

UNEMPLOYMENT IN ENGLAND IS NEARING CRISIS

London, June 25.—(By Associated Press)—The prolonged trade depression and consequent steadily mounting unemployment in Great Britain which have long been subjects of grave concern, now have reached a point where a crisis is foreseen.

The situation came to a head yesterday with the closing of a joint inquiry by the operators and miners representatives into the position of the coal industry.

The owners announced that they would give formal notice on June 30 of their intention to terminate the present wage agreement.

The miners' executive committee is in meeting today to discuss the situation.

Concurrently with the mining trouble there is serious unrest among the railway men, who are at odds with the companies regarding wages and working conditions.

Meanwhile the labor party is determined to press the government to do something to relieve the acute industrial situation, and it has given notice of a vote of censure against the administration for having failed to take such steps.

The developments of the next few days are expected to be important.

SAYS READERS OF COMICS HEALTHY

New York, June 25.—(A. P.)—Read the newspaper comic sections cultivate a taste for good stories and look on the humorous side of life if you would be healthy, was the advice given today by Dr. Frederick W. Seward, neurologist of Geneva, N. Y., at the eighty-first annual convention of the American Institute of

Psychology. "People whose lives are easily aroused, who fly into rage on the slightest provocation are candidates for nerve exhaustion and brain lag," Dr. Seward said. "I have neuroathetics to look for the funny side of life. The liberal sprinkling of our newspapers with comic strips is a decidedly beneficial thing from a health standpoint."

A Jantzen puts the joy in swimming!

OUT in the coolest spot you know—find the fun of swimming this Fourth-of-July in the complete comfort of a Jantzen Swimming Suit!

Jantzen has literally taken the country by storm! Designed and patented but seven years ago by Carl Jantzen, expert Pacific Coast swimmer, the suit is now the largest seller wherever people swim! In 1918, Jantzen saw a nation paddling around the edges. Baggy skirts impeded swimming. Fabrics stretched and sagged.

Today the newer freedom of the Jantzen is the choice of millions. Along the Maine resorts, Narragansett, Long Island, Atlantic City, Florida, the Great Lakes, Galveston—up and down the Pacific Coast, and at Honolulu, Jantzen wearers are in the majority!

Jantzen-stitch is elastic—no other knit fabric like it! Modest—fits the body perfectly, wet or dry. The non-rip crotch and bow-trunk pattern are exclusive—patented. Jantzen made the first suit with a non-breakable rubber button. The suit is warm and long-wearing—woven from 100% long-fibre, pure worsted wool. Jantzen originated "fit-by-weight," insuring perfect fit—easily!

This coming week is National Jantzen Week. See our Jantzens for men, women, and children. See the new "speed suit." Compare a Jantzen with any other suit. Buy one—and you'll know why it's called "The suit that changed bathing to swimming."
