## OFFICERS WILL ESCORT ELKS ON TRIP THRU STATE

Two automobile caravans of California Elks, en route to the national convention in Portland, will be escorted through the state by the state traffic department during the week-end, Chief State Traffic Inspector T. A. Rafferty announced today.

A caravan of 25 or 30 cars of Eureka and Crescent City Elks, traveling over the Redwood Highway, is due at the state line Saturday noon where they will be met by officers of the state traffic department.

A Bakerfield caravan of 35 cars, traveling over the Pacific Highway, is due at the southern Oregon state line at 4 o'clock Saturday afternoon.

Chief Rafferty will attempt to bring the two caravans together at Grants Pass so they may travel together the remainder of the trip to Portland.

While traveling in California the caravans will be escorted by the California traffic department. They are expected to reach Salem late Sunday.

## FOREIGNERS IN CANTON UNEASY REPORTS STATE

Canton, July 8—(AP)—Increased military activity in Canton is adding to the tension already felt by foreign residents in their concession, Shamen.

One Chinese is reported today to have boasted that he is able to capture Shamen in spite of the fortifications which have made the low lying sand islet, separated from Canton proper by a narrow strip of water, a military camp.

The general was said to have been ready to lose 1000 soldiers in three minutes under his plan to capture Shamen. He was quoted as taking into consideration the aid the Shamen defenders would receive from foreign gunboats in port.

Airplanes daily encircle the concession, with the apparent purpose of spotting its fortifications.

Up to the present, an intermittent steamer service between Shamen and Hongkong has been maintained, despite the strike of Chinese workers. Strike leaders here announced today, however, that after July 15 (next Wednesday) they would stop all river steamers arriving.

The date was set for the fifteenth because by that date all Chinese strikers will have been evacuated from Hongkong. The strike of Chinese workers in the British crown colony has resulted in many Chinese from there coming to Canton, at the rate of about 4000 daily, food and lodging being provided them here by a strikers committee.

## HEIRESS PEEVED AT FROCK DUPLICATION

New York, July 9—Miss Consuelo Vanderbilt is perturbed because her exclusive Parisian frock was duplicated and sold in New York before she returned from Paris. Bouncing down the gang-plank of the liner Olympic yesterday, Miss Vanderbilt, wearing a frock of black and yellow printed silk ran into the arms of a girl friend.

They kissed many times, then Miss Vanderbilt noticed that her friend's dress was identically the same as her own.

"Her frock is the same as mine," she said to her mother, Mrs. William K. Vanderbilt. "They told me in Paris that mine was the only one of its kind." Mrs. Vanderbilt smiled and said it couldn't be helped.

her 3-year-old daughter and injuring six other persons.

Later police were informed that Lois Halgren, 11, of Watertown, Minn., had gone with Mrs. Miller to the lake and had not been seen since.

Among the several smaller buildings destroyed by the wind was the drug store near Lake Harriet operated by Charles R. Flester, 45. Although Flester escaped, he collapsed outside and died of heart disease a few minutes later.

The fourth person killed was Willard J. Ford, 30, who was hurled 50 feet from the cab of a traveling crane.

## Five Hurt In Iowa

Des Moines, Iowa, July 9—Five persons were injured in Iowa by a storm that swept across the northwestern part of the state last night, destroying crops in scattered areas and wrecking a number of farm buildings.

The homes of two American families near Lakota were destroyed, five of the occupants sustaining broken limbs. All the injured were Mexican beet field workers.

Silos and farm buildings were wrecked near Cherokee, where hail caused heavy crop losses, reports here said.

Four and one half inches of rain fell at Fort Dodge. Street cars and the electric plant were put out of commission at Sioux City and some wind damage was reported at Whiting.

## HARVEST HANDS ARE JAILED FOR SEIZING TRAIN

LaMar, Colo., July 9.—Sixteen harvest field workers out of forty or more who yesterday seized a Santa Fe freight train near Syracuse, Kansas, overpowered the crew and ran it to LaMar only to be met and routed by an armed posse, waited in the county jail here today to learn what the cost of the adventure would be.

The harvest workers attacked the train east of Syracuse, brandishing guns and clubs as they boarded it. The conductor, however, dropped a note as the train ran slowly through town, with the result that word was sent here and a posse was formed by sheriffs.

The harvesters showed fight on sighting the posse but broke and fled when scores of shots were fired over their heads. Sixteen of the fleeing men were captured in the roundup. There were no casualties. Charges had not been filed against the 16 early today.

It takes more than lumber, cement, stone, brick, and money to build a city. The driving force which accomplishes results in the way of community development is the vision of local citizens which enables them to see opportunities, and the confidence, energy and courage to take advantage of them. It takes brains and ideas to put the money to work.

## Blazing the Trail

A common failing of man is to move from place to place on the theory that a change is all that is necessary to better his condition. The progress of civilization is the history of a long series of migrations, of men seeking the land of their heart's desire. This restless spirit seems to have been necessary to world development but the wanderer seldom did more than blaze the trail. It was the men who followed after him and who saw the opportunities offered by different localities, who brought agricultural and industrial growth and made the "blazed trail" a fit place to live. If a community is a good place to live in, it is a good place with which to become permanently identified.

## A Good Place to Live

Daily the advantages of Salem and surrounding country are impressing strangers. How much more should those who have lived here for years be able to see local opportunities.

Within our city are many attractive spaces awaiting the home builder and many advantages locations for factories. We can build Salem into a city of unrivaled attractions and business stability providing we have confidence in our own local resources and use our brains and energy to put capital to work developing them.

## Scratch the Moss Off Your Back

It is the town which goes ahead and does things that draws people to it. No one praises or follows a loser, but human nature loves to compliment and follow a leader. Adopt a constructive viewpoint, study the opportunities and advantages of this community. Scratch the moss off your back, put your shoulder to the wheel of progress and help make Salem a city.
