

CANCER VIRUS DISCOVERERS GUARD SECRET

London, July 18.—(AP)—The immense popular interest in the cancer virus discovery has led to several attempts to induce Dr. William E. Gye and Dr. J. E. Bernard to add to their public statements, especially with reference to the bearing their researches may have on other diseases.

The two scientists have not refused to talk but have been extremely cautious, revealing nothing important and dealing only in general terms with the results of their labors. Dr. Gye told one interviewer that the work done thus far was only a basis on which to start but that it had opened big possibilities.

"This class of research," he said, "has reached a stage when it is bigger than a one-man job. We have data which will make teamwork possible in future experiments."

He added that he was in possession of a mass of information which he would submit to competent critics.

Some of the newspapers say they are experimenting in vaccination against cancer, and the Daily Sketch says they have prepared vaccines from virus which had been used to inoculate mice with the result that the animals become immune from cancer. Neither Dr. Gye nor Dr. Bernard has said anything confirmatory of this.

CHILDHOOD INCIDENTS HELD INFLUENCE ON MATURE LIFE

London, Eng.—The psychological origin of vegetarism often unconsciously takes place during childhood, it was explained recently by Dr. David Forsyth, a physician of note and former president of the Psycho-Neurological society in a lecture on "Diet and Psychology."

Illustrating how certain incidents take root in a child's mind and showed themselves in adult life with regard to taking food, Dr. Forsyth took as an example a child, who at an early age, had been frightened by a large collie dog. The dog ran after the child and barked and the child quite naturally though the animal was going to kill an rat. After that he had a morbid fear of killing anything and refused flesh of all kind that had to be killed before it could be eaten.

LONDON COPS NOW USE LENGTHY SLEEVE GLOVES

London, Eng.—London traffic policemen having adopted long white sleeve gloves so as to make their hand and arm signals more visible to pedestrians and drivers of vehicles have been dubbed "white wings."

An experiment the "white wings" have been placed at congested street crossings near the house of parliament and other busy corners and for the first week or two attracted much attention. In several instances such crowds assembled to watch the policemen wave their "wings" that extra policemen had to be called to shoo the spectators on their way so that traffic could again flow through the normal channels.

PLAN HUGE CANAL IN JAPAN

Tokyo.—The plan for a deep waterway canal between Tokyo and Yokohama is to be revived, according to the Japan Advertiser, which states that the authorities of the department of home affairs are drafting a bill for presentation to the Diet at its next session for the appropriation of 20,000,000 yen to be used in completing the project. It is expected the work will require about four years.

Sweethearts 63 Years—Though Wed

COL. and MRS. EDWIN S. ORMSBY INTD.

"We were sweethearts before we were married, and we've succeeded in staying that way," declared Colonel and Mrs. Edwin S. Ormsby, of Los Angeles, in celebrating their 63 years of married life.

LEGION DEFEATS GUARDSMEN 8-0

The American Legion nine of the Twilight League won the final game of the season from the Oregon national guard last night by a score of 8 to 0. The guardsmen never had a look in, the game being the Legion's from the start. Both sides played loose ball. The captain of the team and another one of their star players were out of the lineup which handicapped the guardsmen to a certain extent.

It was definitely decided at a meeting of the managers yesterday afternoon to have the play-off of the two games tied for second place on Monday evening on the Oxford park diamond. The Bankers and the Knights of Columbus are not tied for second place honors and the right to meet the Legion in the three game championship series. The game promises to be the best of the season. Both teams are about evenly matched with both teams' star twirlers working hard for the game. Bloomenberg will more than likely be on the mound for the Bankers and Heenan for the Knights.

The matters for the game last night follow:

Legion—Hooper and Pearline; Guards—Lanke and Schultz.

SCORPIONS INVADE HOUSES IN MEXICO

Durango, Mexico.—Five thousand children attended a special mass in the cathedral here recently, when prayers were offered for a cessation of the plague of scorpions which has invaded this district.

From the thousands of dead insects which have been brought in to the municipal authorities attempts are being made to produce a serum against the poisonous sting of the hairy creature. Ten thousand live scorpions have been shipped to the federal department of health.

GIFFORD QUILTS AS KLAN DRAGON

Portland, July 18.—Fred L. Gifford, for the last three years head of the Ku Klux Klan in Oregon, has resigned as grand dragon, the resignation taking effect July 15. Ben H. Sullivan of Atlanta, Ga., arrived in Portland several days ago and has taken charge of the office of grand dragon temporarily. Announcement of Mr. Gifford's resignation has been expected for the last six months, as he has been getting his affairs in shape to relinquish the office.

BROOKLYN BRIDGE EARNS BIG PROFITS

New York.—Brooklyn bridge is a shrewd landlord. Its eye to advancing values of business property is shown by the announcement that it will increase its rents some 25 per cent as present leases expire. Commissioner Mills of the department of plant and structures as its fiscal agent, started the boom two tenants from \$3000 to \$10,000 a year.

44,000 BOLTS EVERY DAY

London.—Scarcely a second passes, year in and year out, winter and summer, when there are not at least 100 lightning flashes some where in the world, according to the recently issued Blue Book of the meteorological office of the British government.

During a year, says the book, the world experiences 16,000,000 thunder storms, or an average of 44,000 a day.

ARTIFICIAL WELLS TO KEEP UP MINNEHAHA

Minneapolis, Minn.—Picturesque Minnehaha falls, immortalized by Henry Wadsworth Longfellow and known throughout the country as a park showpiece associated with such Indian lore, will be saved from virtual death and preserved by artificial means, undertaken by the local board of park commissioners.

Due to an abnormal deficiency in precipitation in recent years, Minnehaha creek, which supplies the waterfall, has suffered such a decreased flow, as to make it impossible to sustain the falls. It was explained by Theodore Wirth, superintendent of the local park board.

As a remedy, the park board has begun a project of supply the water through the drilling of wells. An 800-foot well is being sunk in Minnehaha creek. Superintendent Wirth said, and it is hoped to strike a flowing well. In falling in this, pumps will be installed. Should one well be insufficient, several others will be sunk.

COOLIDGE MAY CALL ON HOOVER

Swampscott, Mass., July 18.—(AP)—Having discussed with Secretary Davis the possibility of a tie up in the anthracite coal industry, due to a deadlock of a new wage scale, President Coolidge went ahead with plans for conferences here with other cabinet officials.

It is regarded as certain that Secretary Hoover will be summoned to White Court if the anthracite situation becomes more threatening.

Mr. Hoover is now on the Pacific coast.

Inasmuch as Secretary Davis has called for Europe and will be out of the country until late in August, the commerce department head, on account of his close contact with the situation, naturally is one to whom the president will turn for advice.

Secretary Davis, before leaving New York for Europe, said he thought that the operators and miners would come to an agreement before September 1.

AGE OVERESTIMATED; JAP COMMITS SUICIDE

Tokio, Japan.—Because he was actually only 89 years old, and not 91 years, as reported in the list of those to whom silver cups are to be presented in commemoration of the silver wedding celebration of the emperor and empress Kinsaku Tajima of Imajokumura, Sakuma killed himself in the traditional harakiri way.

The old man's body, with stomach ripped open was found in his room with a letter explaining that he could not accept the imperial cup under the circumstances, and did not wish to refuse it because such action would necessitate explanation and bring some one into disgrace for making a mistake. Death offered the only way out.

PRISON TO BE HOME OF ART

Revel.—The old prison tower, referred to in popular parlance as "Big Margaret," and used as a state prison under former Russian government, is to be converted into a home for artists. It will have a number of studios and exhibition rooms and living quarters for a number of Ethonian painters and sculptors.

WILLYS-OVERLAND FINE MOTOR CARS

WILLYS-KNIGHT
FINE MOTOR CARS

The Coupe-Sedan
\$1495
F.O.B. TOLEDO

50,000 Miles Mean Nothing to This Great Car
—now equipped with the Lanchester Balancer

Mileage that usually means the end of satisfactory service to many cars only serves to prove to the owner of a Willys-Knight that the motor improves with use.

There are great numbers of users of Willys-Knight cars who have driven in excess of 50,000 miles without expense for motor repairs.

The Willys-Knight sleeve-valve engine has no carbon troubles. It never needs valve-grinding. All moving parts in this engine slide or rotate—with none of the concussion of metal pounding on metal as in poppet-valve engines. That's why you'll never wear it out!

Another great reason for the Willys-Knight's popularity is its freedom from vibration—thanks to this car having exclusive United States rights to the celebrated Lanchester Balancer.

Four-cylinder models from \$1295 to \$1695. Six-cylinder models from \$1845 to \$2495. All prices f. o. b. Toledo. We reserve the right to change prices and specifications without notice.
