HOW DO THEY DO IT?
"They seem to have so many beautiful things—and there go some more! And Mr. Mome Lover earns less than father does, too!" Of course, she wonders how they do it, but the Home Lovers have learned how much easier it is to have the new furniture they want and pay for it just as little at a time on each pay day. Then the money that so often goes for other intangible things is invested in furniture—something that endures and stands as evidence of their good judgement during the years to come. You can have the nice things you want, too, and never feel any sacrifice either. Open an account here and let us explain our convenient budget plan. Then you will know how it is done—how you can have better furniture without extravagant expenditure or hardship.
