SHAKE UP IN PROHIBITION ENFORCEMENT

Washington, June 23.—(A. P.)—Reorganization of the prohibition enforcement system, involving abolition of state lines, decentralization of authority and the creation of new supervisory districts concurring with the federal judicial districts, was announced today by the treasury.

The sweeping changes are to become operative August 1. They are designed to build up a distinct federal enforcement system, without sacrificing co-operation between federal and local agencies. A prohibition administrator will be named for each of 22 new prohibition districts. These appointments, the treasury announcement said, will be chosen "for personal fitness and executive and business ability." Each will have two assistants and in addition a chemist and counsel.

Indications are that an important shake-up will take place among the enforcement personnel, but Assistant Secretary Andrews, who laid out the plan, declined today to discuss that phase of the re-organization.

The new program has the approval of the president and in making it public, Secretary Mellon expressed also his own wholehearted support.

From any fruit — Delicious Jams and Jellies every time

OH, it's so easy now! Before, no matter how experienced you were, you could never be sure—sometimes jelly and jam just didn't turn out. No amount of care seemed to positively safeguard you.

But you never have a failure with Certo—no desperate re-boiling—the most difficult fruits jell perfectly. For Certo is the substance in fruit that makes it jelly—fruit can't jell without it.

This jelly-making element is completely lacking in some fruits, others have only a little, and even in the fruits that naturally contain most of it, it gradually diminishes.

Clear, sparkling, firm, yet tender—every glass you make with Certo.

as they ripen. But now, because Certo itself supplies the all-important jelly-making property, you can make your jam and jelly of the richest ripe fruits—those with the finest flavor and loveliest color. You can even use fruits that have in themselves no jelly-making property.

So easy — so quick — no juice and flavor boil away

Less than 15 minutes from fruit to jam or jelly! Certo means that just one minute's active boil is needed. No more standing stirring over a hot stove—no long boiling that reduces the amount of your jelly—no loss in steam of flavor, color and juice.

Certo's brief boil saves you all the fruit that used to boil away. When you count up the cost you will find that with Certo you have half again as many glasses as you ever got from that much fruit. Millions of housewives now use Certo all the time. Your grocer has Certo. Order a bottle right away. Douglas-Pectin Corp., Granite Building, Rochester, New York.

Women are Right

Stopping kitchen musing on hot mornings

Quick Quaker cooks in 3 to 5 minutes
The right summer breakfast . . . no hot kitchens

HEATING your kitchen on summer mornings is a folly. Cook now the vigor food men like and children need without fuss or bother.

Oats and milk . . . that's the right hot day starter. Quick Quaker makes it easy. Cooks in 3 to 5 minutes. Doesn't heat the kitchen. Keeps the family well protected against hot weather drain . . . and you against its bothers. All that rich flavor of Quaker Oats is there. Quick Quaker cooks faster. That's the only difference.

Your Health is affected by wrong hygienic habits

This NEW way in solving woman's oldest hygienic problem will mean much to you

SIXTY per cent of many women's disorders, doctors now point out, are often traceable to wrong hygienic methods. Now there is a new way . . . a way that supplants the dangers and uncertainties of the old-time sanitary pad. Physicians urge it. Women's doctors have adopted it. Hygienic authorities employ it. And your own peace of mind demands it. For it offers charm and immaculacy under any and all circumstances. The name is Kotex . . . a method scientifically right. It absorbs 5 times the moisture of the ordinary cotton pad. And that means great protection. It is as easily disposed of as a piece of tissue—that ends an old-time embarrassment. It is deodorized. And that prevents danger of offense. You can get it at any drug or department store, just by saying "Kotex." And that banishes the embarrassment of asking for a "sanitary pad." Eight in every ten women in the better walks of life have adopted it. Which proves its benefits. It will mean much to you in health, in daintiness and protection. It proves old ways a needless folly.

- 1 Protection: 5 times as absorbent as cotton pads. Absorbs 5 times its own weight in moisture—and scientifically deodorized.
- 2 No laundry. Discard as easily as a piece of tissue.
- 3 Easy to buy, anywhere. You ask for them by name. Many stores keep them ready-wrapped — ship yourself, wrap the sheet, this is all.
