COOLIDGE WILL SPEND TODAY IN BOSTON HAUNTS

Swampscott, Mass., June 27.—(By Associated Press)—A jaunt into his old stamping grounds about Boston was the program outlined for today by President Coolidge.

After an early start by motor from Whitecourt he and Mrs. Coolidge plotted their course along the shore line toward the capital and Cambridge.

The president planned a quiet week end, in keeping with his stay here so far. There is a possibility that Mr. and Mrs. Coolidge will go for a short cruise tomorrow on the Mayflower, attending services on the yacht as they often do while in Washington.

His opinion, as outlined at Whitecourt is that many plans proposed abroad are simply left handed efforts to get the United States to pay reparations.

Vice-President Dawes visited Whitecourt yesterday.

CANADIANS BUY TWO FARMS NEAR SILVERTON

Mr. and Mrs. Frank A. Holland of Swift Current, Canada, who recently purchased the John E. Berg place about five miles west of Silverton have resolved this place to their son-in-law, R. R. Aubrey, also from the same place in Canada.

Mr. and Mrs. Holland have just closed a deal for 25 acres out of the Mike C. Thompson place west of Silverton. The Aubrey family have already taken possession of the Berg place and the Hollands will establish their home on the Thompson place this fall.

The transaction was made through the Lutheran Home-seekers Agency at Silverton.

Roquefort Factory At Falls City to Be Opened Tomorrow

Falls City, June 27.—Tomorrow Teal and Branson will hold their "grand opening" of the Roquefort cheese factory.

This cheese is made from goats' milk and is first made the same as ordinary cheese. Just before placing it into the curing it is inoculated with a "culture" and placed into moulds holding from four to five pounds each, which have several wires through them which permit the air to circulate through, thus producing the growth of the green mold.

After they are moulded they are placed into the salt room, where they are salted three different times. Then they are taken to the curing or "ripening" room for about 60 days. This ripening process produces a peculiar form of fermented cheese characterized by green streaks through and having a peculiar "ripe and nutty" flavor which is so highly prized.

The ripening process demands a peculiar condition of moisture, temperature and water, which exists in natural state in caves in southern France.

The fact that 60,000,000 pounds of Roquefort cheese was annually imported into the United States made the Falls City goat breeders take up with the federal department of agriculture, the problem of making Roquefort cheese at Falls City. The department responded at once and sent a man from Washington, D. C., to instruct and assist in starting the industry.

France believes she has a world monopoly on the making of this cheese.

AMERICAN WINS IN BRITISH PLAY

London, June 27.—(By Associated Press)—Long Jim Barnes, American professional golfer, was bound for his old home in Cornwall today to receive congratulations of his mother as newly crowned champion of Great Britain.

He finished the gruelling competition at Prestwick, Scotland yesterday with two rounds of 79-74, which added to Thursday's 79-77 gave him an even 300, or one stroke below the two Britishers on his heels, the veteran Ted Ray and the rising star Archie Compston.

MacDonald Smith, the American who had been favored for the title after his record of 69 of Thursday afternoon broke wide open in the last 18 holes and took a bad 82 to finish third with 303.

Joe Kirkwood, the third invading American, managed to land among the first ten with 314 by doing two 78's after his poor start of 162 for the first two rounds Thursday.

The British golf experts seeming to be impressed more by the fact that Smith lost than that Barnes won. Smith was the favorite and his collapse yesterday is termed as one of the most astonishing ever seen in any open championship.

YOUTH ADMITS KIDNAPING AND RANSOM SCHEME

San Francisco, Cal., June 27.—Bliss Baker, 24, a senior student at the University of California, told his mother, when she called on him at the city prison last night that he was responsible for the attempt made yesterday to obtain \$50,000 from Daniel C. Jackling, mining magnate, under the threat that Mrs. Jackling had been kidnaped from her suite at the Hotel St. Francis, police announced today.

The demand for \$50,000 was received at Jackling's offices here yesterday after Mrs. Jackling had been called by telephone and told that her sister, Mrs. Rudolph Spreckles, had been seriously injured in an accident in San Mateo county.

Jackling notified the police when the demand was received. Mrs. Jackling telephoned to her husband when she arrived at the Mills hospital in San Mateo and learned her sister was not injured and Baker was arrested with a taxicab driver near Millbrae, at the point where the ransom money was to be delivered by Jackling. The taxicab driver was held for a time and released.

After his arrest Baker said he had received his order to participate in the plot from a mysterious Chinese, but later he said the entire scheme had been concocted by himself and a book agent pal whose name he gave as George Heeman.

The police are searching for Heeman today. Heeman, Baker said, cut the telephone wires to the Spreckles' home in Pittsburg as part of the plot.

"Heeman and I had been studying criminology together," Baker told the police. "We followed every step of the Loeb-Leopold case in Chicago. It was our ambition to plan and execute a more perfect crime than theirs and when Heeman suggested on Wednesday that we put our study into execution I readily assented."

New York, June 27.—A Swampscott dispatch to the New York Times today says that friends of President Coolidge have pledged \$125,000 to buy White court for him.

Informed of their plans, the president, the dispatch says, remarked "I might not like it."

In case the president does not accept the gift, the dispatch continues, it is probable that he will not oppose congress making an appropriation for a summer White House.

Falls City, June 27.—W. B. McKown, superintendent of the water department, reported this morning that the water supply in the city reservoir is as low as it usually gets in the latter part of July or first of August and urges that all water users be as conservative as possible.

CAPTAIN SJURDUR K. GUDMUNDSON

—life in Far-Off Siberia Pictured by Lecturer at Chautauqua.

Capt. S. K. Gudmundson, the daring master of the Polar Bear, which after delivery of supplies had been made to the starving villagers on the northeastern coast of Siberia, was seized by the Soviet government, "faced the lion in its den" by going to Yakutsk, seat of the Bolshevik council, and demanding his rights as an American citizen. Going to Yakutsk involved a trip of 2,500 miles through the wilds of Siberia in midwinter, passing through the coldest portion of the globe where the thermometer registered 96 degrees below zero. The trip was made by reindeer and

dog sled, on horseback and on foot, and involved nine months of travel through sections almost unknown geographically. The intrepid sea captain and his sole companion faced almost certain death by refusing to disarm when brought before the Soviet government, but through courage and clever persistence of mind, they finally won out and returned to the coast with release orders for the Polar Bear and cargo. Eventually he had to repair an abandoned vessel in which to return to America, his own being crushed by the ice. Captain Gudmundson's recital of this experience has proved sensational to those who have heard it. He will don the fur he wore on this memorable trip after his lecture and give the audience opportunity to "examine a Siberian outfit."
