LIGHTNING SETS OIL TANK AFIRE STILL BURNING

Bakersfield, Cal., July 18.—The huge oil reservoir of the Pacific Oil company near here was burning today with 500 men erecting steel barriers two miles long to prevent the spread of burning oil. Lightning struck the tank last night causing a pillar of flame to leap skyward, a thousand feet. The loss to the tank is expected to reach \$500,000. There were 180,000 barrels of oil in the tank valued at \$225,000, and this will be destroyed.

The seething flames burst through the white hot rim of the tank and then swept to the first steel fire walls erected by oil workers sanctioned from all parts of the country.

Reports from the fire front were that no one had been injured. Being the first fire walls stands the second wall of steel barricades and earth breakwaters to stem a second overflow should the oil sweep the first wall of steel.

At five o'clock this morning a second boiling over the great tank occurred. The counter attack of the fire fighters finished, the encroaching sea of liquid fire roared futilely at the barricades but did not pass them into the second arc defense sectors.

MOROCCAN SITUATION IS DECLARED SERIOUS

Marcelles, France, July 18.—(A.P.)—France is facing a serious situation in Morocco, General Stanislaus Naulil, said today. He is the new commander in chief of the French forces fighting Abdel-Krim's Rifian invaders of the French Moroccan zone and is en route to the front to take active charge of the French campaign.

"Our difficulties," he said, "must not be underestimated. We are at the height of the hot season."

FARMER HELD ON LIQUOR CHARGE

State operatives, working in conjunction with Roy Bremner, deputy sheriff, this morning arrested John Burnkiau at his farm, two miles east of Mount Angel. Sixty three quarts of beer, a five gallon keg full of wine, and 47 quart bottles full of wine were found on the place. Arrest came as a result of a nuisance complaint filed yesterday, charging Burnkiau with making intoxicating liquor and selling it. It is reported by officers who arrested him that he has been selling his wine and beer to young people of high school age in and near Silverton. They further claim that three or four days ago Burnkiau had 1000 bottles of wine on his place.

The place is located on the east road leading from Mount Angel. A large cartouche jar was located on the place, the jar having a capacity of 15 gallons. Officers state that the receptacle was used in making beer. Apparently the beer was not cooked, no apparatus being on hand for that purpose. The wine was made from grape juice. Two 25 gallon wooden barrels, in which the juice was apparently allowed to ferment, were discovered.

VIOLATIONS OF LAW GAIN IN 10 YEARS

(Continued from Page One.)

court in the first six months of this year was 825 with fines aggregating \$3849.10. During the first six months of 1915 the total number of cases was 59 and total fines \$406. These include the offense of driving while intoxicated. The most frequent offense is speeding, which caused a total of 367 arrests the first six months of the year and only 30 in the corresponding period of 1915. Other things that are now considered traffic law offenses and caused arrests were not even mentioned in the city statutes 10 years ago.

JURY TAKEN TO VIEW EXTENT OF DAMAGES ALLEGED BY MILLER

(Continued from page one)

clude N. Miller, plaintiff, his son Tom Miller, Joe Kennedy, Portland real estate man, formerly of Woodburn, well versed in property conditions in that territory, as well as a number of Lake Labish land owners, called as experts on the value of beaverdam soil, and a number of others.

Attorney Walter C. Winslow, presenting Miller's case today, declared that by acceleration of the flow of the creek through the land as well as the deposit of sewage the land had been heavily damaged and made worthless. He declared that normally the land should have a rental value of from \$40 to \$50 an acre, which Miller has been losing over a term of years.

He asserted that the plea of the statute of limitations set up by the city was not a valid plea as the law did not contemplate the actual running against an unlawful procedure, which he declared the city was perpetrating in dumping its sewage in the creek and polluting the stream.

Blain McCord, one of the attorneys for the city, stated to the jury that Miller's land was beaverdam only in a few places, that it would become beaverdam land some day by beavers, but that these very dams, and rushes and brush on the place caused the overflow. It was not caused by the action of the city dumping the sewage.

Attorney John A. Carson today interposed a motion to preclude introduction of evidence on several grounds which he alleged made the complaint faulty, including one that there was no allegation in the complaint that the action of the city was wrongful, unlawful or without consent of the plaintiff, that there was no allegation the city had failed to comply with the rules of the state board of health, and that the improvement by the city of Woodburn in 1918 was a permanent improvement, that the plaintiff knew at the time it was a permanent improvement and would damage him, and that the statute of limitations has run against him since that time.

EDWARDS KNOCKED OUT SECOND TIME BY DERN

Portland, Ore., July 18.—(A.P.)—Knocked out and carried from the ring for the second time in one week, was the fate of Billy Edwards, Sals City, who met Ira Dern, Salt Lake, in a sensation of return wrestling bout last night. They are right heavyweights. After losing the first fall to Edwards on a headlock, Dern, with a body scissor clamped on him, rose to his feet, locked his arms about Edwards' legs and catapulted Edwards backwards onto his back so violently, the latter was knocked cold and had to be carried from the ring. Edwards was unable to resume and Dern was awarded the decision. Edwards got a decision over Dern Wednesday night on a foul when Dern struck Edwards with his clenched fist.

FIRES BURN IN WIDE AREA

Portland, Ore., July 18.—(A.P.)—A forest fire which yesterday swept through slashings in the Wind River canyon, north of Stevenson, Wash., was burning today in spotted areas over three miles long and a mile wide. Two power pumps and several donkey engines have been destroyed. A hundred and fifty men are fighting the blaze and it is believed it can be brought under control unless a strong wind develops.

What About Your Milk?

Our Milk and Cream comes from carefully selected herds.

We pasteurize and deliver twice daily, thereby delivering to our customers milk twelve hours fresher than would be possible if we pasteurized only once daily. You are invited to inspect our plant at any time. In fact, we would consider it a privilege to have you come.

Order our Babies' Special for the children and know that they are getting the Best.

For Better Health drink Real Buttermilk. We have it and deliver it at 10c per quart.

We solicit your patronage on the basis of clean sanitary equipment, prompt service and courteous treatment.
