

RAILROADS PROMISE PLENTY OF CARS FOR CROPS

NO SHORTAGE OF CARS FOR FRUIT OR OTHER CROPS

Portland, July 30.—Producers and shippers of vegetables and fruit products in the Pacific northwest states are assured of ample facilities for early moving of their products to market. If any car shortage should occur it will be late this year and even then probably will not be acute, railroad men say.

All the rail lines serving Oregon, Washington and adjacent states have a surplus of box cars for moving grain and of refrigerator cars for moving perishable fruit and vegetables.

Butter and egg quotations were unchanged at the dairy exchange today. There were inquiries from California for sweet butter, but not much was available. There was also a demand from the south for eggs and a car was loaded out.

Poultry and dressed meats were steady.

The onion market has taken a sharp drop with Walla Walla globes going at \$3.75@4.25.

Prominent Men in the News

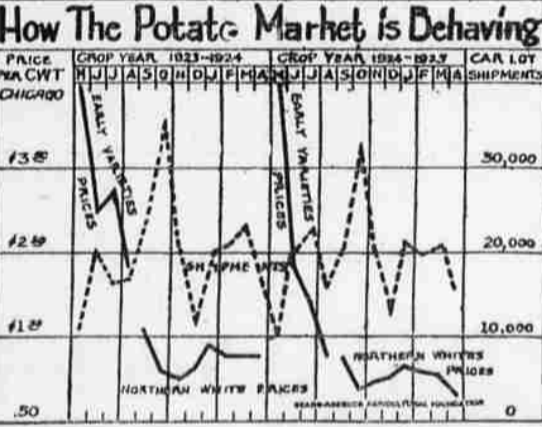

Above: GEN. SMEDLEY BUTLER; KING ALFONSO XIII.
Below: MARTIN B. MADDEN

General Smedley B. Butler, Public Safety Commissioner of Philadelphia, Pa., was urged by Governor Pinchot to become a gubernatorial candidate. King Alfonso of Spain, granted France permission to send French troops in Spanish colonial territory in pursuit of Riffian forces. Representative Martin B. Madden, of Illinois, took the baths at Bad Nauheim, Germany, recuperating from illness. Nathan F. Leopold, in the Illinois State Penitentiary at Joliet for the murder of Robert Frank, suffered an attack of appendicitis.

Potato Crop of U. S. Reduced.

Unprofitable prices for most of the 1924 potato crop induced growers to cut the main crop acreage this spring, and the prospective yield has been further slashed by frost and dry weather, according to the Sears-Roebuck Agricultural Foundation Index for July. Prices probably will average higher and the total income for the present crop should exceed the receipts of last year, when prices frequently were below cost of production. Prices on old potatoes had a sharp advance late this season, but most of the final shipment from the bumper 1924 crop averaged cheaper than for the previous year. The new crop for northern states was marketed earlier than usual this spring. The market outlook is promising from intermediate sections now starting to ship.

CHECKS ISSUED IN PAYMENT OF CHERRY POOL

Checks are being issued by Vick brothers in payment of cherries shipped in the last pool by the Salem Black Cherry Association, the present checks however, being on a basis of only 5 cents a pound. The association has received only about two-thirds of its money on the delivery of this year, and due to the condition of the cherries which required much more careful sorting. In fact, it is stated, if the association had not installed the special tables which were put in, it probably would have been impossible to handle a number of the lots which were handled because of the poorer condition of the lots.

EARLY FLAX YIELD GOOD LATER PLANTING POOR

George Vick of Vick brothers states that seven and a half acres of flax pulled on their land yesterday brought fair results but that the late sowing did not turn out extra well. However, he states that the early sowings were fine, bringing in as much as three tons to an acre, but the late sowing suffered from lack of moisture. Vick brothers flax is contracted through the penitentiary.

TO BAR BABY ACTORS FROM GERMAN SCREEN

Berlin—Children under three years of age will not be permitted to appear in moving picture films if a bill introduced in the Reichstag becomes a law.

GREEN PRUNE DEAL IN VALLEY STILL IN THE AIR

Whether Young & Wells will get into a green prune deal this year has not been definitely decided. L. W. Wells stated on his recent visit here from Spokane that the firm is giving the matter such serious consideration that their foreman, Charles Anderson, will remain here during the summer season awaiting developments, both on the green prune proposition and also the apple deal to come later in the fall.

There is no question but the firm will handle apples here this fall on even a bigger scale than last year if the apples are available. The nature of the crop and the attitude of growers toward shipping green with a light crop will have considerable bearing on whether Young & Wells buy green prunes. It is understood that Denney & Co., are still in the mind of putting over a green prune deal this year, although nothing definite has been heard along that line since Roy Hurst left here following the cherry deal. When he left, however, he stated the company contemplated such a move.

Young & Wells has figured on a peach shipping deal out of here, but after scouring the valley for peaches it was decided there would not be enough available after the local supply had been filled to make it worth while to attempt it. In addition the local market pays prices so high that any sort of a price that buyers could get the peaches for for shipment would not be attractive to the growers.

WHEAT AND CORN CLOSE NERVOUS

Chicago, July 30.—Opening wheat prices, unchanged to 1/8 lower, September \$1.49 1/2 to \$1.51 and December \$1.51 to \$1.51 1/2, were followed by a material setback all around, September \$1.49 1/2 and December \$1.50 1/2.

After opening at 1/8 to 1 1/2 decline, September \$1.04 1/2 to \$1.05 1/2, the corn market underwent a decided further drop. Oats started at 1/2 cent lower, September 42 1/2 to 42 1/2, and later continued to sag.

Foreign selling of October lard had a bearish effect on the provision market.

Wheat closed irregular, 1 cent net lower to 1/2 cent advance, September \$1.50 1/2 to \$1.50 1/2 and December \$1.51 1/2 to \$1.52.

Corn closed nervous, 1/4 to 2 cents lower, September \$1.04 1/2 to \$1.04 1/2.

ROCKEFELLER PRESENTS 100 TON GIFT TO CHURCH

New York—John D. Rockefeller, Jr., is presenting the largest and heaviest call in the world to the Park Avenue Baptist church in memory of his mother.

The callion comprises 53 bells which run 3/4 chromatic octaves. The great mass of bell metal weighs more than 60 tons, and when completely installed, the steel work and fittings will bring the gross weight the church tower must support to more than 100 tons.
