33,333 CHRISTIANS
BEHEADED IN JAPAN

New York—Dr. Earl R. Bull, missionary of the Methodist Episcopal church in charge of the work in the Loo Choo islands, district of Japan, reports that in his travels about the island of Amakusa, he recently came across a huge grave marked by a large stone boulder on which it is stated that the heads of 11,111 Christians lie buried there.

The grave dates back to the year 1637, when the Japanese practically wiped out all Christians who had been converted to that faith by Roman Catholic missionaries. The inscription over this grave tells that 33,333 Christians were slain, beheaded and buried. Their heads were buried in graves many miles distant from the rest of their bodies. Only one-third of the Christian heads were buried in this particular island.

RUSSIAN PRISON LIFE
HELD MUCH IMPROVED

Moscow, Russia.—Prison life in Russia has greatly improved since the grim days of the bolshevik revolution. A much more humane regime has replaced the terroristic methods which accompanied the change from a monarchical to a democratic regime. From the hardened murderer down to the unoffensive looking youth accused of theft, prisoners eat, sleep, mince together and share the same daily conditions of prison life. Criticism is chiefly directed at the slender quantity of food and lack of outdoor exercise.

Mrs. Ross Returns From East

Mrs. LaRue Ross returned on Friday from a four weeks' visit on the Atlantic coast. Mrs. Ross was one of the Salem delegates at the national convention of the business and professional women in Portland, Maine, last month. She visited relatives and friends in Portland, Boston, Hartford, Connecticut, and New York city.

One of the most delightful features of Mrs. Ross' trip was the renewing of acquaintanceships with relatives of her father's people. She visited the old home of her great-grandfather in the Catskill mountains. The old stone home built by him is still standing.

Mrs. Ross was the week end guest of Dr. Clarence Crane, famous Boston surgeon, at his country home at Dover, Massachusetts. Dr. Crane spent his boyhood days here and last fall visited old Salem friends. He was the guest of Hal D. Patton at that time.

The return trip was made by way of the Canadian Rockies. Mrs. Ross stopped over at Banff and Lake Louise on her way home. Dr. Mary Purvine, also a representative of the Salem club at the national convention, will arrive home later this week. She is visiting relatives in New York.

Mr. and Mrs. J. M. Clifford left this morning for a ten day motor and camping trip in southern Oregon. They will visit Crater Lake, the Klamath Falls country, and will return by way of the McKenzie pass.

Lexington, Mass., March 5.—"I had been suffering from shaving pimples on my neck for years and, I believe, had tried everything under the sun for them without avail. One day on a friend's advice, I purchased some of your Resinol Ointment and was astonished at the quick results. After a week's constant use, the pimples disappeared completely, leaving the skin clear and fresh. I had thought my case was hopeless, so you can readily see why I was overjoyed at this cure! You can be sure that henceforth you have one more loyal booster for your product." (Signed) Fred J. Fox, 8 Bloomfield St.

DEVICE AIDS BLIND TO READ BY SOUND

Leningrad.—Professor Rosing, a famous oculist of this city, has invented a new device by means of which it is claimed the blind are able to orientate themselves and to read. In this apparatus all daylight effects are replaced by sound. Experiments carried out in the Leningrad Institute for the blind showed that the children, after the use of the apparatus was explained to them, were able by the different shades of sounds to determine articles in the room and to recognize persons who were passing them.

Professor Rosing is working to perfect his apparatus and is also evolving a new radio apparatus for transmitting graphic images

at a distance. By means of this apparatus, Professor Rosing says, every letter of the alphabet will be expressed by different sounds. So far he has succeeded in constructing definite sounds for letters and is hopeful of succeeding in his ultimate task.
