

WALKER TO SEEK NICHE IN FISTIC HALLS OF FAME

New York, July 1.—Mickey Walker tomorrow night will make his second attempt to enter the small circle of great boxers who have ruled two divisions.

Against Mike McTigue, former light heavyweight king, in a fight at Newark, N. J., Walker, the welterweight champion, failed in his initial effort last winter because the New Jersey boxing law forbids decisions. He was given an unanimous newspaper verdict, but a knockout was required to add the second title to his list. In his second attempt, Walker will aim at the middleweight title of Harry Greb tomorrow night at the Polo Grounds in one of two fifteen round bouts featuring the card at the Italian hospital fund. This time there will be judges for a decision and the title can pass on points.

Greb and Walker took their last strenuous workouts, the former at a New York gym, the latter at his camp in Summit, N. J. A half mile from Walker's camp, Charley Welbert went thru his paces for fifteen rounds with Harry Wills, negro heavyweight.

Jim Slattery of Buffalo, N. Y., who meets Dave Shade in a six round bout, is expected here today after having conditions for the fight in his home city. Shade is already on the scene, as are Jack Sharkey and Joe Lynch, rival bantams of many years, who lock in the opening four rounds of the show.

COOLIDGE BACK AT DESK AGAIN

Swampscott, Mass., July 1.—(A. P.)—Again at the summer White House here, President Coolidge today resumed the vacation routine interrupted by his hurried departure for the bedside of his father in Plymouth, Vt.

Considerable business was laid before him by Secretary Smails, who remained on duty at the executive office in Lynn during his absence. The executives next important engagement is for an address Friday in Cambridge at the celebration of the 15th anniversary of Washington's taking over command of the Continental army.

It is improbable that the president will accept any invitation to leave the seclusion of Whitecourt until it has been established even more definitely that his aged father is in no danger of a relapse. On his second cross-country trip the president encountered all the inconveniences of an ordinary tourist. One of the president's limousines was held up at a toll bridge near Charleston, N. H., by a stern woman gate tender who demanded 15 cents. It was supplied by a secret service man.

In Lowell, a brusque policeman rebuked the president's chauffeur for stopping at a street intersection while he was figuring out which way to go.

The president and Mrs. Coolidge stopped for lunch at the village of Gilsum, hurried eating sandwiches and drinking a cup of coffee in an unpretentious room across the hall from a soft drink parlor.

NORTHWEST INDIANS ADORN OLD GRAVES

Tacoma, Wash.—Graded, lawned and decorated with suitable monuments, the old Indian cemetery adjoining the Cushman veterans' hospital here has been completely transformed through the efforts of local Indians, assisted by a government appropriation.

The cemetery contains the remains of some of the leading Indians of the northwest, and about 2000 aborigines have been buried there since it was established in 1853.

GIRLS FROM ENGLAND FIND CANADIAN HOMES

Winnipeg, Man.—The domestic servant problem in Winnipeg has been materially relieved by the arrival of a batch of British girls, included among the large quota of settlers reaching here during the past few weeks.

While the majority of these domestics have remained in this city, a number have proceeded to different points in the west. The girls were brought to Canada under the auspices of the Salvation Army.

BELGIAN FAMILY IS HUGE

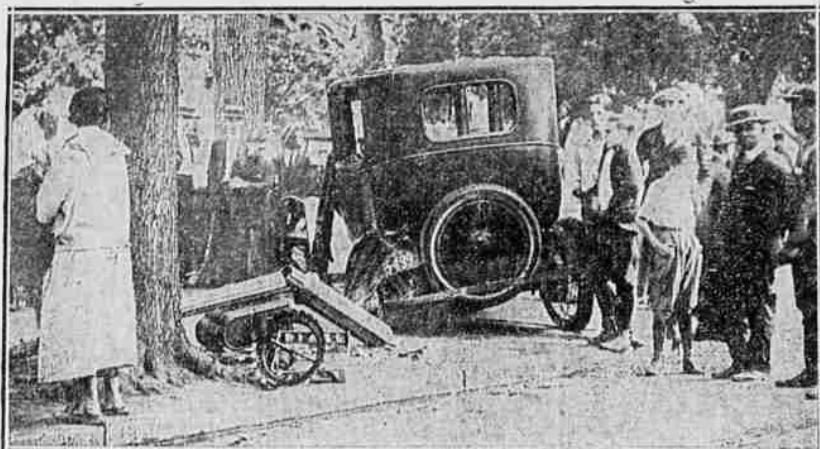

Wuest-Herck, Belgium.—Large families are the rule in this province of Belgium, but local records were broken at the recent funeral of Hendrik van Michelen. He was followed to his last resting place by 14 children, 108 grandchildren and 150 great grandchildren, a total of 272 descendants.

YMCA BUILDS IN MANILA

Manila, P. I.—Construction of a re-enforced concrete building for the army and navy Y. M. C. A. has just been started here. The building, which is to be four stories high, will cost about \$200,000. It is located in the old walled city and will have sleeping accommodations for 600 men.

Under the blue sky act a permit was issued to the Major Fruit Products company of Portland to sell stock in the sum of \$45,000.

Bootlegger's Car Kills Nun

Fleeing pursuing police, an automobile driven by a Washington, D. C. liquor seller crashed into the sedan occupied by Sister of Charity Cephas and her companion on a shopping tour for a hospital. She was killed. The remains of the sedan are shown above.

CONGRESS RACE WON BY WOMAN

Lowell, Mass., July 1.—(AP)—New England has elected its first congresswoman, Mrs. Edith Nourse Rogers, republican, by a vote of more than 2 to 1, she receiving 22,364 votes in the special fifth congressional election, to 9,251 for her democratic opponent, former Governor and former representative, Eugene Foss of Boston, once a candidate for the democratic presidential nomination.

Mrs. Rogers succeeds her husband, John Jacob Rogers who died last March after making a distinguished record. She received a large proportion of the total vote than her husband did last November. Mrs. Rogers was born in Saco, Maine, 49 years ago, the daughter of Franklin Nourse, manufacturer and capitalist. She married John Jacob Rogers in 1907, helped him in his law practice and when he became a congressman, threw her-

self into the life of Washington as his helper.

It was Mrs. Rogers' war service that endeared her to her husband's constituency. She visited the sick and wounded soldiers and was appointed by President Harding to visit and inspect the soldiers' hospitals in this country and France. Mrs. Rogers is the sixth woman to be elected to congress.

ROCKEFELLERS RAISED ON SPANKINGS, CLAIM

New York, July 1.—Spanking has been an institution in the Rockefeller family for generations the World says today in a series of interviews with prominent men on their childhood discipline.

John D. Rockefeller Sr., an old friend of the family relates, felt the paternal palm with considerable frequency. John D. Jr., not only fell heir to his father's training but received also the expert ministrations of his grandfather. Neither feels himself the worse for the experience but neither attributes his success in life to the fact that he was spanked.

The Coffee Percolator and Table Stove we are giving with the AUTOMATIC Washer during our Easy Term Sale will cost their regular prices after Tuesday. Be sure that you order your Automatic before Tuesday.

Does 25 Washings a Week

One washwoman wrote the manufacturers she had done 1296 washings for others in one year with her Automatic Washer—the equivalent of more than 25 years average family service. No wonder so many thoughtful women select the AUTOMATIC—"The Copper Washer With a Golden Value."

The time is short—come in and see this washer demonstrated.
