

OREGON WHEAT, OAT AND POTATO CROPS OVER 1924

Portland, July 10.—The Oregon crop of all wheat gives promise of about 18,000,000 bushels, according to F. L. Kent, Oregon statistician for the department of agriculture. Dry weather in June affected the crop in some localities and cut down the yield. Kent estimates the oat crop at 2,500,000 bushels as compared to 2,500,000 bushels last year; and a probable potato production of 4,950,000 bushels as compared to an Oregon crop of 3,700,000 bushels last year. As high as 16 cents was paid for fancy country dressed calves along the street yesterday afternoon, although 14 1/2 to 15 cents is the ruling price on choice light veal. Receipts have been unusual by light this week and butchers are willing to pay a premium for real fancy stuff. Choice light hogs are also scarce and the market firm at 19 to 19 1/2 cents.

Poultry demand is unusually brisk with daily arrivals moving out promptly. Heavy hens are at 23 and 24 cents with light hens at 16 to 18 cents. Springs sell from 19 to 25 cents, the higher figure prevailing on colored stock. Ducks steady at 20 cents.

Eggs are lower with extras off another cent on the exchange at 36 cents. Current receipts eased off a half, now being posted at 32 1/2 cents net. Other grades are unchanged.

Cube butter prices declined on the exchange. Standards are down to 45 cents with prime firsts at 43 1/2 cents. Demand is still good, however, for top score stock. Cream receipts show slight gain.
