OWNERS OF DOGS ARE CAUTIONED TO PAY LICENSE

Some thousand owners of dogs in Marion county will incur the penalty of the law unless license fees are paid within the next two months for it will be extremely difficult to escape payment of the fee this year, it was pointed out today by County Clerk Boyer and Sheriff Boyer who are charged with the administration of the new law. Under the revised code operative August 1 the amount of the fee is doubled for those who must purchase licenses after that date with the possible addition of a fine of \$10 for late payment. To date 1813 licenses have been issued in the county this year, compared with 2681 licenses issued last year. Boyer declared this morning. The danger to delinquent payers of the tax this year lies in the fact that deputies from the assessor's office have a complete list of all dog owners in the county which after August 1 will be compared with the list of those who have paid the required fee. Those who have not paid will then be required to explain their delinquency in court where the law permits the imposition of a fine in addition to payment of the fee. Until August 1 licenses can be purchased for male dogs and spade females for \$1. and for other females for \$2. After August 1 the amount of each type of license will be doubled. The law further provides that during January and February of 1925 the licenses shall be granted for fees of one and two dollars and that after March first they shall again be doubled. William H. Lytle, state veterinarian, today requested by letter from all county clerks a statement of the licenses that had been issued by them this year for records which will be maintained in his office. Edward is the name given the son born on June 11 to Mr. and Mrs. Albert Jacob Hiltner, who live on a farm on route 4, Salem.
