

VETS PROTEST ARLINGTON'S USE FOR MUSEUM

Declaring that "such an act is an infamous insult to our hero dead" some 100 members of the Marion County Veterans association, meeting at Silverton Thursday, voiced a protest against the opening of Arlington mansion as a museum for the display of relics of General Lee and the confederacy. The protest was in the form of a resolution, unanimously adopted at yesterday's meeting. The resolution further protested against the "treasonable act of the Daughters of the Confederacy" in attempting to have the United States flag removed from our Arlington national cemetery."

The Marion County Veterans association consists of some 200 persons belonging to the G. A. R. and its auxiliary, the W. R. C. the Daughters of Veterans, the Sons of Veterans, and its auxiliary, the United Spanish-American War Veterans and its auxiliary, the Veterans of Foreign Wars and its auxiliary and the American Legion and its auxiliary.

The association further protested against an act of congress permitting the coinage and sale of souvenir half dollars for procurement of funds to erect a monument on Stone mountain in commemoration of General Lee and other noted southern leaders during the Civil War. The second protest, also in the form of a resolution demanded "that no more of our national funds be perverted to the support of anyone or any cause that is inimical of seditions to our union."

The resolution will be sent to congress and also presented to national conventions of patriotic organizations throughout the United States with a view to encouraging them to take similar action.

Officers elected by the association were as follows: James Watson, Turner, president; Frances E. Gourley, Silverton, vice president; Mrs. Norma Terwilliger, Salem, secretary; Mrs. Maude Hicks, Woodburn, treasurer; Mrs. Minnie Fishwood, Silverton, marshal; Mrs. Sadie Scholl, Hubbard assistant marshal. Mrs. Courley is retiring president of the organization. Mrs. Terwilliger was elected secretary for the sixth consecutive year.

Robber Uses Woman As Human Shield In Battle With Police

New York, Aug. 7.—(A. P.)—A mother of four children used as a human shield by a robber fleeing in a hall of police bullets, is dead, and a detective dying, as a result of a spectacular gun fight under the Pennsylvania railroad terminal.

Two youthful gangsters were captured, police saving them from a crowd of 1500 persons who threatened lynching. Two others escaped.

Detective Richard E. Henneberry and a patrolman in a police car last night attempted to stop the automobile in which the four suspects were riding. The gang opened fire. Henneberry fell, a bullet severing an artery near the heart.

The men scattered as other police approached. Edward Hart,

18, the youngest, grabbed Mrs. Mary Connelly, 32, as she stepped from her doorway, held her in front of him, and returned the police fire. A moment later the woman was struck and Hart darted in to the house.

Mrs. Connelly died at a hospital and Henneberry is not expected to live. Police say Hart shot both the detective and the woman. Colls of rope, the fact that the car was stolen and other evidence convinced authorities that the four men were to stage a robbery.

Alma Johnson, a 17-year-old girl clerk, was later arrested in a Brooklyn rooming house as an accomplice of the gun men. Michael Guidice, a chauffeur, was arrested with her and charged with suspicion of homicide and grand larceny.

with 360 and Nyasa fifth with 358."

Fire Burns Itself Out

Everett, Wash., Aug. 7.—The fire situation in Snohomish county was considerably relieved this morning. Two of three fires at Lake Stevens had burned out. The third was burning west of the lake in a gulch. The fires at Beverly Park and Silver Lake are burning but no longer considered dangerous.

19,953 AUTOS LICENSED JULY

Registration of non-resident motor vehicles in Oregon for the month of July totaled 19,953, and exceeded that for July 1, 1924, by 983 and for 1923 by 9457, says a statement by Secretary of State Kozier.

"For the first seven months of 1925 the registrations amounting to 47,545, exceeded the total for the year 1923, May 4 to December 31, by 4035," says the statement. "For the corresponding period of 1924 the registrations were 44,376, and 13,357 from May 24 to July 31, 1923.

"Over half of the July registrations, or 11,961, came from California as their residence, and nearly half of the total number of foreign cars coming into the state last month, or 9494, registered at the Ashland and Medford stations. Ashland registered 6742, Medford 2752 and Portland was third with 2056. Grants Pass registered 1656. East of the Cascades, Ontario station was first with 1068, Klamath Falls second with 959, The Dalles third with 479. Pendleton fourth

NEW DEVICE PERFECTS RADIO TRANSMISSION

Pittsburgh, Aug. 7.—Termed by experts as revolutionizing the broadcasting of radio programs a special selective antennae was placed in operation for the first time last night by the Westinghouse Electric and Manufacturing company. Invented by Frank Conrad, assistant chief engineer of the Westinghouse company, the antennae is designed to pick up only certain signals from a certain direction, eliminating interference from the booster station, a great source of interfering heretofore, according to the radio engineer.

The special antennae operated last night was at KJKA, Hastings, Neb. Short wave length

carried a musical program from KDKA, Pittsburgh to the western station. Here it was intercepted on the special antennae and there amplified and put on the air again at the same frequency of wave lengths.

The antennae, said H. P. Davis, vice president of the Westinghouse company, make possible the amplification of radio waves without changing their form of frequency. "It is a real milestone in radio achievement," he said. "It provides the radio engineer with the thing he has been searching for to further his dream of making radio a practical, dependable method of communication over long distances which could not be accomplished with the use of so called super-power."

He added that the new system makes transmission dependable at great distances without loss of signal strength and free from static and other interference.

Grocer Starving to Death

"I had been sick for nearly 20 years with stomach trouble and was slowly starving to death as everything I ate caused terrible gas and pain and my food did not digest. I was reduced to 115 pounds. A friend advised me to take Mayr's Wonderful Remedy about 4 months ago, which I did and now weigh 151 lbs. and can eat anything. I am very thankful for Mayr's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at J. C. Perry's, D. J. Fry's and drugstore everywhere.—Adv.
