

CHILDREN TO BE ENTERTAINED AT CHAUTAUQUA

On Margaret Byers & company has taken the distinction of being selected to entertain the Chautauqua Juniors tomorrow afternoon.

Very careful consideration is given the matter of children's day program by the Edison-White Chautauqua service. The organization feels that in addition to being thoroughly entertained, the children must have a program that will leave a desirable effect on their impressionable minds. In charming little Margaret Byers and her able support, they have found natural, wholesome entertainment such as any and all parents will want their children to enjoy.

If people are as young as they look, act and feel, then win some Margaret is a real child herself. Children are keen critics, quick to detect imitations, but Margaret Byers invariably puts her juvenile character over so successfully that the children accept her as one of them and are delighted with her singing, dancing and acting. She is equally good in girl or boy parts, a natural born comedian, and knows how to tell stories that bring hoofs of glee from the junior audience.

The children's day program will be given in the afternoon, preceding the "Daddy's Long Legs" evening production, so that those who can see both programs will have a Chautauqua day long to be remembered.

Moroccan Envoy

SI KADOUR BEN-GHABUT

His Excellency Si Kadour Ben-Ghabut, named Minister Plenipotentiary from Morocco to France, hoped to exert influence to bring about cessation of hostilities between Rifis and French.

NINE FIRES AT CRATER LAKE; FOUR MORE NEARBY

Medford, Or., July 14.—Thirteen forest fires, nine in Crater national park and four in state timber, are burning in Jackson county today, according to a report from the local United States forest service. Although one of the fires, in the Evans creek district, covers 100 acres, none is regarded as serious and it is expected they will soon be under control. All the fires, it is believed, were started by lightning accompanying a thunder storm Saturday night.

ACHES AND PAINS ALL OVER BODY

Mrs. Proctor Reports Great Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Sharpsburg, Pa.—"I recommend Lydia E. Pinkham's Vegetable Compound to all suffering women. I have taken four bottles of it and I feel 100 per cent better. I was dizzy and weak with no appetite, no ambition and with a tired feeling all the time. I had aches and pains all over my body and had the headache a good deal. I saw your advertisement in the Pittsburgh Press and thought it might help me. I have been greatly benefited by its use and highly recommend it for all ailments of women." — Mrs. J. H. PROCTOR, Box 1, East Liberty Station, Pittsburgh, Pa.

Such letters prove the great merit of the Vegetable Compound. These women know by experience the benefit they have received. Their letters show a sincere desire to help other women suffering from like ailments. Let these experiences help you—now.

In a recent canvass of women purchasers, 98 out of every 100 report beneficial results by taking Lydia E. Pinkham's Vegetable Compound. Sold by druggists everywhere.

ican Falls irrigation dam on the Snake river here, was formally dedicated Monday. Secretary of the Interior Hubert Work was one of the distinguished visitors present. Idahoans attending numbered several thousand and they came from all sections of the state.

The new dam when completed will supply water for many thousands of acres of agricultural land.

Chief Tea Pobriko of the Hanock Indian tribe made an address in which he stressed the sacrifices being made by the Indians that the dam might be built.

Always Jells Well

Reprinted from the First Balloon Tire Announcements

"You ride on a cushion of air."
"Ruts and bumps are smoothed out."
"The car and its occupants are protected from jolts and jars."
"Shocks are absorbed before they reach axles and springs."
"On uneven roads where ordinary tires bounce, these flexible low-air pressure tires roll over the bumps, permitting better average speed."
"Save repairs."

Low-Air Pressure is the Answer

HERE is a list of balloon tire advantages taken from the first balloon tire announcements.

These were the things that car owners wanted. The things that made them demand balloon tires. Read them and then ask yourself how you can get them except in a tire that can be run at low enough air pressure to provide a soft air cushion between the car and the road.

Some car owners have been sold the balloon principle and then handed the name only.

Just a big, round, fat tire with the name "Balloon" on it will not necessarily give low-air pressure riding comfort.

The original ideal of the industry was a flexible side wall, low-pressure tire.

Yet today some "balloon" tires must be run at too high pressure for ideal cushioning, as they wear out too fast when they are run soft.

It is important to you as a car owner to remember this fact.

The United States Royal Balloon is spoken of as the "Balloon Tire Principle at its Best", because it can be run at low-air pressure without injury.

It is built of Latex-treated Web Cord which provides the necessary strength and flexibility.

It has the U.S. Low-Pressure Tread which wears slowly and evenly and eliminates early, uneven and unsightly wear.

Specify U. S. Royal Balloon Cords and be sure of true low-pressure cushioning.

WOMAN AND SON MAKE FALSE AFFIDAVIT IN HOMESTEAD PROOF CASE

Portland, Or., July 14.—Mary A. Cox and her son, Ray Moska, who own a cattle farm east of Herd in the Blue mountains have appeared before Federal Judge Bean and pleaded guilty to a charge of making false affidavit in presenting final proof on a homestead under the stock raising homestead law. A plea for leniency, made by Arthur D. Platt, was seconded by Deputy United States Attorney McGilchrist. The judge paroled her to report for a term of five years.

According to the attorney, Mrs. Cox was a widow and owned a homestead in Blue mountains. She took up the additional claim allowed by law, and when she came to prove up on the claim she swore that she had made certain improvements on the property required by law. Her son made affidavit that her statements were correct. Investigation disclosed that the improvements did not exist.

WEEK END DISASTROUS TO MANY; 47 DROWN

Chicago, July 14.—(A. P.)—Week end fatalities throughout the country in automobile accidents, bathing mishaps and other misfortunes of pleasure seekers mounted to nearly the hundred mark.

Forty seven deaths from drowning and twenty one in motor crashes were reported today from a score of states.

Six died of the heat, three perished in a train explosion, four were killed by lightning and one died in an airplane accident.

GUARANTEE HARVEST COSTS

The state board of control yesterday voted to guarantee to farmers in the frosty area of eastern and central Oregon harvest expenses not to exceed \$2.50 an acre. The money probably will be advanced by checks of the respective communities. The state, to insure repayment, will demand that it receive preferred consideration for its claims covering the loans. Indications are according to the board, that the farmers will repay every dollar of the loans previously made for the purchase of seed wheat under the relief act of the 1925 legislature.

GE Fans

Portia's Father Was Old-Fashioned

In the days of Shakespeare's famous heroine, buying and selling were contests of wits. In Venice, haggling and dickering were the vogue. Along the Rialto, sharp practice was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shrewd judge of values and one's fellows to escape trickery.

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary, for us to gamble when we buy. Commodities are identified for us by trade-marks. Manufacturers go to the advertising columns to tell us about their products. Merchants describe their merchandise—price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

Do you read the advertisements?
