Helen Gatke Is Bride Of Today

A charming event of this afternoon was the wedding of Miss Helen Gatke, daughter of Mr. and Mrs. Charles Gatke and Edward J. Warren, son of Rev. and Mrs. W. J. Warren of Portland, which was solemnized at four o'clock in the home of the bride's parents on State street. The groom's father, Rev. W. J. Warren and the bride's brother, Dr. Robert Moulton Gatke, a member of the Willamette university faculty, officiated at the service which was attended by relatives and a few close friends.

The bride was a lovely picture in her gown of blonde colored crepe back satin, which was made on very straight lines. She carried a shower bouquet of bride's roses. Miss Mildred Seeley of Portland who was her only attendant was attired in a gown of powder blue georgette. Albert Warren, brother of the groom acted as best man. Frances Hodge, preceding the ceremony, played Mendelssohn's wedding march.

A lovely effect was carried out in the rooms where many flowers in gold and blue shades were used. Following the ceremony Mrs. Robert Moulton Gatke cut the ices and Mrs. James Kroisel of Albany was at the coffee urn. They were assisted in the serving by the Misses Frances Hodge and Elsie Hop Lee.

Both Mr. and Mrs. Warren are well known in Salem where they attended Willamette university. Mrs. Warren is a member of the Beta Chi sorority and of the Chrestophilian literary society and Mr. Warren is affiliated with the Alpha Psi Delta fraternity and the Chrestomathian literary society.

Following a tour of the Oregon and Washington beaches Mr. and Mrs. Warren will go to Pendleton to make their home where Mr. Warren is a member of the high school faculty.

STUDEBAKER
Special Six Coach
$760 Down and 18 Monthly Payments of $71 Each

Why the One-Profit* Coach Excels

—it is engineered and built complete by one organization—Studebaker. It is a perfectly co-ordinated, harmonious unit. This means better performance, greater comfort and increased mileage at an accepted coach price

AN AUTOMOBILE, like any other highly specialized machine, runs more smoothly—lasts longer—gives greater satisfaction—when its thousands of elements are carefully co-ordinated into one harmonious unit.

Obviously, a better car can be produced when all vital parts are designed, engineered and manufactured by one organization.

The Studebaker car is built on this "one-profit" principle. Not only all the engines, but also all the bodies, and all the axles, gear sets, differentials, springs, clutches, steering gears, gray iron castings and drop forgings are manufactured in Studebaker plants. This is not true of any other automobile in the fine car field.

The Studebaker, therefore, being built as a unit—functions as a unit—with all of the advantages of unit over assembled construction.

*By a "one-profit" car we mean a motor car that, in its vital parts, is manufactured by one organization—thus cutting out the extra profits and overheads which arise when vital parts are bought from others. There are only two cars that can be thus classified, because —of all the makes of passenger cars built in the United States, only 2 make all their own motors, bodies, clutches, springs, axles, gear sets, differentials, steering gear, gray iron castings and drop forgings. One of these 2 is Studebaker and the other is Ford.

"Coach" in name—Coupe in quality

The Studebaker Special Six Coach is an outstanding example of the finer quality made possible by this "one-profit" principle of motor car manufacture.

This automobile is really a fine 5-passenger coupe, but is called a "coach" because it carries the lowest price at which an enclosed car has ever been sold on the famous Studebaker Special Six chassis.

In this Coach fine grades of upholstery are used. You'll find the same quality of workmanship and materials in all hidden places that you see out in the open.

Many of the superiorities of this Coach are invisible—and therefore all the more important. But here are some you can easily see and check against competing cars: gasoline gauge on the dash, 8-day clock, automatic windshield cleaner, rear view mirror, door pockets, rear window curtains, ash receiver, trunk rack, ornamental pull-cord, cowl ventilator, stop light, dome light, tire carrier locked by the same key that locks door, and the splendid coincidental lock to ignition and steering wheel. Lights are operated from a switch on the steering wheel which is left free for this convenience by the elimination of the spark lever. In all Studebakers the spark is automatically controlled by the speed of the motor.

In its insistence upon comfort, this car is typically Studebaker. There is comfort in the extra heavy cushions—in the big springs—in the full balloon tires for which steering gear, fenders, etc., have been specially designed—in the ease with which passengers may enter or leave the rear of the car—in the extra large windows and windshield.

You can buy all this style, comfort and performance at the price because this is the only "one-profit" coach on the market today.

Buy now—no "yearly models"

You may buy this Coach today—or on any day of the year — with the assurance that there will be no "annual announcement" to make it artificially a "last year's model."

For Studebaker has discontinued the custom of presenting a new line of cars every year. Instead, Studebakers will be kept up to date all of the time.

Therefore you can buy this Coach in safety NOW.
