WORLD PEACE IS TOPIC TONIGHT AT CHAUTAUQUA

Dr. (Rev.) George Fallis, who will deliver his celebrated lecture on "The Problem of World Peace" before Chautauqua patrons this evening, is well equipped with first hand knowledge of international conditions and affairs, particularly with European conditions. He has long been a keen and analytical student of world problems and is considered one of the most forceful and rational speakers on this question which is paramount with all nations.

Dr. Fallis was a chaplain in the world war who did more than hold religious services. He went into the trenches, made the acquaintance of soldiers of all nationalities, dug under their skins and into their consciences, studied temperaments. He knows the mental attitude of many races, and he understands what they want and how they will react to certain conditions.

Lecturing for the Canadian government after being invalided, he rapidly climbed to an enviable position among the most able speakers of the platform. He has been included in programs with such celebrities as Lloyd George, Sir Auckland Geddes and others. He is liked by the public because he is logical, puts his message over in an understandable manner, and has no impossible theories.
