

ALL SECTIONS OF STATE TO DISPLAY AT STATE FAIR

In planning the 1925 Oregon state fair to be held in Salem September 23 to October 3, officials realized that high standards of leadership set by previous fairs challenged them to even larger achievements this year, and as a consequence sectional pride has been appealed to by them, with the result that practically every corner of the state will be represented at what will probably be the state's greatest annual exposition.

Conditions generally seem to be ideal for a fair greater than ever. Farm conditions are improved. A tremendously renewed interest in better live stock breeding has swept the state, and farm machinery manufacturers are bringing out a world of new labor-saving devices. These things will, in themselves, constitute a state fair exhibit that promises to eclipse any previously placed.

Numerous Features

In the numerous departments new features have been added and premiums increased, assuring every class of farming and industrial endeavor will be presented. The exhibits will not be "cut and dried" groups of displays, but will be designed to be of practical help to all those who view them. It is the ambition of Mrs. Ella Schultz Wilson, secretary of the fair board, one which she has frequently expressed that working exhibits become a foremost feature of the fair, and in accordance efforts will be put forth to institute some of them this year.

The state institutions have responded splendidly this year, and will, as heretofore, place their displays in the main pavilion. Flax, the most conspicuous product of Oregon just now, will be given a prominent place in the booth occupied by the Oregon state penitentiary, the fiber as well as the manufactured product to be shown.

The state hospital will make a notable general exhibit, showing all details of work both on the farm and in the institution itself.

County Exhibits

County exhibits will be of fresh and increasing interest, inasmuch as competition has been eliminated and the various sections represented by their foremost products. County agents, who annually assemble them, are attacking their work with renewed enthusiasm this year according to advice received at the office of the secretary in Salem.

The high lights of the exhibits will be, aside from the agricultural and livestock shows the horticultural display where fruits, nuts and like products will be presented

in profusion; the floriculture department, which promises the largest and most beautiful array of flowers and plants to be seen in the Pacific northwest this year; the industrial club exhibits with all the projects in boys' and girls' club work, showing in a striking manner what the growing up farmers of Oregon are doing in live stock raising, corn growing and like activities, which have been a marvel to club leaders the past few months.

Machinery Displays

The several big machinery buildings as well as overflow tents and structures will be occupied by farm implements and machinery, showing the many improvements of sweeping importance that have been made during the past year. Both stationary and working exhibits of every nature will be seen. The first showing of advanced models in automobiles will be viewed in the automobile show. Dealers have demonstrated unprecedented interest in this division this year, evidencing their belief in the advertising value of show space during state fair week.

In the woman's section thousands of exhibits of fancy work, culinary and pantry stores displays, home economics, demonstrations of various nature in which the modern woman is interested or wants to know about is assured. The south wing of the main pavilion which has been given over to art and textiles insures a much better show space than the room thereto occupied.

State Institutions

Under the direction of superintendents and department heads especially attractive exhibits are being planned by the inmates of the various state institutions. These exhibits, to be arranged, for the most part in the old educational building, will be increased in size as well as quality.

The Agricultural college will have a large section also in the educational building, the Canadian government to put on its largest display in years in the new pavilion.

There will be many innovations in the entertainment program, with headlines novel and diverting. Racing and horse shows will be outstanding, with music thrown in for good measure on every one of the six day, and nights.

Old Heads Retained

Superintendents of the various departments are pushing their plans to completion, so that everything will be in readiness by the end of the next month. With the exception of R. G. Fowler of Medford, all superintendents remain the same as last year, most of those heading the various departments having been in the same place for a number of years. The Medford man, formerly farm manager of

ALL STARS TO PLAY IN SUNDAY'S BENEFIT GAME

Tomorrow afternoon the Salem Senators and the all-stars, picked team from the two twilight leagues are to clash in the benefit game to enable the Senators to get out of the hole. The game is to be one of the most interesting yet played, for the reason that most of the members of the teams will be local talent. The local men will have some fast company and it will be no cinch for the Senators. The all-stars will present as formidable an aggregation as most of the Interstate league teams and it might turn out that the Senators take the short end of the score. At any rate the fans will be for the twilight leaguers.

A field meet is also to be a feature of the afternoon's events. The different stores are giving the winners of first and second places some nice prizes and it is expected that the competition will be rather keen. Both teams are to compete. All of the players are donating their services.

Prizes for the field meet are as follows: Long distance throwing—First prize, sweater from Bishop's; second prize, five shins from the Shyne Shoe. Accuracy throwing—First, cap from A. A. Clothing company; second prize, pair silk socks, Al Krause. 100-yard dash—First prize, chicken dinner for two from Gray Belle; second prize, carton cigarettes, Adolph Bros. Circling bases—First, box of candy from Spa; second, necktie from Scotch woolen mill, Pungo hitting—First, shirt from Mack's Shop; second, silver belt buckle from Burnett's.

The field meet is scheduled to start at 2:30 p. m. and the game at 3 o'clock. Tickets are on sale at nearly all of the stores. They are selling at 50 cents and entitle the holder to any place on the field. Fans are urged by the officers of the club to support the team as the Senators have one of the strongest teams in years.

The lineup for the two teams follows. The lineup for the all-stars will start the following way but may be changed at any time as they are going to give the array of talent a chance.

Senators—Bouton, ss; Maples, 2b; Proctor, 2b; Keene, 1b; Coleman, Barr, Steers and Rinehart, outfielders; Barham and Ashby, pitchers; Edwards, c.

All-Stars—Blumenberg, Hooper, Jenkins, Lauterbach and Weeks, pitchers; Pearmine and G. Thompson, catchers; Parker, Ruggles, Keller, Heenan, Frazier, Acton, Lucas, Humphreys, infielders; Laird, Gibson, Green, outfielders.

LEGION LOSES TO CORVALLIS IN 8 INNINGS

Errors and the failure to hit in the pinches when they meant run defeated the American Legion team last night when they lost to the Corvallis champions by a score of 4 to 3 in an extra inning game.

The Legion played good ball but errors accounted for all of the visitors' runs. The locals were also unable to get men across the plate when hits would have won the game.

In the first inning the visitors scored two runs on a series of errors. Bouton, first man up was safe when Jenkins misaid his fly to right field. Hughes went out, Hooper to Acton. Quisenberry was safe when Race dropped his fly to left field and Bouton scored. Maples got a hit and went to second on the throw. Pearmine threw low to third and Quisenberry scored. Scott fanned and Cassidy went out at first.

In the second inning they annexed one more run on more errors. Thompson was safe on Laird's error. Carr was safe on Sullivan's boot. Thompson going out at second a minute later. Proctor booted the ball just long enough to let Clayton beat him out. Bouton went out at first and Carr scored.

The locals scored their three runs in the fifth inning. Hooper was safe on Scott's error. Laird got a hit and Hooper went to second. Jenkins attempted to sacrifice and the fielders fell all over the ball and all hands were safe with the bases loaded and no one out. Sullivan got a hit and Hooper tallied. Proctor sent a line drive to Scott which he was lucky to get. Acton was safe on Bouton's error and Laird scored. Pearmine hit to first base and Jenkins was forced out at the plate. Maples threw to first to catch Pearmine but hit him on the head and Sullivan tied the score. Acton going out at third.

The game remained tied at the end of the seventh but the visitors scored one in the eighth to win.

ELECT DIRECTORS FOR DRAINAGE

F. W. Durbin, receiving votes representing 3848 acres, W. H. Steusloff, 3840 acres and T. B. Kay 3630 acres, were elected directors of the proposed new Salem Drainage district at a meeting of property owners last night at Richmond school. Forty-five hundred acres were represented, with 120 people at the meeting.

To many connected with the district the election of this board preceases eventual termination of its affairs, as Durbin was one of the main remonstrators against the district and threatened court action to tie it up at one time. Just what course of action the new directors contemplate, however, is not known.

Why thousands of Fords now run more smoothly

—this Eastern economy oil made for Fords has made it possible

WHEREVER you drive now, you will meet Ford cars that have acquired a new ease and efficiency of operation. They run more quietly and develop more power. There is a complete absence of jerky chatter when they start, stop and reverse. They are seldom sent to the shop for overhauling or engine repairs.

lubricate both the Ford engine and transmission, which must be lubricated by one and the same oil.

Veedol Forzol does both these Ford lubrication jobs perfectly. It gives these eight economies in operation:

The Eight Economies of Veedol Forzol

- 1—10 to 25% gasoline saving
- 2—10 to 25% saving in oil
- 3—10 to 25% less carbon
- 4—Eliminates costly chatter
- 5—Resists heat and friction
- 6—Increased ability to coast
- 7—Resists fuel dilution
- 8—Reduces repair bills

This marked improvement in the operation of these Fords has been made possible through the use of a new Eastern economy oil for Fords. This oil is Veedol Forzol.

How to make your Ford operate more smoothly

Your Ford, too, can have this same smooth running ease and economy of operation, if you use Veedol Forzol. Veedol Forzol makes this possible because it is especially designed to

Veedol Forzol is sold by thousands of dealers and authorized Ford agents. The orange and black Veedol Forzol signs are everywhere. Have your crankcase drained and refilled today. Ask for Veedol Forzol by name.
