finally gained sufficient support to make this year book financially possible. The pictures are particularly well finished and clear in this year's annual which is dedicated to Miss Violet Crofoot of the commercial department of the high school.

Westerners know what a tire should be,

ONE glimpse of California, or Oregon, or Washington, or any Western state proves that the West is the motor ground of America!

California, for instance, leads New York and every other state in registration of passenger automobiles!

A group of successful Akron tire engineers caught a vision of the opportunities in the West. Its vast resources and possibilities for growth appealed to them.

Digging into the facts, they learned that 30 per cent of the nation's tires are used west of the Mississippi. And only 3 per cent were made there!

They transferred their skill and resources to the West.

Their C-T-C Cord today is regarded as one of the three or four really fine tires in America. Nine western states give it a remarkable sale. Further East its good name is rapidly spreading.

We shall be glad to give you expert information about your tires, and—if you need them—put on C-T-C's—either balloons, semi-balloons, heavy-duty cords or oversize cords!
