## FIGHT BETWEEN GIRLS ENLIVENS EVENTS IN PARK

Silverton, July 14.—Spectators at the swimming pool at Silverton were enabled to witness entertainment out of the ordinary Friday and Saturday nights. While in swimming Friday night one small girl is said to have "ducked" another who resented the treatment very much. Words followed and bigger sisters took a hand in the matter. Verbal blows led to physical contact and much slapping and hair-pulling ensued. The battle, which lasted nearly an hour, was finally terminated in the dressing-room and peace restored. It was the first time that many of those present had seen women actually fighting.

Two men, supposedly prohibition officers, provided a new sensation for a number of boys following a late swim Saturday night. As the six boys entered their car to leave the park they were halted by two men who ordered them to leave the car. As each boy stepped to the ground he was searched as was also the car. The most suspicious-looking object which rewarded the search was a small jug of syrup which had been purchased by one of the boys a short time before. The men carried their stars in their hands and used flash lights with which to exhibit their stars. Upon the completion of the search they complimented the boys upon their behavior and gave them permission to go.

## Residents of Toledo Determined to Keep Japanese Labor Out

Any honorable means to keep Japanese and other Oriental labor out of Lincoln county and to keep the county, the schools and the homes white is the object of the Lincoln County Protective League, whose representatives yesterday placed before Governor Pierce the facts relative to the deportation of about 40 Japanese from Toledo, Sunday.

The Japanese were not roughly handled, declared the committee, nor were they escorted to a boat outside the city and told to shift for themselves. On the other hand of the city extended over a period of about four hours. Assistance was given them in packing up. A total of about \$120 in money was given them through a collection taken among citizens and white laborers of the community and Chief of Police Schenck furnished money to pay for the trucks that carried them to the spot at Corvallis. The Japanese themselves, said the committee, caught the point of view of the league members, admitted that they had come to Toledo under a misapprehension and at their departure shook hands with the people who asked them to leave.

The delegation admitted to the governor that there was a fight with representatives of the Pacific Spruce corporation when the latter two who had been deputized by the sheriff, leveled guns at the league members. No shots were fired. The guns were seized and thrown into the bay, and in fist fighting that followed the mill representatives were bested.

Governor Pierce listened in silence. "I haven't said anything," he said at the conclusion of the conference, "because I can't afford to realize the gravity of the situation, but I must not be quoted."

On Sunday the governor dispatched his secretary, W. A. Ditzell, and State Labor Commissioner C. H. Gram to Toledo to sift the situation. When they report he may have a statement to make.

Mrs. Rosemary Schenck, wife of the police chief, was spokesman for the party. Other members of the party were Mr. and Mrs. L. H. Peterson, C. Brekke, Miss Verne Ross and Mrs. Alice Wainch. E. J. Stack of Portland, secretary of the State Federation of Labor, and C. N. Ryerson, editor of the Portland Labor Press, accompanied them, but Mr. Ryerson did not participate in the conference.

Miss Ross and others pointed to the fact that the Pacific Spruce corporation pays no taxes through the legislature but where the government has title to the property, a fact, she explained, which increases the tax burden of the people.

Mrs. Rosemary Schenck, wife of the police chief, was spokesman for the party. Other members of the party were Mr. and Mrs. L. H. Peterson, C. Brekke, Miss Verne Ross and Mrs. Alice Wainch. E. J. Stack of Portland, secretary of the State Federation of Labor, and C. N. Ryerson, editor of the Portland Labor Press, accompanied them, but Mr. Ryerson did not participate in the conference.

"This was done," declared Stack, "because Johnson contributes about \$2400 a year to the land settlement fund of the state chamber. The corporation mill wants to use Japanese labor because it has a trade in airplane stock with the Japanese government. I am not saying there will be war between the United States and Japan, but if there is these white men who are not allowed to work in the mill at Toledo will be drafted to fight the Japanese."

Mr. Brekke, another member of the party, said he was "frad" by the mill operators because he had

to a poultry raiser at Gates, Ore. 12 cockerals that were nine weeks old, and they were larger than some seen at Albany that were four months old. They keep 1200 pullets for themselves and their hens certainly live up to their ranch name of Everlay for right now they ship 11 cases per week and Mr. Dorman says Falls City certainly has ideal conditions for poultry raisers.

More and more smokers are doing the same thing. We wonder if you know this about Life Savers, those little candy mints with the hole; how they freshen your mouth between smokes, soothe your nerves and make the next smoke taste so much better.
