

REGULATION OF ROAD HOUSES IS TO BE SOUGHT

A campaign has been inaugurated by the Anti-Saloon League of Oregon to secure sufficient signatures to an initiative petition to place upon the ballot at the next general election a new road house and dance hall law.

The leaders of the movement claim that this was made necessary by the decision of Judge Skipworth, who ruled in a Multnomah county road house case, that road houses, though they permit dancing, do not come under the definition of the present dance hall law and that the present dance hall law does not meet the situation.

Following are some of the features to be incorporated into the new law:

A new definition of a dance hall which will also cover road houses.

Providing for license for such places and providing a \$500 bond that they will conduct orderly places.

Application for license shall be signed by sheriff stating that the applicant is a person of good moral character and fit to conduct such a place. This makes the sheriff responsible for every license issued.

Materially increasing license fees.

Liquor will be strictly prohibited in or about the premises with severe penalties for violation of the law.

All places to provide separate dressing rooms and all rooms and hallways shall be well lighted.

Closing all dancing at midnight and Sundays.

No persons under 18 to be permitted in any dance hall or road house except in company with one of the parents or legal guardian.

Compelling the presence of a lady floor manager of mature age and good moral character.

The abatement law will also be applied so that such places may be abated and padlocked if they violate the law.

No dance of gross or vulgar character shall be permitted.

Boisterous conduct, intoxication, profanity or obscene language will be prohibited.

Violation of any provision of this act shall be punishable by severe fine and revocation of license and no other license shall be issued for same person for at least one year.

Provide heavy penalties for conducting dance halls without license or to participate in dancing when no license has been obtained.

SAYS FARMERS MUST BE AIDED

It is the general feeling among business men throughout the United States that agriculture must be brought up to a higher plane of prosperity if the country as a whole is to be prosperous, according to W. D. B. Dodson, manager of the Portland chamber of commerce, recently returned from Washington, D. C., where he attended a meeting of the United States chamber of commerce. Dodson addressed the Salem chamber of commerce Monday.

"If there is one great outstanding problem in our country today," said Mr. Dodson, "it is the fact that the farmer is not as prosperous as he rightfully should be." The farmer's problems are the business man's problems, he declared, the business man being directly interested in them and better able to deal with them.

The two outstanding problems tackled by the United States chamber of commerce at its recent convention were the agricultural problems of the country and the problem of the United States merchant marine, according to Dodson. The farmer, as well as every man connected with production, is

22 LAND OFFICES CLOSED; TOOZE KEEPS HIS POST

Washington, June 16.—(A. P.) The offices of 22 receivers of local land offices in 11 states were ordered abolished today by the interior department.

The work of the receivers will be taken over by the registrars of the offices and the department estimates a saving of \$50,000 a year will result.

SUGAR TARIFF NOT TO BE CUT

Washington, June 16.—President Coolidge will take no action for the present on the recommendation of a majority of the tariff commission for a reduction of one-half cent a pound in sugar duties.

The president, in a statement made public yesterday on the findings of the commission's report said he did not find that differ-

However, should decreased production or other conditions compel the consumers to pay "the abnormally high price complained of in 1923," Mr. Coolidge said,

"the change might warrant reconsideration of his decision.

The average New York wholesale price of granulated sugar was 8.4 cents a pound in 1923 when the commission began its investigation and on May 7 last, the president pointed out the price had dropped to 5.48 cents

"You smoke pretty steadily, Bill, don't you?"
"Yes, what makes you ask?"

GRANGER

Packed in tea-foil, instead of tins—hence 10¢

You'll take to Granger right from the start

Granger has that full, rich "rounded-out" mellowness that every experienced pipe-smoker looks for in tobacco. For Granger is fine, ripe old Burley tobacco mellowed by Wellman's famous old 1870 method. And another thing, it's specially cut for pipes (rough cut, we call it) so that it burns slow and smokes sweet and cool right down to the very last flake.
