

### AMERICANS ARE TO BE PRESENTED AT COURT TODAY

London, June 26.—(A. P.)—Fourth and last court of the season at Buckingham palace tonight will lack nothing of the splendor of the earlier ceremonials.

Among those to make their bow before King George and Queen Mary are eight American debutantes and matrons.

The weather still is chilly and furs again will be necessary tonight to keep the thinly clad presentees warm while waiting for admission.

The ceremony begins at 9:30 o'clock. The Americans to be presented by Mrs. Alanson B. Houghton, wife of the American ambassador, are:

Miss Louise A. Boyd of San Francisco, Mrs. William Grant of Denver, Mrs. George DeBonneville Keim of Philadelphia, Mrs. Frank Mcbane of Spry, N. C., Mrs. Claude A. Swanson of Washington and Richmond, Va., Mrs. Elliot Wadsworth of Washington and Boston and Mrs. Horace Lee Washington, wife of the consul general in Washington.

One thousand guests attended last night's court. King George wore the informal blue uniform of the royal house guards and Queen Mary a gown of pure gold brocade with a pale blue train.

### ROSEBURG YOUTH DROWNS

Roseburg, Or., June 26.—Arthur Dillon, age 19, was drowned at Dillon last night while swimming in the South Umpqua river. Dillon went into the water a few minutes after eating a hearty meal and was swimming across the stream carrying little Jack Noyes on his back. Dillon was an expert swimmer, but suddenly sank out of sight, without an outcry, and did not appear again. The youngster who was being taken across the stream, fled out and attracted help and was going down for the third time when he was rescued by George Peterson. Peterson also raised the body of Dillon after it had been in the water for about twenty minutes. Resuscitation was attempted but nothing could be done.

### ESCAPED CONVICT CAUGHT

Tacoma, Wash., June 26.—Morton Hansen, escaped McNeil island convict, was captured late last night by Guard Pangen in the basement of the John Holmes ranch house near the prison, where he had gone for food. Hansen's capture resulted from clues picked up by prison officials when they found several jars of jam in a machine shop on the prison grounds identified as that stolen from the farm home. Hansen made his escape Tuesday while at work at the prison.

### 134 PEARL NECKLACE WORTH \$36,800 FOUND

Paris, June 26.—(A. P.)—A necklace of 134 pearls, valued by experts at \$36,800 francs (about \$36,800) was found in the street last night and promptly handed in to the police by the finder. French law provides that the finder in such cases becomes the legal owner if the object is unclaimed for a year and a day.

### MITCHELL GETS FEDERAL JOB ON SALMON SURVEY

Portland, June 26.—Hugh C. Mitchell, removed last week as director of hatcheries of the state fish commission, admitted because he refused to play politics, was yesterday named to head an extensive investigation of the salmon industry in the Columbia river for the United States bureau of fisheries.

The investigation was expected by fish men to be the most extensive ever attempted in the Pacific northwest and directly occasioned by the reduced spawning areas for salmon. The federal bureau of fisheries had been angling for Mitchell's services for some time and when the removal action was taken by the governor's appointees last Saturday, Henry O'Malley, United States commissioner of fisheries, came to Portland.

Mr. O'Malley said here yesterday that he regarded Mr. Mitchell as one of the leading salmon experts in the United States.

It is understood that the change will mean an advance in salary for the ousted state official. Mr. Mitchell will not assume his work with the United States bureau of fisheries until the end of the 60 day leave of absence which was granted him by the state fish commission at the time of his ejection. Mr. O'Malley, in completing the plans for the survey, yesterday called a conference which was attended by Mr. Mitchell, Frank M. Warren and Fred P. Kendall, former chairman of the state fish commission.

Both Mr. Kendall and Mr. Warren urged the survey of the salmon resources of the Columbia river and held it to be a fortunate break of circumstances that Mr. Mitchell could be obtained to head the research.

It was agreed that the fishing industry in the Columbia river was facing a crisis, due to the development of the industries, the power facilities and the irrigation projects. It was further agreed that the only way to save the fishing industry was to prepare an adequate survey of the whole situation, with a view to deciding which streams should be used for power and irrigation, development and which should be used for fish propagation.

### AUTHORITIES ON EVOLUTION WILL TESTIFY IN CASE

Dayton, Tenn., June 26.—A list of scholars and authors, known for their research and writings on natural sciences and evolution, who have agreed to attend as witnesses and advisers when the Tennessee law against teaching evolution in state schools gets its test in court July 10, was made public last night by Dudley Field Malone, New York lawyer, who is associated with counsel for the defense of John Scopes, school teacher.

Mr. Malone appointed to select the expert for the defense's case, announced today that the names of other scientific witnesses would be added to the list and published later. The following experts, he said have already signified their willingness to serve as witnesses:

Dr. Henry Fairfield Osborne, research professor of zoology, Columbia university; Dr. Edward Grant Conklin, professor of biology, Princeton university; Michael Pupin, professor of electro-mechanics, Columbia university; Kirkley F. Mather, chief of the department of biology, Harvard university; Professor L. F. Bettger, biologist, Yale university; Maynard M. Metcalf, professor of zoology, Oberlin university; Arthur M. Miller, professor of geology, University of Kentucky; Henry F. Higgins Lane, professor of zoology, University of Kansas; Dr. Edward L. Rice, professor of biology

### THUNDER BOLT KNOCKS CROSS FROM CHURCH

New York, June 26.—Great New York was recovering today from the effects of a severe thunderstorm.

A bolt knocked an arm from the cross top one of the two majestic spires of St. Patrick's cathedral, while 400 persons were inside. Fragments of the 200-pound marble arm showered the street but no one was injured.

A five-ton granite ball was knocked from a tower of the American Museum of Natural History by another bolt. The ball tore a hole in the roof, shattered windows and ripped up 25 feet of stone wall along a drive way.

Lightning hit the North Hudson hospital and Emmanuel Evangelical church in Union City, N. J. Fifty patients were thrown into a panic and a hole four feet long was torn in the tower of the church.
